Gerald Lascelles, 1892 Gyrfalcons Norman Barichello, 2020-03-13 Gyrfalcons and humans have shared a remarkable relationship since prehistoric times These extraordinary arctic falcons have been revered coveted as an item of commerce persecuted and enjoyed as a spectacle of sport for at least ten thousand years Today climate change has brought new challenges with habitat in the far north changing rapidly as natural cycles begin to break down Drawn from over thirty years of study and observation this in depth study provides a comprehensive view of the gyrfalcon s place in the arctic ecosystem including their inextricable link to their primary prey the ptarmigan and their antagonistic relationship with golden eagles It explores the connection the bird has had with humanity in both legend and practice and the challenges it faces as its habitat continues to change This definitive look at the gyrfalcon shows us both sides of the majestic bird the master of its domain and a threatened species facing an uncertain future The Art of Falconry, by Frederick II of Hohenstaufen Frederick II (Holy Roman Emperor), Casey Albert Wood, Florence Marjorie Fyfe, 1943-06 De Arte Venandi cum Avibus was written shortly before the year 1250 by Frederick II Holy Roman Emperor King of Sicily and Jerusalem in whose court with its remarkably cosmopolitan and highly intellectual life may be found the real beginning of the Italian Renaissance In spite of its title it is far more than a dissertation on hunting There is a lengthy introduction dealing with the anatomy of birds an intensely interesting description of avian habits and the excursions of migratory birds Indeed

this ancient book has long been recognized as the first zoological treatise written in the critical spirit of modern science The sumptuous volume now in hand is however the first translation into English of the complete text originally divided into a prologue and size books Together the translators and editors have at last made available this classic work and have adorned it with notes comments bibliographies and glossary They have produced a work of great value to zoologists especially the ornithologist and also to everyone interested in the history of science and in medieval art and letters

The History of Western Palearctic Falcons Giovanni Leonardi, 2025-04-22

Falcons have been exploited by humans as food source ornamental purposes or for the falconry practices There is a large historical literature in which falcons were often mentioned but always along broader topics mainly ancient falconry and poetry This book is the result of a parallel project developed during the preparation of Behavioral Ecology of Western Palearctic falcons published by Springer in 2020 The main aim is to use archaeological and historical sources on falcons to delineate the past distribution and population ecology of these predators in the Western Palearctic ecozone Ultimately the approach to the data is aimed at defining the population dynamics of falcons over time The relationship conflict with human populations is also placed in this context By putting falcons as a central subject of study this book outlines their path in the Western Palearctic from the Pleistocene to modern ornithology

Feasting, Fowling and Feathers Michael Shrubbs, 2013-09-26 A highly readable review of some 700 years of avian exploitation The way wild birds have been exploited over the centuries forms the focus of this remarkable new book by Michael Shrubbs It looks at the use of birds as food for feathers and skins for eggs as cage birds as specimens and for hunting focusing on Britain northern Europe and the North Atlantic Never before has a book brought the huge amount of information on these topics in the academic literature together under one cover Introductory chapters on what was taken when why and its impact are followed by a number of sections looking in detail at important bird groups Along with discussions of broader themes of exploitation the book is packed with amazing facts For example we learn why Grey Herons were so important in medieval falconry why the Black Death was good news for bustards why Napoleon is to blame for the scarcity of Quail in

Britain today when tame plover stew was all the rage The book concludes with discussions of the cage bird and plumage trades both now consigned to the annals of history in Britain at any rate As well as summarising and condensing the material into a readable and entertaining account Shrubbs goes back to the original sources This has allowed him to shed new and surprising light on the biogeography of a number of British birds

Falconry in Literature David Horobin, 2004 Through falconry imagery the author takes the reader through a wide range of many poets and dramatists of the Late Medieval and Renaissance eras The symbolism and many references on this sport in literature gives the reader a good insight into falconry of the past and as it is practiced in the present The author has broken new ground and re-discovered references in literature known to an older generation of falconry enthusiasts This book will be of practical use to students and aficionados of the English literature in clarifying some of the confusion that falconry can cause in Medieval and Renaissance texts An interesting read of untold wealth of cultural and social history
