Religion For Tomorrow:

The Religion of Tomorrow Ken Wilber, 2017-05-02 A provocative examination of how the great religious traditions can remain relevant in modern times by incorporating scientific truths learned about human nature over the last century A single purpose lies at the heart of all the great religious traditions awakening to the astonishing reality of the true nature of ourselves and the universe At the same time through centuries of cultural accretion and focus on myth and ritual as ends in themselves this core insight has become obscured Here Ken Wilber provides a path for re envisioning a religion of the future that acknowledges the evolution of humanity in every realm while remaining faithful to that original spiritual vision For the traditions to attract modern men and women Wilber asserts they must incorporate the extraordinary number of scientific truths learned about human nature in just the past hundred years for example about the mind and brain emotions and the growth of consciousness that the ancients were simply unaware of and thus were unable to include in their meditative systems Taking Buddhism as an example Wilber demonstrates how his comprehensive Integral Approach which is already being applied to several world religions by some of their adherents can avert a cultural disaster of unparalleled proportions the utter neglect of the glorious upper reaches of human potential by the materialistic postmodern worldview Moreover he shows how we can apply this approach to our own spiritual practice This his most sweeping work since *Sex Ecology Spirituality* is a thrilling call for wholeness inclusiveness and unity in the religions of tomorrow

God's Continent Philip Jenkins, 2007-05-11 Is the Christian church in Europe doomed to collapse under the weight of globalization Western secularism and a flood of Muslim immigrants Is Europe on the brink of becoming Eurabia Though many pundits are predicting just such a scenario God's Continent reveals the flaws in these arguments and offers a much more measured assessment of Europe's religious future While frankly acknowledging current tensions Philip Jenkins shows for instance that the overheated rhetoric about a Muslim dominated Europe is based on politically convenient myths that Europe is being imperiled by floods of Muslim immigrants exploding Muslim birth rates and the demise of European Christianity He points out that by no means are Muslims the only new immigrants in Europe Christians from Africa Asia and Eastern Europe are also pouring into the Western countries and bringing with them a vibrant and enthusiastic faith that is helping to transform the face of European Christianity Jenkins agrees that both Christianity and Islam face real difficulties in surviving within Europe's secular culture But instead of fading away both have adapted and are adapting Yes the churches are in decline but there are also clear indications that Christian loyalty and devotion survive even as institutions crumble The third book in an acclaimed trilogy that includes *The Next Christendom* and *The New Faces of Christianity* God's Continent offers a realistic and historically grounded appraisal of the future of Christianity in a rapidly changing Europe **Religion Today** Ross Aden, Chris A.
