Sweet, 2012 God raises up Methodists for such a time as this Here is a ditty Len Sweet's Methodist grandfather used to sing A Methodist a Methodist will I be A Methodist will I die I've been baptized in the Methodist way And I'll live on the Methodist side What genius of Methodism inspired this kind of love and loyalty in the earlier years of the faith What did it mean to live in the Methodist way and to die on the Methodist side Perhaps it is time to resurrect a neo Wesleyan identity and to challenge the prevailing one calorie Methodism that characterizes so much of our tribe today What makes a Methodist How can we re-ignite the spark of genius that motivated such commitment in our cloud of witnesses The essence of Methodism's genius resides in two famous Wesleyan mantras heart strangely warmed inward experiences with a fire in the heart and the world is our parish outward experiences with waterfalls of cutting edge intelligence For Wesley internal combustion the former led to external combustion the latter In the 18th century Methodists in general and in their younger years the Wesley brothers themselves were accused of being too sexy What else could all those love feasts and strangely warmed hearts be about Why else were all those women in positions of leadership

With this book the author hopes to bring back to life some of Methodism's sexiness so that our current reproduction crisis can be reversed

The Last Priest of Jupiter : Book 1 of THE WISDOM OF THE WOLF Aidan M G Moore, 2013 In truth I found it hard going. It is not clear whether it is intended to be a book of instruction about the Roman conquest of Britain or an adventure story of a young boy who learns the tricks of the fighting trade from the Romans with the intention of using them against the same Romans back in Ireland. It turns out that this will not be necessary but that he will have to fight his uncle Niall who up to this point has been painted as a heroic figure. At the end the future contact with Christianity is foreseen. As an exposition of military and colonial problems in Britain and Ireland in the 5th century it is a wonderful piece of erudition. The explanation of the different origins of names and customs shows a mastery of the history and politics of the day. Similarly the story of the foreign cavalry in the Roman army. The problem is that the reader is expecting an adventure yarn with frequent setbacks and heroic reversals culminating in some kind of temporary triumph. The longer the book goes on the less this aspect is important. Clearly the book needs a map of Britain and Ireland and it would make easier reading if the names of the towns and regions were given in English. There needs to be a decision about which characters are important, what happened. Sal Bui. The notes at the heads of the chapters are a distraction, these should form a 20 page appendix at the end of the book. A true adventure story would not have such openings because the story would be more important than the explanations. I suggest that you break up long paragraphs and have a consistent way of dealing with things like quotation marks, breaks between paragraphs etc. The difference between the followers of Christ and of Jesus is good, so is the account of the raiding pirates from across the North Sea. There are many other excellent things but ultimately I feel the book falls between two stools: Roman history and adventure yarn. An example is Ch 2 the initiation of Dathi which appears to have no further relevance to the story.

Begin Here Rocio G. Davis, 2007-01-31 An analytically innovative work. *Begin Here* widens the current critical focus of Asian North American literary studies by proposing an integrated thematic and narratological approach to the practice of autobiography. It demonstrates how Asian North American memoirs of childhood challenge the construction and performative potential of national experiences. This understanding influences theoretical approaches to ethnic life writing, expanding the boundaries of traditional autobiography by negotiating

narrative techniques and genre and raising complex questions about self representation and the construction of cultural memory By examining the artistic project of some fifty Asian North American writers who deploy their childhood narratives in the representation of the individual processes of self identification and negotiation of cultural and national affiliation this work provides a comprehensive overview of Asian North American autobiographies of childhood published over the last century Importantly it also attends to new ways of writing autobiographies employing comics blending verse prose diaries and life writing for children and using relational approaches to self identification among others **Our Stories, Our Lives** A. value in reflecting on various often differing perspectives of our world. It seems many people live out their lifetime rather unthinkingly without ever considering seriously any purpose for their life beyond immediate personal pleasures and satisfactions. Then they die so they seem to think. A little intuition and insight soon reveals there is much more to our world than what we can see and that each of us has a real purpose for our existence. A basic truth the author points to is that human purpose is unattainable in isolation. Our thoughts no matter how lofty are worthless unless they are communicated and shared with others in love. And so he says he writes. This book brings forth numerous ideas and inventions, discoveries and talents revealed in literary, mathematical and art forms, all manifestations of God's handiworks revealed through our humanness. The book also points to the humble efforts, the drudgeries of routines, even the poverty of so many humans and how God values and honors every individual who sincerely lives to please our Creator God no matter their station in life. God's creativity didn't end the sixth creation day. Yes, God rested on the seventh day and He instructed us to do the same. God's creative time marches forward, never static but rather dynamic, energetic, ever changing, evolving with ever emerging newness and promise. Amazingly, God endorses and promotes our own human creativity with an important caveat. It is difficult to find a place on our earth's surface not rearranged to suit our human generational whims. In so many situations we have failed to clean up our messes. God gave us humans dominion over the whole earth. What we've collectively failed to understand or live up to is that dominion involves responsibility, conservation and ownership. Ever since the reformation and its associated human upheavals, technology has with continuing acceleration produced marvelous time saving creative accomplishments. That is for the minority of us humans fortunate enough to access them. But what about the majority, the masses of forgotten humans worldwide living in deep poverty, often homeless, their own resources confiscated by greedy entrepreneurs. And what about earth's surface so deeply wounded and scarred by human mining interests. Sad to say if the tables were reversed and the presently forsaken masses of humanity were somehow to become the privileged, it would be no different. We humans are all selfish sinners. So who's responsible? Don't blame Satan and his demons. All they do is suggest to us, mindful humans. Every evil ever manifested could be traced back to human sins. And is there any possible solution to the messes we've made? Of course there is, but few find it. The whole creation, life and humanity, Satan and his demons, the beauties and the sufferings all come into focus in Jesus. It's all about Jesus and his love for us humans. The author's writing style is suggestive of an ascending vortex cyclone of information that first focuses on some primary aspects of us and our world, written for the early childhood reader. It then spirals upward to give the reader deeper perspectives on similar topics, now written in format readable by primary students. Continuing to spiral upward, it is now addressed to intermediate level students utilizing still greater depth of reasoning and language used. Finally, the book looks deeper into advanced studies of some chosen topics. Bless us all, dear Lord, in our efforts to better know your creation and You. *Identity, Language, and Human Evolution* Pasquale De Marco, 2025-04-07.
