

# RELIGION IN AMERICA

1950 to the Present

Text, tables, and maps  
explaining the religious situation  
of the last quarter century and  
its likely future course

Jackson W. Carroll, Douglas W. Johnson  
and Martin E. Marty

Afterword by George Gallup, Jr.

# Religion In America 1950 To The Present

**Rusty Monhollon**

## **Religion In America 1950 To The Present:**

*Religion in America, 1950 to the Present* Jackson W. Carroll, Douglas W. Johnson, Martin E. Marty, 1979      *The Politics of Virtue* Elizabeth Mensch, Alan Freeman, 1993 Fiercely committed to the separation of church and state thoroughly pluralistic largely secular Where does a society like ours find common terms for conducting a moral debate In view of the crises surrounding the issue of abortion it is tempting to answer nowhere In this timely and provocative book Elizabeth Mensch and Alan Freeman urge that we challenge the extremes of both the pro life and pro choice views of the abortion issue and affirm the moral integrity of compromise Attempting to restore a level of complexity to the discussion and to enrich public debate so that we may move beyond our current impasse the authors argue that it is essential to understand how issues of legal rights and theological concerns interact in American public debate Returning to the years leading up to Roe v Wade Mensch and Freeman detail the role of religion and its relationship to the emerging politics of abortion Discussing primarily the natural law tradition associated with Catholicism and the Protestant ethical tradition the authors focus most sharply on the 1960s in which the present terms of the abortion debate were set In a skillful analysis they identify a variety of factors that directed and shaped the debate including among others the haunting legacy of Nazism the moral challenge of the civil rights movement the God is dead discourse school prayer and Bible reading Harvey Cox's *The Secular City* the Berrigans and Vietnam the animal rights movement and the movement of the church going population away from mainstream Protestant tradition toward evangelical fundamentalism By criticizing the rhetoric employed by both the pro choice and pro life camps Mensch and Freeman reveal the extent to which forces on either side of the issue have failed to respond to relevant concerns Since Roe v Wade the authors charge public debate has seemed to concede the moral high ground to the pro life position while the pro choice rhetoric has appeared to defend an individual's legal right to do moral wrong Originally published as a special issue of *The Georgia Law Review* Spring 1991 this revised and expanded edition will be welcomed by all those frustrated by the impasse of debates so central to our nation's moral life      *The Blackwell Companion to Religion in America* Philip Goff, 2010-03-25 This authoritative and cutting edge companion brings together a team of leading scholars to document the rich diversity and unique viewpoints that have formed the religious history of the United States A groundbreaking new volume which represents the first sustained effort to fully explain the development of American religious history and its creation within evolving political and social frameworks Spans a wide range of traditions and movements from the Baptists and Methodists to Buddhists and Mormons Explores topics ranging from religion and the media immigration and piety though to politics and social reform Considers how American religion has influenced and been interpreted in literature and popular culture Provides insights into the historiography of religion but presents the subject as a story in motion rather than a snapshot of where the field is at a given moment      *Religion and the American Experience: A Social and Cultural History, 1765-1996* Donald C. Swift, 2016-12-05 Religion in the USA manifests itself in many forms and this book examines them from

