Safety First The Making Of New Labour:

The Making of New Labour's European Policy Russell Holden, 2001-12-17 Russell Holden considers the policy reversal on Europe made by the Labour Party between 1983 and 1999. It charts and analyzes how the Party became pro European with particular emphasis on how this change was conceived and implemented. In so doing it concentrates on how the European issue became a political priority and dynamic tool for promoting economic reform and Party unity, two essential requirements in making the Party New Labour a credible alternative government in the eyes of the general public. Welfare Hot Buttons

Sylvia B. Bashevkin, 2002-09-28 Welfare Hot Buttons provides one of the first comparative assessments of contemporary social policy change in three Western countries: Canada, the United States, and Great Britain. Sylvia Bashevkin probes the fate of single mothers on social assistance during the period when three third way political executives were in office: Bill Clinton (US), Jean Chrétien (Canada), and Tony Blair (Great Britain), and argues that despite seemingly progressive campaign rhetoric the social assistance policy realities under each of these three leaders were in crucial respects more punitive and restrictive than those of their neo conservative predecessors in the 1980s. Bashevkin addresses even more contentious issues in her study including the question of whether Anglo American welfare states are being eclipsed by what she views as newly emergent duty states. In her comparative approach and in her substantive analysis Bashevkin makes an original and critical contribution to the existing body of literature on social policy.

The Planning Polity Mark Tewdwr-Jones, 2005-06-27 Planning is not a technical and value free activity. Planning is an overt political system that creates both winners and losers. The Planning Polity is a book that considers the politics of development and decision making and political conflicts between agencies and institutions within British town and country planning. The focus of assessment is how British planning has been formulated since the early 1990s and provides an in depth and revealing assessment of both the Major and Blair governments' terms of office. The book will prove to be an invaluable guide to the British planning system today and the political demands on it. Students and activists within urban and regional studies, planning, political science, and government environmental studies, urban and rural geography, development, surveying, and planning will all find the book to be an essential companion to their work.

Manufacturing in Transition Rick Delbridge, James Lowe, 2005-08-04 The future of British manufacturing is of immense importance and topicality. As we slide towards a service sector economy based on finance and tourism, it is worth reflecting on whether this is the most appropriate or inevitable scenario. Manufacturing in Transition makes a genuinely interdisciplinary contribution to the debate over the UK's strategy for industrial renewal. Aimed primarily at business, economics, and industrial relations students, it looks at the current state of

British manufacturing sector within the global economy and asks whether manufacturing matters in the twenty first century The book explores key issues such as the chances of renewal developments in the management and organisation of operations and supply chains the differences made by Japanese methods This is a timely assessment of the UK's industrial development and makes a major contribution to debates over the industrial strategy and the position of manufacturing within industrialized economies

Punishment and Prisons Joe Sim, 2009-06-10 Punishment and Prisons is a scholarly powerful and inspirational critique With passion and humanity Joe Sim strips neo liberal penal policies of their reformist pretensions and demonstrates that prisons will continue to be brutal enforcers of gross economic inequalities until such time as the abolitionist alternative is realised Pat Carlen Joe Sim has long occupied a key position in British and European criminology This book is a genuinely important addition to the literature it is controversial and will stimulate debate Punishment and Prisons shows that critical criminology is alive that it has a voice and that it needs to be read Peter Young Professor of Criminology University of Hull A satisfyingly uncompromising critique that has no fear of coming to clear conclusions and provides little succour to those satisfied with short term change in the current system Sim provides the kind of concise articulate and powerful critique of apparent criminological realities which is necessary to motivate genuine reform and can help to ensure that practitioners and others do not forget the big picture Probation Journal Joe Sim offers a rich and persuasive analysis of imprisonment providing a wealth of political and policy detail He makes his reader confront the cruelties of imprisonment as well as its ineffectiveness in reducing crime and it would surely be impossible to read this book without feeling profound disquiet about the deployment of the power to punish in contemporary Britain Punishment and Prisons has a breadth and depth of scholarship arguing powerfully for a more critical criminology and an abolitionist stance towards imprisonment I urge all those interested in penal policy whether as

Getting Out Visiting Fellow Thomas C Guiney, 2018-09-19 *Getting Out* offers the first systematic account of the evolution of early release as a public policy concern in England and Wales between 1960 and 1995 At a time when public discourse on crime has focused to a significant degree upon the powers of the police and the sentence of the court this book seeks to turn current debate on its head and examine the circumstances in which policy makers have found it desirable to reduce the custodial element of a prison sentence and return prisoners to the community Drawing upon an extensive period of archival research and interviews with key decision makers this book considers three defining periods of reform that illuminate the complex ideas trade offs and moments of political controversy that have shaped this secretive and little understood area of penal policy The book argues that early release is inherently bound up with prevailing societal justifications for punishment and the appropriate use of imprisonment within our liberal democratic system It draws attention to the uneasy constitutional balance of power between the judiciary and the executive and reflects upon the administrative task of governing large captive populations where the hopes and expectations of inmates do not always align with the interests of prison authorities or the community at large In so doing *Getting Out* challenges widespread assumptions about penal change and shows how government policy has

been shaped by the legacy of past political choices the organisation of central government departments and the fluid balance of power within Whitehall

