Lang,2010-07 The divine myths of the vast American continent are a topic which a lifetime entirely devoted to the study could not exhaust This fascinating study by Andrew Lang is packed full of rich stories and well drawn conclusions relating to the myths and beliefs of the American continent Many of the earliest books particularly those dating back to the 1900 s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions using the original text and artwork Myth, Ritual and Religion Andrew Lang,1913 Myth, Ritual and Religion ,1887 *The Myths of Mexico & Peru* Lewis Spence,1913 Myth, Ritual and Religion (Vol. 1&2) Andrew

Religion (Complete) Andrew Lang, 2020-09-28 The past systems of mythological interpretation have been briefly sketched It has been shown that the practical need for a reconciliation between RELIGION and MORALITY on one side and the MYTHS about the gods on the other produced the hypotheses of Theagenes and Metrodorus of Socrates and Euhemerus of Aristotle and Plutarch It has been shown that in each case the reconcilers argued on the basis of their own ideas and of the philosophies of their time The early physicist thought that myth concealed a physical philosophy the early etymologist saw in it a confusion of language the early political speculator supposed that myth was an invention of legislators the literary Euhemerus found the secret of myths in the course of an imaginary voyage to a fabled island Then came the moment of the Christian attacks and Pagan philosophers touched with Oriental pantheism recognised in myths certain pantheistic symbols and a cryptic revelation of their own Neo platonism When the gods were dead and their altars fallen then antiquaries brought their curiosity to the problem of explaining myth Christians recognised in it a depraved version of the Jewish sacred writings and found the ark on every mountain top of Greece The critical nineteenth century brought in with Otfried Muller and Lobeck a closer analysis and finally in the sudden rise of comparative philology it chanced that philologists annexed the domain of myths Each of these systems had its own amount of truth but each certainly failed to unravel the whole web of tradition and of foolish faith Meantime a new science has come into existence the science which studies man in the sum of all his works and thoughts as evolved through the whole process of his development This science Comparative Anthropology examines the development of law out of custom the development of weapons from the stick or stone to the latest repeating rifle the development of society from the horde to the nation It is a study which does not despise the most backward nor degraded tribe nor neglect the most civilised and it frequently finds in Australians or Nootkas the germ of ideas and institutions which Greeks or Romans brought to perfection or retained little altered from their early rudeness in the midst of civilisation It is inevitable that this science should also try its hand on mythology Our purpose is to employ the anthropological method the study of the evolution of ideas from the savage to the barbarous and thence to the civilised stage in the province of myth ritual and religion It has been shown that the light of this method had dawned on Eusebius in his polemic with the heathen apologists Spencer the head of Corpus Cambridge 1630 93 had really no other scheme in his mind in his erudite work on Hebrew Ritual Spencer was a student of man's religions generally and he came to the conclusion that Hebrew ritual was but an expurgated and so to speak divinely licensed adaptation of heathen customs at large We do but follow his guidance on less perilous ground when we seek for the original forms of classical rite and myth in the parallel usages and legends of the most backward races
