Louis I. Kahn's Jewish Architecture Susan G. Solomon,2015-05-01 In 1961 famed architect Louis I Kahn 1901 1974 received a commission to design a new synagogue His client was one of the oldest Sephardic Orthodox congregations in the United States Philadelphia s Mikveh Israel Due to the loss of financial

backing Kahn's plans were never realized. Nevertheless, the haunting and imaginative schemes for Mikveh Israel remain among Kahn's most revered designs. Susan G. Solomon uses Kahn's designs for Mikveh Israel as a lens through which to examine the transformation of the American synagogue from 1955 to 1970. She shows how Kahn wrestled with issues that challenged postwar Jewish institutions and evaluates his creative attempts to bridge modernism and Judaism. She argues that Kahn provided a fresh paradigm for synagogues, one that offered innovations in planning, decoration, and the incorporation of light and nature into building design. **Kahn** Louis I. Kahn, David Bruce Brownlee, David Gilson De Long, 1997. This volume contains six essays addressing different dimensions of architect and teacher Louis I. Kahn's work and his philosophy of architecture. Presentations of his renowned buildings, the Salk Institute, Kimbell Art Museum, and others are accompanied by

Trajectories in Architecture Michael Jasper, 2023-04-21. *Trajectories in Architecture: Plan, Sensation, Temporality* presents a compelling examination of underlying issues in late twentieth-century architecture. Three formal preoccupations and conceptual orientations are used as guiding threads or trajectories. These three trajectories—the plan as conceptual device, a logic of sensation, and temporalities—serve to organize individual chapters in the central sections of the book and provide a new lens to the study of period work, revealing architectural conditions and consequent spatial effects little explored to date. *Trajectories in Architecture* adds to scholarship and expands our understanding of the role of conceptual and formal criteria in the analysis and creation of works of architecture. The book provides potentially transformative new interpretations of influential architects and key projects from the last half of the twentieth century to reveal new alignments and potentialities in architecture's recent past as a contribution to identifying future possibilities. In so doing, the book argues for the still latent potential in modern architecture's traditions and design principles and their future expression. *Trajectories in Architecture* includes analysis of significant projects of Le Corbusier, Peter Eisenman, Zaha Hadid, John Hejduk, Louis I. Kahn, and I. M. Pei.

Utopias and Architecture Nathaniel Coleman, 2007-05-07. Utopian thought, though commonly characterized as projecting a future without a past, depends on golden models for re-invention of what is. Through a detailed and innovative re-assessment of the work of three architects who sought to represent a utopian content in their work, and a consideration of the thoughts of a range of leading writers, Coleman offers the reader a unique perspective of idealism in architectural design. With unparalleled depth and focus of vision on the work of Le Corbusier, Louis I. Kahn, and Aldo van Eyck, this book persuasively challenges predominant assumptions in current architectural discourse, forging a new approach to the invention of welcoming built environments and transcending the limitations of both the postmodern and hyper-modern stance and orthodox modernist architecture. **Source: *Book of American Architecture*** George Everard Kidder Smith, 1996. *Scorched Earth* is the first book to chronicle the effects of chemical warfare on the Vietnamese people and their environment, where even today more than 3 million people, including 500,000 children, are sick and dying from birth defects, cancer, and other illnesses that can be directly traced to Agent Orange dioxin exposure. Weaving first-person accounts with original research,

Vietnam War scholar Fred A Wilcox examines long term consequences for future generations laying bare the ongoing monumental tragedy in Vietnam and calls for the United States government to finally admit its role in chemical warfare in Vietnam Wilcox also warns readers that unless we stop poisoning our air food and water supplies the cancer epidemic in the United States and other countries will only worsen and he urgently demands the chemical manufacturers of Agent Orange to compensate the victims of their greed and to stop using the Earth s rivers lakes and oceans as toxic waste dumps Vietnam has chosen August 10 the day that the US began spraying Agent Orange on Vietnam as Agent Orange Day to commemorate all its citizens who were affected by the deadly chemical Scorched Earth will be released upon the third anniversary of this day in honor of all those whose families have suffered and continue to suffer from this tragedy *The Grove Encyclopedia of American Art* Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries
