tribute to Hamish Ritchie's deep interest in exile as a literary and historical phenomenon. The first eight focus on the British and Irish context including studies of Jürgen Kuczynski and his family, Martin Miller Lilly, Kann Hermann Sinsheimer, Albin Stuebs, Ludwig Hopf and Paul Bondy as well as contributions on the Association of Jewish Refugees and the exile experience as reflected in Klaus Mann's *Der Vulkan*. The following four contributions widen the discussion to encompass Germany, the Netherlands, Austria and Yugoslavia by focusing on the diaries of Anne Frank and Etty Hillesum, the early poetry of Bertolt Brecht and works by Vladimir Vertlib, Aleksandar Ajzinberg and David Albahari. The historical dimension is deepened with contributions on William Joyce, Joseph Jonas, the marginalisation of the mass emigration of the Jews within German memory and the exile of princesses for whom until recent times marriage often meant a life far from home.

Historical Dictionary of World War II Anne Sharp Wells, 2013-12-24 This dictionary covers the complex and costly conflict that began when Germany ruled by Adolf Hitler and the Nazi Party invaded neighboring Poland on 1 September 1939 and concluded when Germany surrendered on 7-9 May 1945 leaving much of the European continent in ruins and its population devastated. The war against Germany, Italy and the other European Axis members was fought primarily in Europe, the Mediterranean, the Middle East, East and North Africa and the Atlantic Ocean. The Axis powers were defeated by the Allies led by the Grand Alliance of Great Britain, the United States and the Union of Soviet Socialist Republics. The *Historical Dictionary of World War II* The War against Germany and Italy relates the history of this war through a chronology, an introductory essay, maps and photos and an extensive bibliography. The dictionary section has more than 300 cross-referenced entries on the countries and geographical areas involved in the war as well as the nations remaining neutral, wartime alliances and conferences, significant civilian and military leaders and major ground, naval and air operations. This book is an excellent access point for students, researchers and anyone wanting to know more about World War II.

Terrorism and Modern Literature Alex Houen, 2002-09-12 Is terrorism's violence essentially symbolic? Does it impact on culture primarily through the media? What kinds of performative effect do the various discourses surrounding terrorism have? Such questions have not only become increasingly important in terrorism studies, they have also been concerns for many literary writers. This book is the first extensive study of modern literature's engagement with terrorism. Ranging from the 1880s to the 1980s, the terrorism examined is as diverse as the literary writings on it. Chapters include discussions of Joseph Conrad's novels on Anarchism and Russian Nihilism, Wyndham Lewis's avant-garde responses to Syndicalism and the militant Suffragettes, Ezra Pound's poetic entanglement with Segregationist violence, Walter Abish's fictions about West German urban guerrillas and Seamus Heaney's and Ciaran Carson's poems on the Troubles in Northern Ireland. In each instance, Alex Houen explores how the literary writer figures clashes or collusions between terrorist violence and discursive performativity. What is revealed is that writing on terrorism has frequently involved refiguring the force of literature itself. In terrorism studies, the cultural impact of terrorism has often been accounted for with rigid structural theories of its discursive roots. But what about the performative effects of

violence on discourse Addressing the issue of this mutual contagion Terrorism and Modern Literature shows that the mediation and effects of terrorism have been historically variable Referring to a variety of sources in addition to the literature newspaper and journal articles legislation letters manifestos the book shows how terrorism and the literature on it have been embroiled in wider cultural fields The result is not just a timely intervention in debates about terrorism s performativity Drawing on literary critical theory and philosophy it is also a major contribution to debates about the historical and political dimensions of modernist and postmodernist literary practices **Lost Imperium** Paul

Stocker,2020-08-05 This book examines for the first time the role of Britain s Empire in far right thought between 1920 and 1980 Throughout these turbulent decades upheaval in the Empire combined with declining British world power was frequently discussed and reflected upon in far right publications as were radical policies designed to revitalise British imperialism Drawing on the case studies of Ireland India Palestine Kenya and Rhodesia Lost Imperium argues that imperialism provided a frame through which ideas at the core of far right thinking could be advocated nationalism racism conspiracy theory antisemitism and anti communism The far right s opposition to imperial decline ultimately reflected more than just a desire to reverse the fortunes of the British Empire it was also a crucial means of promoting central ideological values By analysing far right imperial thought we are able to understand how they interacted with mainstream ideas of British imperialism during the twentieth century while also promoting their own uniquely racist violent and authoritarian vision of Empire This book will be of interest to students and scholars of British fascism empire imperialism racial and ethnic studies and political history **Historical Dictionary of American Propaganda** Martin J.
