Mhq Summer 1991 Volume 3 No 4:

Soul of the Sword Robert L. O'Connell, 2002 In an elegantly illustrated volume a noted historian reveals culture society and history through the saga of war and its implements from the claws and horns of our evolutionary antecedents to today's nuclear MIRV missiles 150 illustrations throughout Casualties of the New World Order M. Wesley, 1997-07-14 Casualties of the New World Order contends that the high rate of failure among post Cold War UN missions are attributable to common weaknesses which are vulnerable to civil war dynamics These mission weaknesses derive from the high level of control over the missions mandates and operations wielded by combinations of self interested and distracted UN member states The effects of these weaknesses are examined in the failed missions in Bosnia Somalia and Angola while their absence is observed in the successful missions to El Salvador Mozambique and Cambodia **A Military History of the Modern Middle East** James Brian McNabb, 2017-03-09 This timely study synthesizes past history with the major military events and dynamics of the 20th and 21st century Middle East helping readers understand the region's present and look into its future The Middle East has been and will continue to be a major influence on policy around the globe This work reviews the impact of past epochs on the modern Middle East and analyzes key military events that contributed to forming the region and its people By helping readers recognize historical patterns of conflict the book will stimulate a greater understanding of the Middle East as it exists today The work probes cause and effect in major conflicts that include the fall of the Ottoman Empire the World Wars the Arab Israeli wars and the U S wars with Iraq examining the manner in which military operations have been conducted by both internal and external actors New regional groups for example the Gulf Cooperation Council GCC are addressed and pertinent events in Afghanistan and Pakistan are scrutinized Since military affairs are traditionally an extension of politics and economics the three are considered together in historical context as they relate to war and peace The book closes with a chapter on the Arab Awakening and its impact on the future balance of power *Persian Gulf War, 1990-1991*, 1991 Artbibliographies Modern, 1988 **European Warfare 1815-2000** Jeremy Black, 2017-04-17 In this up to date account of European warfare since 1815 important treatments of major conflicts especially World Wars I and II are combined with insightful analyses of military developments and of their wider political and social contexts European imperial warfare also receives due attention European Warfare 1815 2000 recognises war as a topic of major importance in understanding the development of the modern world particularly Europe The contributors all leading experts in their fields are open to theoretical developments in the subject but also understand the difficulty of fitting war to any abstract model Ranging up to the present this is an original and fascinating volume No Wider War Sergio Miller, 2021-05-13 No Wider War is the second volume of a two part exploration of America's involvement in Indochina from the end of World War II to the Fall of Saigon Following on from the first volume In Good Faith which told the story from the Japanese surrender in 1945 through America's involvement in the French Indochina War and the initial advisory missions that followed it traces the story
