World Mahzarin R. Banaji, Susan A. Gelman, 2013-03-26 Navigating the social world requires sophisticated cognitive machinery that although present quite early in crude forms undergoes significant change across the lifespan This book will be the first to report on evidence that has accumulated on an unprecedented scale showing us what capacities for social cognition are present at birth and early in life and how these capacities develop through learning in the first years of life The

volume will highlight what is known about the discoveries themselves but also what these discoveries imply about the nature of early social cognition and the methods that have allowed these discoveries what is known concerning the phylogeny and ontogeny of social cognition To capture the full depth and breadth of the exciting work that is blossoming on this topic in a manner that is accessible and engaging the editors invited 70 leading researchers to develop a short report of their work that would be written for a broad audience The purpose of this format was for each piece to focus on a single core message are babies aware of what is right and wrong why do children have the same implicit intergroup preferences that adults do what does language do to the building of category knowledge and so on The unique format and accessible writing style will be appealing to graduate students and researchers in cognitive psychology developmental psychology and social psychology

Comparative Causal Mapping Mauri Laukkanen, Mingde Wang, 2016-03-03 Comparative Causal Mapping The CMAP3 Method by Mauri Laukkanen and Mingde Wang is an introduction to the conceptual backgrounds of causal cognitive mapping and to the typical methods in comparative and composite causal mapping based on either interview or questionnaire primary data or on secondary documentary data The discussed CCM research is supported by CMAP3 a freely downloadable www.uef.fi/cmap3 Windows software platform for CCM studies The book has three parts The first discusses the theoretical underpinnings and methodological issues in causal mapping including the target phenomena and different interpretations of causal maps mapping the motives for using CCM methods and the criteria of method selection The second part focuses on the technical aspects of using CMAP3 in typical CCM research The third part presents three CCM study cases a classical document based study a semi structured interview based SIM study and a methodological study comparing SIM with an electronically administered structured hybrid CCM approach In addition to demonstrating CCM practices they suggest that different methods produce divergent results and are thus not substitutable The research task should determine which CCM approach is appropriate The book will appeal to both academic and professional audiences in particular to doctoral students and experienced researchers looking for new topics and method approaches but also to practitioners in fields such as management and organization studies organizational development public policy and education and knowledge management

Social Perception Leslie A. Zebrowitz, 1990 This book argues that the mainstream approach to social perception is a cognitive one which focuses primarily on the processes of perceiving people It aims to redress the imbalance by giving greater emphasis to the content of social perceptions the stimulus information on which they are based and the functions which they serve

The Oxford Handbook of Accurate Personality Judgment Tera D. Letzring, Jana S. Spain, 2021-02-02 Each day we make judgments about the personality characteristics of those around us and we routinely rely on them to guide our behavior in interpersonal interactions and relationships This handbook provides a review of theory and research on the accuracy of personality judgments After a historical review the first section presents the major theoretical models that guide research in this area and describes methodological approaches to evaluating accuracy The

second section reviews the research findings relevant to four moderators of accuracy and the third section focuses on judgments people make of themselves The fourth section examines various types of information used in making personality judgments while the fifth section provides examples of some of the domains to which accuracy research can be applied including romantic relationships and clinical practice Learning about the process of accurate judgments can be used to help people understand when and how they are more likely to make accurate judgments and this handbook offers a thorough evidence based and up to date review of this research field

We Are Better Than This Robyn Cadwallader, 2015-10-07 *We Are Better Than This* is a collection of essays and poetry addressing the Australian government's asylum seeker policy The aims of the book are several to provide some of the information about the situation in detention camps that is being withheld by the government to correct some of the government's misrepresentations of the current situation to clarify some of the complex legal issues surrounding the right to seek asylum and to give some insight into the plight of those who are seeking asylum It is hoped that this book will better inform people about the government's policies to support those who are unsatisfied and seeking to change the situation as well as those who are uncertain and need more easily accessible and reliable information Contributors are drawn from several areas of expertise and engagement with asylum seekers

Social Work Practice with People with Dementia Peter Scourfield, 2022-07-08 *Social Work Practice with People with Dementia* critically discusses the cultural and discursive contexts in which social work with dementia takes place This is because how we think about dementia influences how we treat people living with the condition The book also explains the demographic context that has made dementia a global public health priority in recent years The different forms of dementia are discussed in a way that is accessible to a non medical readership The book discusses the different settings and circumstances in which social work with people with dementia and their carers takes place and examines the chief elements of the social work role In doing this it explains the professional knowledge skills and values that social workers need in order to practice effectively in this area of growing importance Part of this is appreciating how approaches to dementia care have evolved over time In this context the book discusses how the dominant bio medical model has been challenged by person centred and rights based approaches As a key part of social work is to offer people choices the book provides information about a wide range of health social care and other services that are available whilst also highlighting the gaps that exist for different groups and in different areas Case studies and activities help the reader apply theory to practice *Social Work Practice with People with Dementia* will be of particular interest to social work students and early career social workers primarily in a UK context However it contains much relevant information about dementia and dementia practice for anyone involved with adult health and social care both in the UK and around the world

Developing the Virtues Julia Annas, Darcia Narvaez, Nancy E. Snow, 2016-08-18 Ethicists and psychologists have become increasingly interested in the development of virtue in recent years approaching the topic from the perspectives of virtue ethics and developmental psychology respectively Such interest in virtue development has spread beyond academia as teachers and parents have increasingly striven to cultivate virtue as part of education and child rearing

Looking at these parallel trends in the study and practice of virtue development the essays in this volume explore such questions as How can philosophical work on virtue development inform psychological work on it and vice versa How should we understand virtue as a dimension of human personality What is the developmental foundation of virtue What are the evolutionary aspects of virtue and its development How is virtue fostered How is virtue exemplified in behavior and action How is our conception of virtue influenced by context and by developmental and social experiences What are the tensions impediments and prospects for an integrative field of virtue study Rather than centering on each discipline the essays in this volume are organized around themes and engage each other in a broader dialogue The volume begins with an introductory essay from the editors that explains the full range of philosophical and empirical issues that have surrounded the notion of virtue in recent years

Empathic Accuracy William John Ickes, 1997-01-01 Empathic inference or everyday mind reading is a form of complex psychological inference in which observation memory knowledge and reasoning are combined to yield insights into the subjective experience of others This comprehensive volume addresses the question of how accurate our readings of thoughts and feelings of others actually are introducing two innovative methods for objectivity measuring this key dimension of social intelligence Presenting cutting edge research in this emerging area the volume offers essential insights into how and why people sometimes succeed and sometimes fail in their attempts to understand each other Leading experts cover such topics as the evolutionary and social developmental origins of empathic accuracy physiological aspects of empathic accuracy gender and other individual difference variables empathic accuracy and processes of mental control the dynamic role of empathic accuracy in personal and psychotherapeutic relationships and the relation of empathic accuracy to applied domains in psychology This book will be of interest to students researchers and professionals in a range of disciplines including personality and social psychology clinical and counseling psychology communication developmental psychology and marriage and family studies
