Intimacy on the Internet Lauren Rosewarne, 2016-04-14 The focus of this book is on the media representations of the use of the Internet in seeking intimate connections be it a committed relationship a hook up or a community in which to dabble in fringe sexual practices Popular culture film narrative television the news media and advertising present two very distinct pictures of the use of the Internet as related to intimacy From news reports about victims of online dating to the presentation of the desperate and dateless the perverts and the deviants a distinct frame for the intimacy Internet connection is negativity In some examples however a changing picture is emerging The ubiquitousness of Internet use today has meant a slow increase in comparatively more positive representations of successful online romances in the news resulting in more positive spin advertising and a more even handed presence of such liaisons in narrative television and film Both the positive and the negative media representations are categorised and analysed in this book to explore what they reveal about the intersection of gender sexuality technology and the changing mores regarding intimacy

Emotion in Language Ulrike M. Lüdtke, 2015-12-16 The miracle of children's language development and the joy of expressive language on the one hand and the vulnerability of language and the sorrow and grief caused by its distortion or even loss in people with aphasia or dementia on the other hand show us the inseparability of emotion and language in its extremes Although the emotional turn promised a paradigmatic shift from a rationalistic towards an emotion integrating conceptualization of language hardly any interdisciplinary research has focused on the interplay between emotion and language The present book covers the wide range of work on Emotion in Language with contributions from numerous disciplines in the three areas of Theory Research and Application With contributions both from well known pioneers in the area of this topic as well as from young scientists the book offers a broad range of perspectives from linguistics and language development to neurology psychology and developmental neuropsychology and to the fields of philosophy and phenomenology

The Psychology of Love Michele A. Paludi, 2012-03-09 From arranged marriages to online dating this four volume work presents everything from personal accounts to empirical evidence to document what creates love in our culture as well as around the world The field of biology views love as a hard wired mammalian drive akin to thirst and hunger In contrast psychology views love from a social and cultural perspective where our drive to find love and our responses to it are highly dependent on societal norms In *The Psychology of Love* esteemed author and educator Michele A Paludi examines love through all lenses thereby providing

readers a deeper understanding of the ways we can express caring sensitivity empathy and respect toward one another Each chapter in this comprehensive four volume work includes a scholarly overview of empirical research and theories about the psychology of love In addition individuals own definitions of love are included Special attention is paid to accepted standards of love across a variety of cultures the ways individuals express liking and love across the lifecycle and patterns in dissolutions of friendships and romantic relationships making note of gender and race differences **Love** Tom Inglis, 2013 Love is a dominant theme in Western popular culture It has become central to the meaning of everyday life propagated through the media and the market Being in love is idealized In this highly accessible introduction to love of all kinds Tom Inglis gives a clear concise picture of how love shapes and is shaped by society How is romantic love linked to capitalism What is the difference between loving and liking How does love link to hate shame and pride Inglis addresses all these questions and looks at how today's changing circumstances globalization and increased mobility have changed our perceptions of love and relationships **Intimacy and Developing Personal Relationships in the Virtual World**

Gopalan, Rejani Thudalikunnil, 2018-07-13 Online communication has exploded in the past decade with the development of social networking sites like Facebook as well as social media applications As more people turn to the online world to connect with others they must learn how to develop and maintain personal relationships with very little or no in person interaction Intimacy and Developing Personal Relationships in the Virtual World sheds light on the various issues that accompany online interactions The book examines activities that have gone from occurring in reality to taking place in the online world such as cyberbullying online social networking and online dating The publication also highlights the negative effects of spending a lot of time online such as mental health issues internet addiction and body image control This book is a vital resource for psychiatrists psychologists clinicians social workers medical administrators academicians educators and graduate level students **Cyberpsychology** Alison Attrill, 2015 Cyberpsychology provides a broad ranging thought provoking account of online behaviour and the opportunities challenges and risks such behaviour presents Written by an international team of authors the book provides diverse perspectives on the impact our interaction with the online landscape has on our identity and behaviour

