*Analysis of Lord Byron's Poem Well! Thou Art Happy* Sarah Ruhnau, 2010-10 Essay from the year 2010 in the subject English Language and Literature Studies Literature grade 1-3 Ruhr University of Bochum Englisch Seminar course Romantic Poetry language English abstract In the following essay I would like to analyse one of Lord Byron's earlier

poems namely *Well Thou art happy* which was written in November 1808 and thus belongs to the epoch of romanticism. The poem involves a poetic speaker who laments a love relationship to a woman that has come to an end. In his sadness he is torn between the love he still feels and the jealousy that occurs inside of him when he is concerned with his beloved's husband or their child. However, he is aware of the fact that it is necessary for him to get over the end of the relationship. As mentioned above, *Well Thou art happy* belongs to Byron's early poems as it was written in 1808 and in general Byron's poems written before 1809 are considered as early poems (cf. Marchand 15). Apart from that, the poem itself includes some hints which point out its early stage. In line 22, the poetic speaker talks about his boyish flame, and in line 33, he describes his early dream (cf. Byron 83). Hence, the poetic speaker seems to be a fairly young man who is not very experienced yet. This suits the typical characteristic of Byron's early poems. Marchand calls it a juvenile verse that describes youthful innocence as well as the fictions of flimsy romance (cf. Marchand 15).

Before I will begin to analyse the poem, I will start with a subchapter about its formal part.

*Byron's Temperament* Bernard Beatty, Jonathon Shears, 2016-05-11. This volume is the first to draw together in eight original essays by international scholars some of the dominant strains in critical thinking about Byron's temperament and behaviour. Using discourses and paradigms drawn from a variety of disciplines including literary studies, history of medicine, behaviourism, and cultural studies, its contributors explore and synthesise the development of behavioural strategies and their impact on his poetic manner. Studies of the precise relationship of the poet's body and mind have often placed Byron within some of our modern psychological and medical frameworks without acknowledging that these diagnoses are bound up with the complex business of reading and responding to literature. The topic of temperament uniquely allows concurrent discussion of body and mind within the context of Byron's writing as well as his life. In this sense, the book is primarily literary. Recent scientific or quasi-scientific theory is utilised and not discounted, but the book insists upon the relevance of literary procedures and evidence broadly understood, which are not dependent upon it and can contribute to enlarge or cast doubts upon some of its claims.
