Metro Futures Economic Solutions For Cities And Their Suburbs:

Metro Futures Daniel D. Luria, 1999-11-10 The future of America is the future of our cities Restoring their health and wealth is the key to advancing racial justice to raising and equalizing wages to promoting equal opportunity to saving our environment I urge you to read and consider Metro Futures The Reverend Jesse L. Jackson Sr from the Foreword Metro Futures shifts the discussion of urban issues from despair over inner city problems to solutions that link urban and suburban well being With its specific state and federal policy recommendations Metro Futures offers timely hope for meaningful change The New Democracy Forum series is a civic treasure A truly good idea carried out with intelligence and panache Robert Pinsky The New Democracy Forum is a series of short paperback originals exploring creative solutions to our most urgent national concerns *Economic Development in American Cities* Michael I. J. Bennett, Robert P. Giloth, 2012-02-01 Economic Development in American Cities addresses the roles of municipal leaders and civic partners in promoting social equity by examining the experiences of five American cities in the 1990s Austin Cleveland Rochester Savannah and Seattle These five cities were chosen for their activist municipal administrations robust policy agendas and viable partnerships Contributors familiar with each city evaluate the impact of equity investments and extract lessons for municipal leaders and policy agendas Building on the past experiences of progressive cities each case study city offers fresh perspectives and examples told through a rigorous analysis of socioeconomic data and program outcomes combined with engaging stories about specific municipal administrations and policy agendas **Governing the Metropolitan Region: America's New Frontier: 2014** David Y. Miller, Raymond Cox, 2015-01-28 This text is aimed at the basic local government management course upper division or graduate that addresses the structural political and management issues associated with regional and metropolitan government It also can complement more specialized courses such as urban planning urban government state and local politics and intergovernmental relations **Place Matters** Peter Dreier, John H. Mollenkopf, Todd Swanstrom, 2004 Analyzes the problematic trends facing America's cities and older suburbs and challenges us to put America's urban crisis back on the national agenda The Regional Governing Of Metropolitan America David Miller, 2018-03-14 Economic regions competing in a global marketplace describes the future organizing principle of urban regions This emerging principle contrasts sharply with the historical notion of regions as the informal area in which geographically bounded municipalities operating in an intergovernmental framework As such we are becoming a planet of regions and some regions are moving faster to incorporate new ways of governing than others Regional Governance of Metropolitan America compares and contrasts governance strategies being adopted or are being considered in regions throughout North America These strategies find their final tests in dealing with issues such as the deep socioeconomic gulf between poor cities and affluent suburbs physical sprawl from urban growth and its environmental and social consequences and America's hesitation in creating effective systems of coordinated governance for city states Utilizing an historical review of the development of the

current legal framework within which municipalities have been organized the book then examines the competing theoretical frameworks assessing what makes for a successful governance strategy in a region 081339807x the Regional Governing of Metropolitan America *Urban Sprawl* Gregory D. Squires, 2002-05-02 *Urban Sprawl* is not simply a development that undercuts the quality of life for suburbanites It has raised alarms across the nation as fair housing advocates environmentalists land use planners and even many suburban employers who cannot find the workers they need have recognized that the costs go far beyond aesthetics Despite the agreement that something needs to be done there is no consensus on what works *Urban Sprawl Causes Consequences and Policy Responses* assembles leading scholars who analyze the major causes and consequences of urban sprawl and the policy initiatives that are being explored in response to these developments *Who's Qualified?* Lani Guinier, Susan Sturm, 2001-07-08 Affirmative action originated as a plan to correct the historical disadvantage of women and people of color to make the system more fair Yet for over twenty years it has been repeatedly attacked for being unfair to whites and even un American Guinier and Sturm begin with a critique of affirmative action as it stands now arguing that a system of selection that determines qualification from test scores and then adds on factors like race and gender doesn't work either for the people it includes or the people it leaves out But they go further asking us to rethink how we evaluate merit Marshaling lively examples from education and the workplace they expose the failure of tests to predict success They provide evidence that people's success depends on the opportunities they have to perform and that institutions do best when they are open to unanticipated contributions Offering a model of selection based on performance not prediction the authors reconception of an old ideal suggests at once a smart business practice and a step toward the promise of democratic opportunity Paul Osterman Stephen Steinberg Peter Sacks and others respond NEW DEMOCRACY FORUM A series of short paperback originals exploring creative solutions to our most urgent national concerns The series editors for Boston Review Joshua Cohen and Joel Rogers aim to foster politically engaged intellectually honest and morally serious debate about fundamental issues both on and off the agenda of conventional politics *Urban Spaces* James Jennings, Julia Sheron Jordan-Zachery, 2010-01-01 *Urban Spaces* is an interdisciplinary reader focusing on community based versus corporate based political and ideological struggles over the utilization of urban land and spaces **Global Fragments** Eduardo Mendieta, 2012-02-01 *Global Fragments* offers an innovative analysis of globalization that aims to circumvent the sterile dichotomies that either praise or demonize globalization Eduardo Mendieta applies an interdisciplinary approach to one of the most fundamental experiences of globalization the mega urbanization of humanity The claim that globalization unsettles our epistemic maps of the world is tested against a study of Latin America Mendieta also recontextualizes the work of three major theorists of globalization Enrique Dussel Cornel West and Jürgen Habermas to show how their thinking reflects engagement with central problems of globalization and conversely how globalization itself is exemplified through the reception of their work Beyond the epistemic hubris of social theories that seek to accept or reject a

globalized world Mendieta calls for a dialogic cosmopolitanism that departs from the mutuality of teaching and learning in a world that is global but not totalized Handbook of Labour Geography Andrew Herod, 2025-10-07 This illuminating Handbook provides a comprehensive overview of the exciting field of labour geography examining how spatial circumstances shape workers lives and behaviour as well as how workers shape landscapes It explores the history of labour geography how the field has developed globally and how labour geographers have conceptualised worker agency