religion in the early republic to early African American religion reform nativism movements and fundamentalism up to the contemporary culture wars in a study that spans almost 250 years      **American Evangelicals and Religious Diversity** Kevin M. Taylor, 2006-05-01 American Evangelicals and Religious Diversity is a qualitative study of how religion and education intersect at one conservative Christian school The school is Evangelical and American The school's curriculum is bible based and fulfills its state's educational requirements for high school graduation While the school has an environment that is Evangelical the students live in a religiously diverse world This book documents how three students and their teacher struggle to understand a world that challenges their faith The context for this understanding is how the teacher presents and the three students come to understand Catholicism Islam and the indigenous religions of the Americas Americans continue to debate whether religious schools are too parochial and do not prepare students to live a diverse society      *A History of Christianity in America* Mark A. Granquist, 2025-03-11 The story of Christianity in America is a fascinating one marked by constant change development and innovation The faith has shaped the country even as the country has shaped it Award winning historian Mark Granquist has written an up to date telling of this story from the arrival of Europeans to the present day While the twists and turns are complex varied and at times confusing Granquist has identified several consistent threads that weave their way through the various branches and periods of American Christianity voluntary religion pluralism and an innovative religious marketplace The account is comprehensive without being overwhelming And it is presented in a clear and compelling narrative sure to capture and hold readers interest This book is therefore ideal for use in semester long classes in undergraduate or graduate programs and appealing for general readers The main text is accompanied by illustrative elements including sidebars images maps and timelines      *Religion in America, 1950 to the present* Jackson W. ; Johnson Carroll (Douglas W. ; Marty, Martin E.), 1979      **A History of Christianity in the United States and Canada** Mark A. Noll, 1992-08-11 Author Mark Noll presents the unfolding drama of American Christianity with accuracy and skill from the first European settlements to ecumenism in the late 20th Century This work has become a standard in the field of North American religious history      **Race, Religion, and the Continuing American Dilemma** C. Eric Lincoln, 2011-04-01 A classic work on religion and the racial problems of modern America now brought up to date Since the early days of the Republic Americans exuberant unchastened idealism their commitment to the notion of a perfect society in the New World has clashed with the reality of ugly American society and religious groups have all too often accommodated themselves to these injustices In *Race Religion and the Continuing American Dilemma* C Eric Lincoln reevaluates what Gunnar Myrdal called the American dilemma and studies particularly the influence of the black church This revised edition takes into account the weakening of welfare and affirmative action and argues that the black church must serve today as a vital moral authority to lead us in to the twenty first century      *Religions and Missionaries around the Pacific, 1500-1900* Tanya Storch, 2017-05-15 This volume takes an interdisciplinary approach to the study of religious cultural exchanges around the

Pacific in the period 1500 1900 relating these to economic and political developments and to the expansion of communication across the area It brings together twenty two pieces from diaries of religious exiles and missionary field observations to studies from a variety of academic disciplines so enabling a multitude of voices to be heard The articles are grouped in sections dealing with the Islamic period the Iberian Catholic period the Jewish diaspora the Russian Orthodox church the epoch of Protestant culture and finally Asian immigrant religions in the West a substantial introduction contextualizes these chapters in terms of both historical and contemporary approaches

*American Mainline Religion* Wade Clark Roof, William McKinney, 1987 Wade Clark Roof and William McKinney argue that a new voluntarism is slowly eroding the old social and economic boundaries that once defined and separated religious groups and is opening new cleavages along moral and life style lines Nowhere has the impact of these changes been more profoundly felt than by the often overlooked religious communities of the American center or mainline Protestant Catholic and Jewish American Mainline Religion provides a new mapping of the families of American religion and the underlying social cultural and demographic forces that will reshape American religion in the century to come Going beyond the headlines in daily newspapers Roof and McKinney document the decline of the Protestant establishment the rise of a more assimilated and public minded Roman Catholicism the place of black Protestantism and Judaism and the resurgence of conservative Protestantism as a religious and cultural force

**The Sacred in a Secular Age** Phillip E. Hammond, 2023-11-15 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1985

**The Changing World Religion Map** Stanley D. Brunn, 2015-02-03 This extensive work explores the changing world of religions faiths and practices It discusses a broad range of issues and phenomena that are related to religion including nature ethics secularization gender and identity Broadening the context it studies the interrelation between religion and other fields including education business economics and law The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions Beginning with an introduction of the concept of the changing world religion map the book first focuses on nature ethics and the environment It examines humankind s eternal search for the sacred and discusses the emergence of green religion as a theme that cuts across many faiths Next the book turns to the theme of the pilgrimage illustrated by many examples from all parts of the world In its discussion of the interrelation between religion and education it looks at the role of missionary movements It explains the relationship between religion business economics and law by means of a discussion of legal and moral frameworks and the financial and business issues of religious organizations The next part of the book explores the many new faces that are part of the religious landscape and culture of the Global North Europe Russia Australia and New Zealand the U S and Canada and the Global South Latin

America Africa and Asia It does so by looking at specific population movements diasporas and the impact of globalization The volume next turns to secularization as both a phenomenon occurring in the Global religious North and as an emerging and distinguishing feature in the metropolitan cosmopolitan and gateway cities and regions in the Global South The final part of the book explores the changing world of religion in regards to gender and identity issues the political religious nexus and the new worlds associated with the virtual technologies and visual media

Servant Leaders of the People of God Robert Morris Schwartz,1989 A spirituality of the American priesthood based on the documents of Vatican II and the teaching of the U S bishops

