Love's Subtle Magic Aditya Behl, 2016-07-01 The encounter between Muslim and Hindu remains one of the defining issues of South Asian society today It began as early as the 8th century and the first Muslim kingdom in India the Sultanate of Delhi was established at the end of the 12th century This power eventually reduced to vassalage almost every independent kingdom on the subcontinent In Love's Subtle Magic a remarkable and highly original book Aditya Behl uses a little understood genre of Sufi literature to paint an entirely new picture of the evolution of Indian culture during the earliest period of Muslim domination These curious romantic tales transmit a profound religious message through the medium of adventurous stories of love Although composed in the Muslim courts they are written in a vernacular Indian language and involve Hindu yogis Hindu princes and princesses and Hindu gods Until now they have defied analysis Behl shows that the Sufi authors of these charming tales sought to convey an Islamic vision via an Indian idiom They thus constitute the earliest attempt at the indigenization of Islamic literature in an Indian setting More important however Behl's analysis brilliantly illuminates the cosmopolitan and composite culture of the Sultanate India in which they were composed This in turn compels us completely to rethink the standard of the opposition between Indian Hindu and foreign Muslim and recognize that the Indo Islamic culture of this era was already significantly Indian in many important ways **My Laocoön** Richard

Artists has been reborn and reached perfection in our time Indeed the roster of great names in painting of the Cinquecento which only begins with those of Leonardo Michelangelo and Raphael appears to justify this grand claim Professor Freedberg here discusses the individual painters and analyses the hallmarks of their work He traces the classical style of the High Renaissance the Mannerism that succeeded it and the events in North Italy especially that resist stylistic categories He has given order to this diversity but at the same time has preserved the intense individuality of the works of art Great World Writers Patrick M. E. Worland, 1907 "Titian, Colonna and the Renaissance Science of Procreation " Anthony Colantuono, 2017-07-05 Titian
Colonna and the Renaissance Science of Procreation demonstrates that two major monuments of Italian Renaissance culture
Bellini's and Titian's famous series of mytho-poetical paintings for the camerino of Duke Alfonso d'Este of Ferrara and
Francesco Colonna's *Hypnerotomachia Poliphili* were conceived as mnemonic or pedagogical devices aimed at educating the
reader-beholder in the medical science of reproductive physiology and the maintenance of sexual health. It is further argued
that the learned courtier Mario Equicola who conceived the pictorial program of Duke Alfonso's camerino had read Colonna's
text and was extensively inspired by its prior literary argument. The study is organized in two parts intimately interrelated.
The first part is a study of Alfonso d'Este's camerino with a general introduction, individual chapters on each of Bellini's and
Titian's four pictorial bacchanals and a conclusion proposing a new and more accurate reconstruction of the layout of the
room, also including a completely new way of interpreting the ensemble. The second part of the study concerns Colonna's
Hypnerotomachia Poliphili again beginning with its own introductory essay and advancing a completely new interpretation of
the text. The brief conclusion brings the insights of the two sections together, clarifying the historical relationship between the
pictorial and literary works and explaining their larger cultural significance. Emphasizing Equicola's use of the
Hypnerotomachia as a model for pictorial invention, the author reveals how Titian's remarkably sensuous paintings and
Colonna's erotically charged romance are related by their common reference to the neo-Aristotelian medical theory of the
libidinal seasons and by corollary themes of marriage and sexual consummation. This peculiar intersection of cultural themes
came to prominence in the context of a courtly world in which medical science was increasingly brought to bear on the
