Straw Man Arguments Scott Aikin, John Casey, 2022-02-10 This book analyses the straw man fallacy and its deployment in philosophical reasoning While commonly invoked in both academic dialogue and public discourse it has not until now received the attention it deserves as a rhetorical device Scott Aikin and John Casey propose that straw manning essentially consists in expressing distorted representations of one's critical interlocutor To this end the straw man comprises three dialectical forms and not only the one that is usually suggested the straw man the weak man and the hollow man Moreover they demonstrate that straw manning is unique among fallacies as it has no particular logical form in itself because

it is an instance of inappropriate meta argument or argument about arguments They discuss the importance of the onlooking audience to the successful deployment of the straw man reasoning that the existence of an audience complicates the dialectical boundaries of argument Providing a lively provocative and thorough analysis of the straw man fallacy this book will appeal to postgraduates and researchers alike working in a range of fields including fallacies rhetoric argumentation theory and informal logic The Roeper School Don Ambrose,Bharath Sriraman,Tracy L.