*Evangelicalism* Richard Kyle,2017-09-20 Most forms of religion are best understood in the con text of their relationship with the surrounding culture This may be particularly true in the United States Certainly immigrant Catholicism became Americanized mainstream Protestantism accommodated itself to the modern world and Reform Judaism is at home in American society In *Evangelicalism* Richard Kyle explores paradoxical adjustments and transformations in the relationship between conservative Protestant Evangelicalism and contemporary American culture Evangelicals have resisted many aspects of the modern world but Kyle focuses on what he considers their romance with popular culture Kyle sees this as an Americanized Christianity rather than a Christian America but the two are so intertwined that it is difficult to discern the difference between them Instead in what has become a vicious self serving cycle Evangelicals have baptized and sanctified secular culture in order to be considered culturally relevant thus increasing their numbers and success within abundantly populous and populist driven American society In doing so Evangelicalism has become a middle class movement one that dominates America s culture and unabashedly populist Many Evangelicals view America as God s chosen nation thus sanctifying American culture consumerism and middle class values Kyle believes Evangelicals have served themselves well in consciously and deliberately adjusting their faith to popular culture Yet he also thinks Evangelicals may have compromised themselves and their future in the process so heavily borrowing from the popular culture that in many respects the Evangelical subculture has become secularism with a light gilding of Christianity If so he asks can Evangelicalism survive its own popularity and reaffirm its religious origins or will it assimilate and be absorbed into what was once known as the Great American Melting Pot of religions and cultures Will the Gospel of the American dream ultimately engulf and destroy the Gospel of Evangelical success in America This thoughtful and thought provoking volume will interest anyone concerned with the modern day success of the Evangelical movement in America and the aspirations and fate of its faithful

Religion and American Literature Since 1950 Mark Eaton,2020-04-16 From Flannery O Connor and James Baldwin to the post 9 11 writings of Don DeLillo imaginative writers have often been the most insightful chroniclers of the USA s changing religious life since the end of World War II Exploring a wide range of writers from Protestant Catholic Jewish and secular faiths this book is an in depth study of contemporary fiction s engagement with religious belief identity and practice Through readings of major writers of our time like Saul Bellow E L Doctorow Philip Roth Marilynne Robinson and John Updike Mark Eaton

discovers a more nuanced picture of the varieties of American religious experience that they are more commonplace than cultural ideas of progressive secularisation or faith based polarization might suggest *Change and Conflict in the U.S. Army Chaplain Corps since 1945* Anne Loveland, 2014-07-30 Army chaplains have long played an integral part in America's armed forces. In addition to conducting chapel activities on military installations and providing moral and spiritual support on the battlefield they conduct memorial services for fallen soldiers minister to survivors offer counsel on everything from troubled marriages to military bureaucracy and serve as families' points of contact for wounded or deceased soldiers all while risking the dangers of combat alongside their troops. In this thoughtful study Anne C. Loveland examines the role of the army chaplain since World War II revealing how the corps has evolved in the wake of cultural and religious upheaval in American society and momentous changes in U.S. strategic relations warfare and weaponry. From 1945 to the present Loveland shows army chaplains faced several crises that reshaped their roles over time. She chronicles the chaplains' initiation of the Character Guidance program as a remedy for the soaring rate of venereal disease among soldiers in occupied Europe and Japan after World War II as well as chaplains' response to the challenge of increasing secularism and religious pluralism during the culture wars of the Vietnam Era. Religious accommodation evangelism and proselytizing public prayer and spiritual fitness provoked heated controversy among chaplains as well as civilians in the ensuing decades. Then early in the twenty-first century chaplains themselves experienced two crisis situations one the result of the Vietnam era antichaplain critique the other a consequence of increasing religious pluralism secularization and sectarianism within the Chaplain Corps as well as in the army and the civilian religious community. By focusing on army chaplains evolving sometimes conflict-ridden relations with military leaders and soldiers on the one hand and the civilian religious community on the other Loveland reveals how religious trends over the past six decades have impacted the corps and in turn helped shape American military culture.

Baby Boom Rusty Monihollon, 2010-02-09 This engaging collection of essays explores the many ways Americans of every race class gender and political leaning experienced the Baby Boom. This revealing new work goes inside the Baby Boom generation to look at how everyday people within the boomer demographic changed and were changed by the course of American history. *Baby Boom People and Perspectives* does not focus on one single historic moment but rather follows different groups within the Baby Boom generation as they move through history. From the generation gap of the 1950s to the civil rights movement from Vietnam and the counterculture of the 1960s to Watergate and the Reagan era and from the Clinton years to September 11th and the recent resurgence of conservatism this insightful social history shows how Baby Boomers across the breadth of American society experienced and impacted the same historic events differently.
