National Photography Collection, 1986 **The Official Picture** Carol Payne, 2013-06-01 Mandated to foster a sense of national cohesion The National Film Board of Canada's Still Photography Division was the country's official photographer during the mid twentieth century Like the Farm Security Administration and other agencies in the US the NFB used photographs to serve the nation Division photographers shot everything from official state functions to images of the routine events of daily life producing some of the most dynamic photographs of the time seen by millions of Canadians and international audiences in newspapers magazines exhibitions and filmstrips In The Official Picture Carol Payne argues that the Still Photography Division played a significant role in Canadian nation building during WWII and the two decades that followed Payne examines key images themes and periods in the Division's history including the depiction of women munitions workers landscape photography in the 1950s and 60s and portraits of Canadians during the Centennial in 1967 to demonstrate how abstract concepts of nationhood and citizenship as well as attitudes toward gender class linguistic identity and conceptions of race were reproduced in photographs The Official Picture looks closely at the work of many Division photographers from staff members Chris Lund and Gar Lunney during the 1940s and 1950s to the expressive documentary photography of Michel Lambeth Michael Semak and Pierre Gaudard in the 1960s and after The Division also produced a substantial body of Northern imagery documenting Inuit and Native peoples Payne details how Inuit groups have turned to the archive in recent years in an effort to reaffirm their own cultural identity For decades the Still Photography Division served as the country's image bank producing a government endorsed official picture of Canada A rich archival study The Official Picture brings the history of the Division long overshadowed by the Board's cinematic divisions to light **American Photographer**, 1986 Depicting Canada's Children Loren Lerner, 2011-04-07 Depicting Canada's Children is a critical analysis of the visual representation of Canadian children from the seventeenth century to the present Recognizing the importance of methodological diversity these essays discuss understandings of children and childhood derived from depictions across a wide range of media and contexts But rather than simply examine images in formal settings the authors take into account the components of the images and the role of image making in everyday life The contributors provide a close study of the evolution of the figure of the child and shed light on the defining role children have played in the history of Canada and our assumptions about them Rather than offer comprehensive historical coverage this collection is a

catalyst for further study through case studies that endorse innovative scholarship This book will be of interest to scholars in art history Canadian history visual culture Canadian studies and the history of children
