Mexican American Fertility Patterns:

Mexican American Fertility Patterns Frank D. Bean, Gray Swicegood, 2014-06-23 The Mexican American population is the fastest growing major racial ethnic group in the United States During the decade 1970 1980 the Mexican origin population increased from 4.5 million to 8.7 million persons High fertility not immigration was responsible for nearly two thirds of this growth Recent and historical evidence shows that women of Mexican origin or descent bear significantly more children than other white women in the United States Mexican American Fertility Patterns clarifies the nature and magnitude of these fertility differences by analyzing patterns of childbearing both across ethnic groups and within the Mexican American population Using data from the 1970 and 1980 U S Censuses and from the 1976 Survey of Income and Education the authors evaluate various hypotheses of cultural social demographic and or economic factors as determinants of fertility differences Empirical analyses center on the interrelationships between fertility and generational status language usage and proficiency and female education This timely report concludes that Mexican American fertility is closest to that of other whites under conditions of greater access to the opportunity structures of the society

Elena R. Guti rrez, 2009-06-03 While the stereotype of the persistently pregnant Mexican origin woman is longstanding in the past fifteen years her reproduction has been targeted as a major social problem for the United States Due to fear fueled news reports and public perceptions about the changing composition of the nation s racial and ethnic makeup the so called Latinization of America the reproduction of Mexican immigrant women has become a central theme in contemporary U S politics since the early 1990s In this exploration Elena R Guti rrez considers these public stereotypes of Mexican American and Mexican immigrant women as hyper fertile baby machines who breed like rabbits She draws on social constructionist perspectives to examine the historical and sociopolitical evolution of these racial ideologies and the related beliefs that Mexican origin families are unduly large and that Mexican American and Mexican immigrant women do not use birth control Using the coercive sterilization of Mexican origin women in Los Angeles as a case study Guti rrez opens a dialogue on the racial politics of reproduction and how they have developed for women of Mexican origin in the United States She illustrates how the ways we talk and think about reproduction are part of a system of racial domination that shapes social policy and affects individual women s lives **The U.S.-Mexico Border**, 1983 **To Amend the Older Americans Act of 1965**

Diversity Nancy A. Denton, Stewart E. Tolnay, 2012-02-01 Presenting important work by well known demographers American Diversity focuses on U S population changes in the twenty first century emphasizing the nation s increasing racial and ethnic diversity Rather than focusing on separate groups sequentially this work emphasizes comparisons across groups and highlights how demographic and social structural processes affect all groups Specific topics covered include the formation of race and ethnicity population projections by race immigration fertility and mortality differentials segregation work and education intermarriage aging and racism *Contemporary Ethnic Geographies in America* Christopher A. Airriess, 2015-09-28 Ethnic diversity has marked the United States from its inception and it is impossible to separate ethnicity from an understanding of the United States as a country and Americans as a people Since the 1965 Immigration and Nationality Act the United States has experienced watershed transformations in its social cultural and ethnic geographies Considering the impact of these wide ranging changes this unique text examines the experiences of a range of ethnic groups in both historical and contemporary context It begins by laying out a comprehensive conceptual framework that integrates immigration theory globalization transnational community formation and urban cultural and economic geography The contributors then present a rich set of case studies of the key Latin American Asian American and Middle Eastern communities comprising the vast majority of newer immigrants Each case offers a brief historical overview of the group s immigration experience and settlement patterns and discusses its contemporary socioeconomic dynamics All these communities have transformed and been transformed by the places in which they have settled Exploring these changing communities places and landscapes this book offers a nuanced understanding of the evolution of America s contemporary ethnic geographies **To Amend the Older Americans Act of 1965, Hearings Before the Select Subcommittee on Education..., 92-2, on H.R. 12017, 13925, 13451, and Related Bills...** United States.