The Couple and Family Technology Framework Katherine M. Hertlein, Markie L. C. Blumer, 2013-07-18 Couples and families worldwide have a constant electronic connection to others a fact that is influencing the concerns and issues they bring to therapy The authors of this resource help mental health practitioners to better deal with concerns such as online infidelity online dating internet addictions cyber bullying and many more by introducing the Couple and Family Technology CFT framework a multi theoretical approach that doesn't require clinicians to change their preferred clinical approach The CFT framework acknowledges the ways in which couples navigate their relationship with technology and a partner simultaneously and it attends to and in some cases incorporates the role of technology in therapeutic ways Included in the authors discussion of how different technologies affect relationships is a survey of what individuals motivations of

usage are an examination of the specific issues that emerge in treatment a study of the risks particularly relevant to intimate relationships and an introduction of the first ever technology based genogram They also examine technological usage across different developmental points in a couple s lifespan with attention given throughout to people from various cultural backgrounds Along with the CFT framework the authors also introduce a new discipline of family research Couple and Family Technology This discipline integrates three broad perspectives in family science and helps therapists maintain a systemic focus in assessing and treating couples where issues of the Internet and new media are problematic Online resources can be accessed by purchasers of the book and include videos additional case studies glossary and forms

The Structure of Digital Partner Choice Andreas Schmitz,2016-11-01 This work approaches the modern phenomenon of online dating examining the ways people make use of its technical and social potential In particular the users mate preferences choices strategies and interactions are analyzed using the innovative method of click stream observations and web questionnaire data For the purpose of these analyses two major theories are used an explicit theory of individual mate choice and the more general relational theory developed by Pierre Bourdieu which helps to highlight the social structures both underlying and resulting from mating online Results show that online dating is not a partner market free from social structure but that the traditional social conditions found offline are also reproduced in this virtual setting In contrast to the picture drawn by media discourse and advertising online dating represents a partner market which fulfills the promise of happiness in a socially differential way

Love and Intimacy in Online Cross-Cultural Relationships Wilasinee Pananakhonsab,2016-11-16 This book challenges assumptions about the motivations that drive women from relatively poor developing countries to use intermarriage dating sites to find partners from relatively wealthy developed countries It is generally assumed that economic deprivation or economic opportunities are the main factors but this book instead focuses on the work of women s imagination in online cross cultural relationships including the role of desire love and intimacy The experiences of Thai women are used to explore how they initiate develop and maintain love and intimacy with Western men across distance and time The book shows that in the absence of opportunities to search and meet partners from geographically distant parts of the world the technology of the internet offers new ways of searching for and managing relationships and has significant consequences for local experiences and expectations of love and partnering The book will be of interest to scholars and students with an interest in family and intimate life gender and sexualities Asian and Thai studies globalization and nationalism culture and media sociology and anthropology

Forensic Cyberpsychology Priyanka Soni,Rajat Singh,Arun Kumar,2025-01-15 The internet and technology have strikingly influenced how we communicate work and live The emergence of the digital era has given people access to a wealth of knowledge and the opportunity to communicate with others across the world posing both new opportunities and difficulties It s critical to comprehend how technology affects behaviour and decision making in people as it develops and shapes our daily lives This is where forensic cyberpsychology enters the picture since it applies

