Relationships Between Subsidised And Commercial Theatre:

The Glory of the Garden Kate Dorney, Ros Merkin, 2020-05-22 *The Glory of the Garden* examines concepts and contexts of regional theatre in an age of globalisation and cosmopolitanism. It outlines the key debates and trends in the development of regional theatre since 1984 when public subsidy became a part of a package of plural funding and examines regional theatre's role in the theatrical ecology. Various perceived as a training ground for practitioners or a career dead end purveyor of stale product or innovative powerhouse, a transformer of urban environments and community hub, regional theatre has been a constant source of anxiety and pride for the Arts Council, the theatre community and arts journalists. *The Glory of the Garden* moves the debate about the role and importance of regional theatre beyond the cliché of crisis to examine the politics and policy of making performance outside London. This study combines contextual essays with practitioners' accounts and case studies including Birmingham Rep, Bristol Old Vic, Liverpool Everyman, Liverpool Playhouse, Lyric Hammersmith, New Victoria Theatre, Stoke Newington Playhouse, Salisbury Playhouse and key touring companies Cheek by Jowl, Complicit and Kneehigh Theatre. *The UK Cultural Sector* Geoffrey Brown, 2001 Based on primary analysis and including contributions from 25 of the country's leading experts, this volume offers a detailed analysis of arts policy in the UK.

1956 and All that Dan Rebellato, 1999 It is said that British Drama was shockingly lifted out of the doldrums by the revolutionary appearance of John Osborne's *Look Back in Anger* at the Royal Court in May 1956. But had the theatre been as ephemeral and effeminate as the Angry Young Men claimed? Was the era of Terence Rattigan and Binkie Beaumont as repressed and closeted as it seems? In this bold and fascinating challenge to the received wisdom of the last forty years of theatrical history, Dan Rebellato uncovers a different story altogether. It is one where Britain's declining Empire and increasing panic over the problem of homosexuality played a crucial role in the construction of an enduring myth of the theatre. By going back to primary sources and rigorously questioning all assumptions, Rebellato has rewritten the history of the Making of Modern British Drama.

The Cambridge Companion to British Theatre since 1945 Jen Harvie, Dan Rebellato, 2024-03-21 British theatre underwent a vast transformation and expansion in the decades after World War II. This Companion explores the historical, political and social contexts and conditions that not only allowed it to expand but crucially shaped it. Resisting a critical tendency to focus on plays alone, the collection expands understanding of British theatre by illuminating contexts such as funding, unionisation, devolution, immigration and changes to legislation. Divided into four parts, it guides readers through changing attitudes to theatre, making, acting, directing, writing, theatre sectors, West End, subsidised, Fringe, theatre communities, audiences, Black theatre, queer theatre and theatre's relationship to the state, government, infrastructure, nationhood. Supplemented by a valuable Chronology and Guide to Further Reading, it presents up-to-date approaches informed by critical race theory, queer studies, audience studies and archival research to demonstrate important new ways of conceptualising post-war British theatre's history, practices and potential futures.

The Cambridge History of British Theatre Jane Milling, Peter

Thomson, Baz Kershaw, Joseph Walter Donohue (Jr.), 2004-12-09 Publisher Description

Theatre Institutions in Crisis

Christopher Balme, Tony Fisher, 2020-12-30 Theatre Institutions in Crisis examines how theatre in Europe is beset by a crisis on an institutional level and the pressing need for robust research into the complex configuration of factors at work that are leading to significant shifts in the way theatre is understood, organised, delivered and received. Balme and Fisher bring together scholars from different disciplines and countries across Europe to examine what factors can be said to be most common to the institutional crisis of European theatre today. The methods employed are drawn from systems theory, social scientific approaches, economics and statistics, theatre and performance, and other interpretative approaches, hermeneutics and labour studies. This book will be of great interest to researchers, students and practitioners working in the fields of performance and theatre studies. It will be particularly relevant to researchers with a particular interest in European theatre and its networks. Chapter 9 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non-Commercial No Derivatives CC BY-NC-ND 4.0 license.

Stage Management

It provides those just starting out in the profession with a solid grounding in theatre stage management practices and procedures. The disciplines of lighting, set design and sound are discussed, but the main focus is the management of these elements and the processes and scheduling that go together to provide effective results. Chronologically following the production of a play, the book starts with pre-production planning and progresses to opening night. With easy reference checklists and a full glossary, it is the essential guide to stage management.

The Idea of Audience

Simon Piening, 2025-02-25 What sort of relationship do artists want with their audience? What kind of role do they imagine for the performing arts in their community? Under the creative industries, the audience relationship has been increasingly defined and shaped by marketing and/or institutional interests. Wedged between the competing needs of the market and their belief in the power of art to positively impact their communities, many artists and arts workers are caught in what Julian Meyrick describes as a confused intellectual terrain. While much audience scholarship has focused on understanding the motivations of audience members engaging with the arts, there has been considerably less research into the motivations of arts professionals with respect to their relationship with the audience. *The Idea of Audience* is a critical examination of the current fields of audience development and arts marketing and

explores the relationship between artists and audiences from the perspective of the artists themselves The book will be of most interest to students and academics of audience development arts marketing theatre performance and audience studies It is hoped that the reader will gain greater insight into what artists actually mean when they talk about their audience
