Looking North Northern England And The National Imagination:

Looking North Dave Russell, 2004-10 Investigating areas as diverse as travel literature fiction dialect the stage radio television feature film music and sport this book assesses the portrayal of the North of England within the national culture and how this has impacted upon attitudes to the region and its place within notions of Englishness The relationship between these cultural forms and the construction of regional identity has received only limited consideration and this fascinating work provides not only much new information but also a map for future writers The North although seen ultimately as other and the subject of much critical comment is also shown here as capable of stimulating the creative imagination and invigorating English culture in sometimes surprising ways *Regional Identities in North-East England, 1300-2000* Adrian Gareth Green, A. J. Pollard, 2007 Is North East England really a coherent and self conscious region The essays collected here address this topical issue from the middle ages to the present day 'Race,' Space and Multiculturalism in Northern England Shamim Miah, Pete Sanderson, Paul Thomas, 2020-06-02 This book challenges the narrative of Northern England as a failed space of multiculturalism drawing on a historically contextualised discussion of ethnic relations to argue that multiculturalism has been more successful and locally situated than these assumptions allow The authors examine the interplay between race space and place to analyse how profound economic change the evolving nature of the state individual racism and the local creation and enactment of multiculturalist policies have all contributed to shaping the trajectory of ethnic faith identities and inter community relations at a local level In doing so the book analyses both change and continuity in discussion of and national local state policy towards ethnic relations particularly around the supposed segregation integration dichotomy and the ways in which racialised events are perceived and identities are created and reflected in state policy operations Drawing on the authors long involvement in empirical research policy and practice around ethnicity race and racism in the Northern England they effectively support critical and situated analysis of controversial racialised issues and set these geographically specific findings in the context of wider international experiences of and tensions around growing ethnic diversity in the context of profound economic and social changes **Researching Northern English** Raymond Hickey, 2015-12-15 Northern English has become the focus of intensive research in the past decade or so following on a series of dedicated conferences The present book brings together leading edge contributions on various aspects of language use variation and change in the North of England The volume covers the history of English in this area as well as providing incisive studies of both the varieties of English spoken in cities and in larger parts of the area In addition the collection contains a number of interface studies e g concerned with the borders of the North of England both to Scotland and the South of England or dealing with second language varieties of Northern English or with additional issues such as enregisterment All these contributions help to draw a comprehensive picture of this key area of the English speaking world and point the way forward for future research *Lancastrians* Paul Salveson, 2023-06-29 This popular history explores the