Penal Policy and Political Culture in England and Wales Mike Ryan, 2003-01-01 I dislike heaping so much praise on a book as people often imagine another agenda purpose or friendship is at stake That makes writing a review of Penal Policy and Political Culture all the more difficult This really is an excellent book and it is very difficult to put down For those with an interest in the small politics of penal policy it will be of immense appeal Students enrolled on courses looking at pressure groups and their influence or lack thereof will not find a better text For those at the coal face governors managers officers and prisoners it will fascinate and enlighten And for reformers it is something of a manifesto Utterly Suberb Steve Taylor Prison Service Journal For many years making penal policy in England and Wales was in the hands of a small male metropolitan elite made up of Ministers liberal lobby groups like the Howard League and the Prison Reform Trust and senior civil servants Even Parliament was kept at a respectful distance and public opinion on important penal questions like capital punishment was taken to be something that had to be managed and circumvented rather than acted upon Penal Policy and Political Culture in England and Wales looks at challenges to this cosy elite policy making world first from below as prisoners groups such as PROP and victims groups like Women Against Rape demanded their say in the 1970s and 1980s and then later as the New Right deliberately mobilised public opinion around penal questions as a mechanism to support its harsh social and economic policies in the 1980s and 1990s

Punishing Juveniles

Ido Weijers, R A Duff, 2002-09-06 The first special juvenile court was created in 1899 Since then juvenile justice has had a chequered history and is now more controversial than ever Should our treatment of young offenders differ in its aims or principles from that of adult offenders What role should ideas of punishment or retribution play Should our aims be rehabilitative and educative rather than punitive Should we divert young offenders from the criminal justice system altogether opting for restorative rather than retributive justice These questions are addressed in this interdisciplinary volume which brings together criminologists educationalists psychologists and philosophers Part I traces the history of juvenile justice identifying patterns and signs of what the future might hold Part II tackles fundamental normative issues of punishment moral education and restoration with particular emphasis on the role of communication Part III attends to the role that such emotions as shame and guilt should play in juvenile justice paying particular and critical attention to Braithwaite's conception of reintegrative shaming

relations the welfare state and political and economic issues in Scotland Wales and Northern Ireland The Politics of Multiculturalism B. Pitcher,2009-04-08 Taking as a case study the racial politics of the British state under New Labour this book advances an idea of multiculturalism as the only conceptual framework that is capable of making sense of the contradictions of contemporary race practice where racism is simultaneously rejected and reproduced Britpop and the English Music Tradition Jon Stratton,2016-04-15 Britpop and the English Music Tradition is the first study devoted exclusively to the Britpop phenomenon and its contexts The genre of Britpop with its assertion of Englishness evolved at the same time that devolution was striking deep into the hegemonic claims of English culture to represent Britain It is usually argued that Britpop with its strident declarations of Englishness was a response to the dominance of grunge The contributors in this volume take a different point of view that Britpop celebrated Englishness at a time when British culture with its English hegemonic core was being challenged and dismantled It is now timely to look back on Britpop as a cultural phenomenon of the 1990s that can be set into the political context of its time and into the cultural context of the last fifty years a time of fundamental revision of what it means to be British and English The book examines issues such as the historical antecedents of Britpop the subjectivities governing the performative conventions of Britpop the cultural context within which Britpop unfolded and its influence on the post Britpop music scene in the UK While Britpop is central to the volume discussion of this phenomenon is used as an opportunity to examine the particularities of English popular music since the turn of the twentieth century **New Labour's Countryside** Michael Woods,2008-09-10 A timely and critical review and analysis of the development and implementation of New Labour's rural policies since 1997 **The Struggle for Labour's Soul** Matt Beech,Raymond Plant,Kevin Hickson,2004-08-02 Contributors ranging from Chancellor Gordon Brown to the Guardian newspaper's Polly Toybee discuss the Labour Party's political philosophy and address key topics like globalization constitutional reform equality and the third way *Tony Benn New Edition* David Powell,2003-08-01 David Powell's fascinating biography traces Tony Benn's extraordinary fifty year political career from the day he first entered the House of Commons in 1950 Benn has always been a controversial figure Nonetheless many of the policies he championed including some for which he was widely belittled have since entered the statute books Indeed if history is a chronicle of ironies there can have been little more ironic than when following Benn's valedictory speech in the Commons in 2001 a Tory backbencher commended him to fellow MPs as Britain's greatest living Parliamentarian *Fabian Review* ,1997
