first century as remarkable for their architectural diversity as for the variety of collections they display But how does the architecture of museums affect our experience as visitors This book proposes that by seeing space as common ground between architecture and museology and so between the museum building and its display we can illuminate the individuality of each museum and the distinctive experience it offers for example how some museums create a sense of personal exploration while others are more intensely didactic and how the visit in some cases is transformed into a spatial experience and in other cases into a more social event The book starts with an overview of the history of museum buildings and display strategies and a discussion of theoretical and critical approaches It then focuses on specific museums as in depth case studies and uses methods of spatial analysis to look at the key design choices available to architects and curators and their effects on visitors behaviour Theoretically grounded methodologically original and richly illustrated this book will equip students researchers and professionals in the fields of architecture museum studies curating exhibition design and cultural studies with a guide for studying museums and a theoretical framework for their interpretation

The Astonishing Works of John Altoon Tim Nye,2014-05-20 A beautifully produced monograph devoted to the paintings and drawings of John Altoon a central figure in the Los Angeles art scene of the 1950s and 1960s Haunting and erotic Altoon s colorful paintings and intimate drawings capture a magical moment in postwar California between the Beat Generation and the sexual and psychedelic revolution of the late sixties His larger than life personality and enthusiasm energized the circle of artists associated with the Ferus Gallery a nexus of L A avant gardism that included such still influential figures as Ed Keinholtz Robert Irwin Ed Moses Larry Bell and Ed Ruscha A boisterous hard living man in love with the ladies Altoon was plagued by bouts of depression alternating with episodes of mania that sometimes turned destructive He died young at the age of 43 from a massive heart attack and his funeral is said to have included the largest number of Los Angeles artists ever to gather in one spot This unique oversized presentation includes reproduced sketchbooks moving personal essays by major figures including poet Robert Creeley and pioneering West Coast curator Walter Hopps photographs of Altoon in his Venice studio a booklet of letters to Altoon and over 50 works of art

The Dynamics of Delight Peter F. Smith,2003-08-29 Rounding off decades of exploration into the various ways in which buildings and urban sequences make an impact on the mind The Dynamics of Delight emphasizes the qualitative aspects of form and space providing designers with an analytical framework in which to evaluate projects on an aesthetic level In laying the foundations for an appreciation of the aesthetic component in architecture Smith considers the mechanisms which are involved in the aesthetic response and goes on to consider how human perception may be influenced by natural phenomena and draws on chaos theory and biomathematics to illustrate this original argument

Thinking the Sculpture Garden Penny Florence,2020-02-20 This innovative book poses two deceptively simple questions what is a sculpture garden and what happens when you give equal weight to the main elements of landscape planting and artwork Its wide ranging frame of reference including the USA Europe and Japan is brought into focus through Tremenhoe Sculpture Garden Cornwall with which the book begins and ends Effectively less than 15 years old and largely the work of one man Tremenhoe affords an

opportunity to examine as work in progress the creation of a new kind of sculpture garden Including a historical overview the book traverses multiple ways of seeing and experiencing sculpture gardens culminating in an exploration of their relevance as cultural ecology in the context of globalisation urbanisation and climate change The thinking here is non dualist and broadly aligned with New Materialisms and Material Feminisms to explore our place as humans in the non human world on which we depend Eminent contributors including John Dixon Hunt George Descombes Bernard Lassus and David Leatherbarrow approach these issues through practices and theories of landscape architecture garden and art making history and writing and philosophy Richly illustrated with over 100 images including a colour plate section the book will primarily appeal to those engaged in professional or academic research along with sculpture garden visitors who will find new and surprising ways of experiencing plants and art in natural and urban settings Aernout Mik Aernout Mik, Laurence Kardish, Michael T.
