Mexican art Justino Fernández,1966 *Art and Culture: Exploring Mexican Artifacts: Measurement* Elisa Jordan,2024-02-13 Mexico has a long history of tradition and culture The Olmec Zapotec Maya Aztec and Toltec were some of the first people to live in Mexico These people left behind many artifacts that help us learn about their lives They include buildings tools sculptures pottery and clothing Explore these historical links to the people of Mexico as you learn measurement This nonfiction book combines math and literacy skills and uses everyday examples of problem solving to teach subject area content The full color images math charts and diagrams sidebars and practice problems make learning math relevant and fun Text features include a table of contents glossary and index to increase understanding of math and reading concepts An in depth problem solving section provides additional learning opportunities while challenging students higher order thinking skills *Japanese Art & Culture* Kamini Khanduri,2005-08-04 Introduces the art and culture of Japan Includes a glossary and colorful photographs *María Izquierdo and Frida Kahlo* Nancy Deffebach,2015-08-15 Mar a Izquierdo 1902 1955 and Frida Kahlo 1907 1954 were the first two Mexican women artists to achieve international recognition During the height of the Mexican muralist movement they established successful careers as easel painters and created work that has become an integral part of Mexican modernism Although the iconic Kahlo is now more famous the two artists had comparable reputations during their lives Both were regularly included in major exhibitions of Mexican art and they were invariably the only women chosen for the most important professional activities and honors In a deeply informed study that prioritizes critical analysis over biographical interpretation Nancy Deffebach places Kahlo s and Izquierdo s oeuvres in their cultural context examining the ways in which the artists participated in the national and artistic discourses of postrevolutionary Mexico Through iconographic analysis of paintings and themes within each artist s oeuvre Deffebach discusses how the artists engaged intellectually with the issues and ideas of their era especially Mexican national identity and the role of women in society In a time when Mexican artistic and national discourses associated the nation with masculinity Izquierdo and Kahlo created images of women that deconstructed gender roles critiqued the status quo and presented more empowering alternatives for women Deffebach demonstrates that paradoxically Kahlo and Izquierdo became the most successful Mexican women artists of the modernist period while most directly challenging the prevailing ideas about gender and what constitutes important art **Cosmopolitanism in Mexican Visual Culture** María Fernández,2013-12-15 Since the colonial era Mexican art has emerged from an ongoing process of negotiation between the local and the global which frequently involves invention synthesis and transformation of diverse discursive and artistic traditions In this pathfinding book Mar a Fern ndez uses the concept of cosmopolitanism to explore this important aspect of

Mexican art in which visual culture and power relations unite the local and the global the national and the international the universal and the particular She argues that in Mexico as in other colonized regions colonization constructed power dynamics and forms of violence that persisted in the independent nation state Accordingly Fern ndez presents not only the visual qualities of objects but also the discourses ideas desires and practices that are fundamental to the very existence of visual objects Fern ndez organizes episodes in the history of Mexican art and architecture ranging from the seventeenth century to the end of the twentieth century around the consistent but unacknowledged historical theme of cosmopolitanism allowing readers to discern relationships among various historical periods and works that are new and yet simultaneously dependent on their predecessors She uses case studies of art and architecture produced in response to government commissions to demonstrate that established visual forms and meanings in Mexican art reflect and inform desires expectations memories and ways of being in the world in short that visual culture and cosmopolitanism are fundamental to processes of subjectification and identity
