A Critical Realist's Theological Method Douglas W. Kennard, 2013-02-21 A Critical Realist's Theological Method explores a systematic theology method grounded in critical realism in the wake of Alister McGrath Imre Lakatos Nancey Murphy N T Wright and Dale Allison Kennard surveys philosophical and traditional theological approaches for contributions and limitations in order to set out a method for theology and science Kennard extends this method to a Thiselton Ricoeur hermeneutic that can fund insightful exegesis and Biblical theology in the wake of Ladd Dunn Vos and Goldingay This Biblical theology method is illustrated by wisdom literature the traditional reef of the discipline and then developed for the contributions toward systematic theology as Gabler had originally envisioned With contextualized Scripture sourcing most of the content for systematic theology the trajectory is shown in the subtitle Returning the Bible and Biblical Theology to be the Framer for Theology and Science The method is exemplified in exegesis of creation texts which frame possibilities for science Likewise Biblical theology frames a bio ethics integration of psychology and theology setting out a transactional model for psychological recovery with University of Chicago professor Paul Holmes A theology for peer review and work is also framed

Advances in Plastination Techniques Nicolás E. Ottone, 2023-11-22 Plastination is currently considered one of the most innovative forms of conservation of complete bodies sections and organs both human and animal for use in undergraduate and postgraduate teaching as well as morphological research In this sense to develop the various plastination techniques specific equipment and specialized training of academics are required who have the ability to carry out the diversity of protocols that exist depending on the anatomical material to be preserved The decomposition of organic matter is a vital process in nature but it is also an impediment to morphological studies and research This is particularly important in biological specimens that shrink considerably when exposed to normal atmospheric conditions For this reason it has always been a constantly pursued objective for anatomists Plastination in this regard is a true alternative in the conservation of perishable biological tissues complete bodies complete organs such as brains livers lungs kidneys hearts muscles joint preparations cuts in sections of complete corpses or from isolated regions etc reaching a dry and imperishable state through the use of different polymers and special plastics ensuring that the organs limbs and entire bodies do not lose their texture and apparently normal disposition This original book describes in detail and in an updated way the plastination techniques for the conservation of human and animal biological material demonstrating the applications in teaching and research of anatomy morphological sciences and health sciences The didactic chapters present the history and the fundamentals of plastination techniques steps equipment supplies material temperature as well as its clinical surgical and research applications The work also features

biosafety issues and provides Ethical Considerations in Plastination Advances in Plastination Techniques is intended for a cross section of academics technicians and advanced students from all areas of Health Sciences including Physicians and Dentists and Veterinary Sciences

The Bioarchaeology of Dissection and Autopsy in the United States Kenneth C. Nystrom, 2016-08-13 Encountering evidence of postmortem examinations dissection or autopsy in historic skeletal collections is relatively rare but recently there has been an increase in the number of reported instances And much of what has been evaluated has been largely descriptive and historical The Bioarchaeology of Dissection and Autopsy brings together in a single volume the skeletal evidence of postmortem examination in the United States Ranging from the early colonial period to the early 1900 s from a coffeehouse at Colonial Williamsburg to a Quaker burial vault in lower Manhattan the contributions to this volume demonstrate the interpretive significance of a historically and theoretically contextualized bioarchaeology The authors employ a wide range of perspectives demonstrating how bioarchaeological evidence can be used to address a wide range of themes including social identity and marginalization racialization the nature of the body and fragmentation and the emergence of medical practice and authority in the United States
