Redefinition Of Conservatism

Roland Axtmann

Redefinition Of Conservatism:

The Redefinition of Conservatism Charles Covell, 1985-12-09 *A Case for Conservatism* John Kekes, 2018-10-18 In his recent book *Against Liberalism* philosopher John Kekes argued that liberalism as a political system is doomed to failure by its internal inconsistencies In this companion volume he makes a compelling case for conservatism as the best alternative His is the first systematic description and defense of the basic assumptions underlying conservative thought Conservatism Kekes maintains is concerned with the political arrangements that enable members of a society to live good lives These political arrangements are based on skepticism about ideologies pluralism about values traditionalism about institutions and pessimism about human perfectibility The political morality of conservatism requires the protection of universal conditions of all good lives social conditions that vary with societies and individual conditions that reflect differences in character and circumstance Good lives according to Kekes depend equally on pursuing possibilities that these conditions establish and on setting limits to their violations Attempts to make political arrangements reflect these basic tenets of conservatism are unavoidably imperfect Kekes concludes however that they represent a better hope for the future than any other possibility

Recasting Conservatism Robert Devigne, 1996-08-28 Explores how conservative thought in the work of Oakeshott and Strauss and their followers responds to the postmodern loss of tradition morality and authority in contemporary British and American society The work also compares each theory to previous political outlooks in both countries *The Conservative Political Tradition in Britain and the United States* Arthur Aughey, Greta Jones, William Terence Martin Riches, 1992 This book seeks to break new ground by providing an original framework within which to understand conservative politics and to compare what has always been thought to be opposite ideal types a British conservatism characterized by traditionalism and an American conservatism defined by its optimistic individualism **The Democratic Theory of Michael Oakeshott**

Michael Minch, 2015-10-15 his book offers a description explanation and evaluation of Michael Oakeshott's democratic theory He was not a democratic theorist as such but as a twentieth century English political theorist for whom liberal theory held deep importance his thought often engaged democratic theory implicitly and many times did so explicitly The author's project penetrates two renewals The first is the revitalization of interest in Oakeshott and the second is the renewal of democratic theory which began in the 1980s In respect to this latter renewal the book engages the deliberative turn in democratic theory These revivals create the context for this new look at Oakeshott To state the matter as a problem one might say that in light of new and fecund democratic theory it is a problem for political theory if one of the most important political theorists of the twentieth century is left out of the discourse insofar as he has something relevant to say about deliberative democracy It is of no small importance that almost all the work in democratic theory being done these days is of the deliberative discursive kind or responses to it That is deliberative theory is driving the agenda of democratic theory The author argues that Oakeshott does indeed have something relevant to say which is applicable to this democratic theory

The Conservative Case for Education Nicholas Tate, 2017-07-20 The Conservative Case for Education argues that educational thinking in English speaking countries over the last fifty years has been massively influenced by a dominant liberal ideology based on unchallenged assumptions Conservative voices pushing against the current of this ideology have been few but powerful and drawn from across the political spectrum The book shows how these twentieth century voices remain highly relevant today using them to make a conservative case for education Written by a former government adviser and head teacher the book focuses on four of the most powerful of these conservative voices the poet and social critic T S Eliot the philosopher Michael Oakeshott the political thinker Hannah Arendt and the educationist E D Hirsch In the case of each thinker the book shows how their ideas throw fresh light on contemporary educational issues These issues range widely across current educational practice and include creativity cultural literacy mindfulness the place of religion in schools education for citizenship the teaching of history and Classics the authority of the teacher the arguments for and against a national curriculum the educational response to cultural diversity and more A concluding chapter sums up the conservative case for education in a set of Principles that would be acceptable to many from the Left as well as the Right of the political spectrum The book should be of particular interest to educators and educational policy makers at a time when conservative governments are in power in the UK and the USA as well as to researchers academics and postgraduate students engaged in the study of educational policy or those studying educational issues from an ethical philosophical and cultural standpoint

In Defence of Modernity Efraim Podoksik, 2013-05-14 Although Oakeshott's philosophy has received considerable attention the vision which underlies it has been almost completely ignored This vision which is rooted in the intellectual debates of his epoch cements his ideas into a coherent whole and provides a compelling defence of modernity The main feature of Oakeshott's vision of modernity is seen here as radical plurality resulting from fragmentation of experience and society On the level of experience modernity denies the existence of the hierarchical medieval scheme and argues that there exist independent ways of understanding our world such as science and history which cannot be reduced to each other On the level of society modernity finds expression in liberal doctrine according to which society is an aggregate of individuals each pursuing his or her own choices For Oakeshott to be modern means not only to recognise this condition of radical plurality but also to learn to appreciate and enjoy it Oakeshott did not think that it was possible to find a comprehensive philosophical justification for modernity therefore the only way to preserve modern civilisation seemed to be an appeal to sentiment As a consequence he was a passionate defender of liberal education as the best way to underwrite the conversation of mankind

[Handbook of Political Theory](#) Gerald F Gaus, Chandran Kukathas, 2004-07-15 This volume combines remarkable coverage and distinguished contributors The inclusion of thematic conceptual and historical chapters will make it a valuable resource for scholars as well as students Professor George Klosko Department of Politics University of Virginia This major new Handbook provides a definitive state of the art review to political theory past and present It offers a

complete guide to all the main areas and fields of political and philosophical inquiry today by the world's leading theorists. The Handbook is divided into five parts which together serve to illustrate the diversity of political theorizing: the substantive theories that provide an overarching analysis of the nature or justification of the state and political life; the political theories that have been either formulated or resurgent in recent years; the current state of the central debates within contemporary political theory; the history of western political thought and its interpretations; traditions in political thought outside a western perspective. The Handbook of Political Theory marks a benchmark publication at the cutting edge of its field. It is essential reading for all students and academics of political theory and political philosophy around the world.

A Companion to Contemporary Political Philosophy Robert E. Goodin, Philip Pettit, Thomas W. Pogge, 2012-03-12. This new edition of A Companion to Contemporary Political Philosophy has been extended significantly to include 55 chapters across two volumes written by some of today's most distinguished scholars. New contributors include some of today's most distinguished scholars among them Thomas Pogge, Charles Beitz and Michael Doyle. Provides in depth coverage of contemporary philosophical debate in all major related disciplines such as economics, history, law, political science, international relations and sociology. Presents analysis of key political ideologies including new chapters on Cosmopolitanism and Fundamentalism. Includes detailed discussions of major concepts in political philosophy including virtue, power, human rights and just war.

Understanding Democratic Politics Roland Axtmann, 2003-02-17. This textbook is designed for first-time students of politics. It provides an ideal introduction and survey to the key themes and issues central to the study of democratic politics today. The text is structured around three major parts: concepts, institutions and political behaviour and ideologies and movements. Within each section a series of short and accessible chapters serve to both introduce the key ideas, institutional forms and ideological conflicts central to the study of democratic politics and provide a platform for further in-depth studies. Each chapter contains a bullet-point summary, a guide to further reading and a set of questions for tutorial discussion. Designed and written for an undergraduate readership, Understanding Democratic Politics: An Introduction will become an essential guide and companion to all students of politics throughout their university degree.