psychological theories and practises to legal and criminal justice challenges The world is gradually disintegrating as cybercrime is at an unprecedented high In today s world cybercrime is pervasive and can be found in all civilizations and cultures Cybercrime is expensive and has a negative impact on people s physical social and psychological well being on a worldwide scale In this book emphasis on identifying the role of forensic cyberpsychology in use of technology and the internet and cybercrime and comprehending psychological issues pertaining to the use of technology and the internet is taken into consideration It gives insights of cybercrime in the contemporary era This book holistically explores the different arenas to understand cybercrime its impact and preventive measures in the modern world Compensated Dating Cassini Sai Kwan Chu,2018-01-16 This book considers a burgeoning social phenomenon compensated dating in Hong Kong that facilitates direct commercial sex exchange between consenting females from their mid teens through the late 20s and males from their early 20s to mid adulthood Informed by the transformation of intimacy the breakdown of institutional constraints the emergence of a new female sexual autonomy and the advancement of information technology this book moves beyond stereotypes of sex work to look at the complexities of compensated dating The phenomenon of compensated dating is distinctive from most other sex trades in that it involves intense emotional interactions and often extends beyond the commercial boundary Given the dynamic flexible and ambiguous nature of compensated dating it has become more of a space for sexual explorations and less of a rigid model of commercial sex at least in the eye of the participants This book walks through how men become involved in compensated dating and also sheds lights on how gender relations are negotiated with important implications on what it means to be a man and a woman in contemporary Hong Kong society It also speaks to the broader transformations of some of the key social structures and elements particularly gender and sexualities in the era of late modernity *Cyberbullies, Cyberactivists, Cyberpredators* Lauren Rosewarne,2016-01-25 Written by an expert in media popular culture gender and sexuality this book surveys the common archetypes of Internet users from geeks nerds and gamers to hackers scammers and predators and assesses what these stereotypes reveal about our culture s attitudes regarding gender technology intimacy and identity The Internet has enabled an exponentially larger number of people individuals who are members of numerous and vastly different subgroups to be exposed to one other As a result instead of the simple jocks versus geeks paradigm of previous eras our society now has more detailed stereotypes of the undesirable the under the radar and the ostracized cyberpervs neckbeards goths tech nerds and anyone with a non heterosexual identity Each chapter of this book explores a different stereotype of the Internet user with key themes such as gender technophobia and sexuality explored with regard to that specific characterization of online users Author Lauren Rosewarne PhD supplies a highly interdisciplinary perspective that draws on research and theories from a range of fields psychology sociology and communications studies as well as feminist theory film theory political science and philosophy to analyze what these stereotypes mean in the context of broader social and cultural issues From cyberbullies to chronically

masturbating porn addicts to desperate online daters readers will see the paradox in popular culture's message that while Internet use is universal actual Internet users are somehow subpar less desirable less cool less friendly than everybody else

The Philosophy of Sex Raja Halwani, Alan Soble, Sarah Hoffman, Jacob M. Held, 2017-09-15 This best selling volume examines the nature morality and social meanings of contemporary sexual phenomena Updated and new discussion questions offer students starting points for debate in both the classroom and the bedroom **Leading a Worthy Life** Leon R.

Kass, 2017-12-19 Most American young people like their ancestors harbor desires for a worthy life a life of meaning a life that makes sense But they are increasingly confused about what such a life might look like and how they might in the present age be able to live one With a once confident culture no longer offering authoritative guidance the young are now at sea regarding work family religion and civic identity The true the good and the beautiful have few defenders and the higher cynicism mocks any innocent love of wisdom or love of country We are super competent regarding efficiency and convenience we are at a loss regarding what it's all for Yet because the old orthodoxies have crumbled our interesting time paradoxically offers genuine opportunities for renewal and growth The old Socratic question How to live suddenly commands serious attention Young Americans if liberated from the prevailing cynicism will readily embrace weighty questions and undertake serious quests for a flourishing life All they and we need is encouragement This book provides that necessary encouragement by illuminating crucial and still available aspects of a worthy life and by defending them against their enemies With chapters on love family and friendship human excellence and human dignity teaching learning and truth and the great human aspirations of Western civilization it offers people who are looking on their own for meaning and as well as to people who are looking to deepen what they have been taught or to square it with the spirit of our time *Online Dating as A Strategic Game* Maurice Kwok-to Choi, Kwok-bun Chan, 2013-12-03 Based on a study using online ethnography as the major research method this book explains why and how men in Hong Kong use QQ an online instant messenger to chase women in mainland China especially in the neighboring city of Shenzhen Chasing women through QQ is a reciprocal exchange process during which the resources to be exchanged in the interaction are not negotiated Rather the men provide resources to the women hoping for rewards in return that are not guaranteed This characteristic of the exchange makes men who chase women through QQ very strategic in their action They try to maximize the rewards and minimize the costs by adopting myriad strategies such as constructing an attractive online identity by strategic self presentation The role of emotions in the exchange process is also examined Men learn the emotional norms through the online forum but sometimes it is difficult for them to control their emotions some men fall in love when they are not supposed to As it happens they have failed to calculate the costs and rewards rationally in that they may provide too many resources to the women without getting enough rewards in return This book provides original insights into the thought processes motivations desires anxieties and risks of Hong Kong men seeking short term sexual relations with women on the mainland These insights are

highly relevant to our understanding of the quickly evolving use of social media a phenomenon of worldwide importance and deep implications Portable Communities Mary Chayko, 2008-10-23 Looks at the social implications of having constant access to others through cell phones wireless computers and other electronic devices
