Metropolis 1890-1940 Anthony Sutcliffe, 1984-02 An ideal and welcome reference and reader for students of urbanism Metropolis 1890 1940 examines perceptions of the city during the dramatic urban growth of this period Metropolis looks at the policies adopted to deal with the new city and at the views of the city expressed in the art architecture literature cinema music and ideology of the time Internationally known experts discuss case studies of London Paris Berlin the Ruhr New York Moscow and Tokyo and a postscript brings the reader up to date with a survey of postwar urbanism The Planning of a New Town London County Council, 2015-03-05 The publication of *The Planning of a New Town* in 1961 aroused remarkable interest Its pages described a private new town sponsored by the London County Council LCC to be built at Hook in Hampshire a scheme that innovatively combined Garden City New Town traditions with sensitivity to modern design At its heart lay a multilevel and megastructural town centre intended to serve as a genuine focus for the gathering community featuring shops and amenities placed on a pedestrian deck with cars and servicing beneath The report itself proved extremely popular even though the New Town had fallen foul of political opposition at local and national levels and had been abandoned before any construction took place It offers an insight into the flux of ideas that surrounded New Town development in the early 1960s Analysing the world as it might have been not only identifies choices that were once available for shaping the built environment it also often reveals once cherished hopes and aspirations about how people might live in cities *Bibliography of Landscape Architecture, Environmental Design, and Planning* Antoinette Paris Powell, 1987

Paradise Planned Robert A.M. Stern, David Fishman, Jacob Tilove, 2013-12-03 *Paradise Planned* is the definitive history of the development of the garden suburb a phenomenon that originated in England in the late eighteenth century was quickly adopted in the United States and northern Europe and gradually proliferated throughout the world These bucolic settings offered an ideal lifestyle typically outside the city but accessible by streetcar train and automobile Today the principles of the garden city movement are once again in play as retrofitting the suburbs has become a central issue in planning Strategies are emerging that reflect the goals of garden suburbs in creating metropolitan communities that embrace both the intensity of the city and the tranquility of nature *Paradise Planned* is the comprehensive encyclopedic record of this movement a vital contribution to architectural and planning history and an essential recourse for guiding the repair of the American townscape

Transactions, 1985 **The British National Bibliography** Arthur James Wells, 1968 **Planning Twentieth Century Capital Cities** David Gordon, 2006-09-27 This book examines the plans for sixteen important capital cities around the world each with its own fully illustrated chapter written by an expert on the urban development of that city **Built Environment**, 1991 **Planning and Urban Change** Stephen Victor Ward, 2004-03-08 Fully revised and thoroughly updated the Second Edition of *Planning and Urban Change* provides an accessible yet richly detailed account of British urban planning Stephen Ward demonstrates how urban planning can be understood through three categories ideas urban planning

history as the development of theoretical approaches from radical and utopian beginnings to the new right thinking of the 1980s and recent interest in green thought and sustainability policies urban planning history as an intensely political process the text explains the complicated relation between planning theory and political practice and impacts urban planning history as the divergence of expectation and outcome each chapter shows how intended impacts have been modified by economic and social forces This Second Edition features an entirely new chapter on the key policy changes that have occurred under the Major and Blair governments together with a critical review of current policy trends **Artbibliographies Modern**
