Mexico A Country Study 3ed:

Mexico's Uneven Development Oscar J. Martinez, 2015-08-27 Mexico and the United States may be neighbors but their economies offer stark contrasts In Mexico's Uneven Development The Geographical and Historical Context of Inequality Oscar J. Martinez explores Mexico's history to explain why Mexico remains less developed than the United States Weaving in stories from his own experiences growing up along the U S Mexico border Martinez shows how the foundational factors of external relations the natural environment the structures of production and governance natural resources and population dynamics have all played roles in shaping the Mexican economy This interesting and thought provoking study clearly and convincingly explains the issues that affect Mexico's underdevelopment It will prove invaluable to anyone studying Mexico's past or interested in its future

Militarism in Mexico Jeffrey S. Cole, 1997 Mexican society is becoming militarized due to the increased use of the Mexican military in domestic affairs This militarization is the result of three factors the internal focus of the military the drug war and corruption The internal focus of the Mexican military is based on doctrine Mexico's drug war began in 1986 when U S President Reagan convinced their government that the trafficking of drugs constituted a National security threat Corruption is pervasive in Mexico due to the combination of seven decades of authoritarian rule by the hegemonic Institutional Revolutionary Party PRI and the associated effects from transnational drug trafficking The army represents the last publicly respected institution in Mexico During the past three years almost the entire law enforcement apparatus to combat drug trafficking has been replaced with military soldiers and numerous key political appointees and governmental positions have been filled with Mexican generals and colonels There are few national interests more profoundly consequential to the United States than the political stability and general welfare of Mexico The militarization and changing civil military relations in Mexico is an important aspect in U S Mexico relations and must be considered impossible policy changes
