Secret School Preparation For Contact:

The Secret School Whitley Strieber,1997 We forget so much of childhood but why And why does at least some of it seem like such an important loss In this ground breaking book Strieber explores the strangeness of childhood and posits that the essential innocence of children is unearthly and that this must be because of alien visitation and education in our early years He presents an argument using his own research and experiences of alien visitation to support his theory that we are being invaded by alien communities from other planets which are essentially good and that they leave us when we become adults leaving us with a constant sense of their missing presence **The Secret School** Whitley Strieber,1997-10-08 **The Stargate Conspiracy** Lynn Picknett,2001-09-01 In recent years alternative historians have gained remarkable insight into the mysteries of ancient Egypt but according to Lynn Picknett and Clive Prince their discoveries tie into a dangerous conspiracy nearly fifty years in the making At the center of this conspiracy is a group of respected powerful individuals who believe that the ancient Egyptian gods are really extraterrestrials who will soon return to earth The conspirators have intimate and exclusive knowledge of this momentous second coming but they insist on keeping it to themselves What could be the purpose of such a conspiracy Why are the conspirators so desperate to keep their information a secret And what does it mean for mankind In this riveting well researched book Picknett and Price offer compelling evidence that the conspiracy exists and expose the insidious motivations of the individuals and organizations behind it **The Oxford Handbook of Millennialism** Catherine Wessinger,2016-07 Seventh Day Adventists Melanesian cargo cults David Koresh s Branch Davidians and the Raelian UFO religion would seem to have little in common What these groups share however is a millennial orientation the audacious human hope for a collective salvation which may be either heavenly or earthly The Oxford Handbook of Millennialism offers readers an in depth look at both the theoretical underpinnings of the study of millennialism and its many manifestations across history and cultures More Giants of the Genre Whitley Strieber,Laurell K. Hamilton,Harry Turtledove,Boris Vallejo,Joe R. Lansdale,Graham Masterton,Terry Pratchett,Terry Brooks,Harlan Ellison,John Carpenter,2023-07-12 Michael McCarty interviews masters of the fantastic including Harlan Ellison Whitley Strieber Laurell K Hamilton Harry Turtledove Boris Vallejo Joe R Lansdale Max Collins Charles Grant The Amazing Kreskin Richard Matheson and many more **Brainwashing** David Seed,2004 An examination of the literary and cinematic representations of brainwashing during the Cold War era CIA operative who was a tireless campaigner against communism it took hold quickly and became a means to articulate fears of totalitarian tendencies in American life David Seed traces the assimilation of the notion of brainwashing into science fiction political commentary and conspiracy narratives of the Cold War era He demonstrates how these works grew out of a context of political and socail events and how they express the anxieties of the time The Manchurian Candidate Seed provides new interpretations of writers such as Orwell and Burroughs within the history of psychological manipulation for political purposes using declassified and other documents to contextualise the

material he explores the shifting view points of how brainwashing is represented changing from an external threat to American values to an internal threat against individual American liberties by the U S government will welcome this study

Alien Intervention Paul Christopher,1998 The mystifying connection between the occult the New Age movement and the UFO phenomenon From both a Christian and objective perspective and through his unique approach the author reveals a complex and ingenious scheme that is rapidly unfolding as *Ghost Hunting* Dawn J. Schofield,2024-10-24 A creak of the floorboard The wind whistling in the eaves The rustle of some small creature a mouse maybe scurrying in the basement These are all sounds you might expect to hear in an old house But what if they were signs of something more Paranormal investigator Dawn J Schofield knows from experience that not all strange phenomena have a rational explanation In her thirty years of ghost hunting she s seen heard and even smelled things she couldn t debunk and now she s here to show you how to capture your own evidence of specters and spirits In this guide she shares her approach to paranormal investigation gives tips for location sourcing explains the tools of the trade and much more Along the way she tells true spine tingling tales of ghostly encounters from her own life from unexplained apparitions to disembodied voices to terrifying contact with spirits through a Ouija board By the end of this book you ll know all about the equipment techniques and unwritten rules you need to start exploring the supernatural Now the only thing left to do is muster the courage to face the unknown Alien Chic Neil Badmington,2004-08-13 From The War of the Worlds Mars Attacks Mission to Mars and Independence Day Neil Badmington explores our relationship with aliens and how thinkers such as Descartes Barthes Freud Lyotard and Derrida have conceptualised what it means to be human and post human The Super Natural Whitley Strieber,Jeffrey J. Kripal,2016-02-02 Two of today s maverick authors on anomalous experience present a perception altering and intellectually thrilling analysis of why the paranormal is real but radically different from what is conventionally understood Whitley Strieber Communion and Jeffrey J Kripal J Newton Rayzor professor of religion at Rice University team up on this unprecedented and intellectually vibrant new framing of inexplicable events and experiences Rather than merely document the anomalous these authors one the man who popularized alien abduction and the other a renowned scholar and renegade advocate for including the paranormal in religious studies The New York Times deliver a fast paced and exhilarating study of why the supernatural is neither fantasy nor fiction but a vital and authentic aspect of life Their suggestion That all kinds of impossible things from extra dimensional beings to bilocation to bumps in the night are not impossible at all rather they are a part of our natural world But this natural world is immeasurably more weird more wonderful and probably more populated than we have so far imagined with our current categories and cultures which are what really make these things seem impossible The Super Natural considers that the natural world is actually a super natural world and all we have to do to see this is to change the lenses through which we are looking at it and the languages through which we are presently limiting it In short The extraordinary exists if we know how to look at and think about it
