## **Religion In Roman Egypt:**

Religion in Roman Egypt David Frankfurter, 1998 This exploration of cultural resilience examines the complex fate of classical Egyptian religion during the centuries from the period when Christianity first made its appearance in Egypt to when it became the region's dominant religion roughly 100 to 600 C E Taking into account the full range of witnesses to continuing native piety from papyri and saints' lives to archaeology and terracotta figurines and drawing on anthropological studies of folk religion David Frankfurter argues that the religion of Pharonic Egypt did not die out as early as has been supposed but was instead relegated from political centers to village and home where it continued a vigorous existence for centuries In analyzing the fate of the Egyptian oracle and of the priesthoods the function of magical texts and the dynamics of domestic cults Frankfurter describes how an ancient culture maintained itself while also being transformed through influences such as Hellenism Roman government and Christian dominance Recognizing the special characteristics of Egypt which differentiated it from the other Mediterranean cultures that were undergoing simultaneous social and political changes he departs from the traditional decline of paganism triumph of Christianity model most often used to describe the Roman period By revealing late Egyptian religion in its Egyptian historical context he moves us away from scenarios of Christian triumph and shows us how long and how energetically pagan worship survived

**Later Roman Egypt** Roger S. Bagnall, 2003 Egypt with its ever growing wealth of evidence from the papyri has in recent decades been one of the liveliest areas of scholarship on the later Roman Empire This volume collects two dozen articles on the social economic and administrative history of Egypt by Roger Bagnall whose book *Egypt in Late Antiquity* has helped to bring this region and this evidence into the mainstream of historical debate In these studies some of the main themes of his work are visible in particular attempts to explore the possibilities for quantifying not only questions like the burden of taxation or the distribution of land ownership but more tantalizing and controversial matters like the rate at which the population of Egypt was Christianized

**Visualizing the Afterlife in the Tombs of Graeco-Roman Egypt** Marjorie Susan Venit,2016 This book explores the visual narratives of a group of decorated tombs from Ptolemaic and Roman Egypt c 300 BCE 250 CE The author contextualizes the tombs within their social political and religious context and considers how the multicultural population of Graeco Roman Egypt chose to negotiate death and the afterlife [Pilgrimage and Holy Space in Late Antique Egypt](#) David Frankfurter,2015-08-27 This volume deals with the origins and rise of Christian pilgrimage cults in late antique Egypt Part One covers the major theoretical issues in the study of Coptic pilgrimage such as sacred landscape and shrines catchment areas while Part Two examines native Egyptian and Egyptian Jewish pilgrimage practices Part Three investigates six major shrines from Philae s diverse non Christian devotees to the great pilgrim center of Abu Mina and a Thecla shrine on its route Part Four looks at such diverse pilgrims rites as oracles chant and stationary liturgy while Part Five brings in Athanasius s and an anonymous hagiographer s perspectives on pilgrimage in Egypt The volume includes illustrations of the Abu Mina site pilgrims ampules from the Thecla shrine as well as several maps **The Oxford Handbook of Roman Egypt** Christina Riggs,2012-06-21 Roman Egypt is a critical area of interdisciplinary research which has steadily expanded since the 1970s

and continues to grow Egypt played a pivotal role in the Roman empire not only in terms of political economic and military strategies but also as part of an intricate cultural discourse involving themes that resonate today east and west old world and new acculturation and shifting identities patterns of language use and religious belief and the management of agriculture and trade Roman Egypt was a literal and figurative crossroads shaped by the movement of people goods and ideas and framed by permeable boundaries of self and space This handbook is unique in drawing together many different strands of research on Roman Egypt in order to suggest both the state of knowledge in the field and the possibilities for collaborative synthetic and interpretive research Arranged in seven thematic sections each of which includes essays from a variety of disciplinary vantage points and multiple sources of information it offers new perspectives from both established and younger scholars featuring individual essay topics themes and intellectual juxtapositions **Evidence for the Survival of**

**Pharaonic Religion in Roman Egypt** Lorelei H. Corcoran, **Village Life in Roman Egypt** Micaela

Langellotti, 2020-01-16 This book presents the first detailed study of Tebtunis a village in Egypt within the Roman Empire in the first century AD It is founded on the archive material of the local notarial office or grapheion which was run by a man named Kronion for most of the mid first century The archive unparalleled in antiquity includes over two hundred documents written on papyrus which attest a wide range of transactions made by the villagers over defined periods of time in particular the years AD 42 and 45 7 under the reign of the emperor Claudius This evidence provides a unique insight into various aspects of village life the level of participation in the written contractual economy the socio economic stratification of the village including the position of women slaves priests and the role of the elite the functions of associations the types and importance of agriculture and non agricultural activities This multitude of data reveals a highly diversified village economy a large involvement in written transactions among all the strata of the population and a rural society living mostly above subsistence level Tebtunis provides a model of village society that can be used to understand the majority of the population within the Roman Empire who lived outside cities in the Mediterranean particularly in the other eastern and more Hellenized provinces **The Individual in the Religions of the Ancient Mediterranean** Jörg Rüpke, 2013-08-29 Covering the

Hellenistic and Imperial periods in both pagan polytheistic as well as Jewish monotheistic settings this edited collection focuses on individuation in everyday religious practices across the ancient Mediterranean as identified in institutional developments and philosophical reflections on the self **Monastic Bodies** Caroline T. Schroeder, 2013-03-01 Shenoute of Atripe led the White Monastery a community of several thousand male and female Coptic monks in Upper Egypt between approximately 395 and 465 C E Shenoute's letters sermons and treatises one of the most detailed bodies of writing to survive from any early monastery provide an unparalleled resource for the study of early Christian monasticism and asceticism In **Monastic Bodies** Caroline Schroeder offers an in depth examination of the asceticism practiced at the White Monastery using diverse sources including monastic rules theological treatises sermons and material culture Schroeder details Shenoute's

arduous disciplinary code and philosophical structure including the belief that individual sin corrupted not only the individual body but the entire corporate body of the community. Thus the purity of the community ultimately depended upon the integrity of each individual monk. Shenoute's ascetic discourse focused on purity of the body but he categorized as impure not only activities such as sex but any disobedience and other more general transgressions. Shenoute emphasized the important practices of discipline or askesis in achieving this purity. Contextualizing Shenoute within the wider debates about asceticism, sexuality and heresy that characterized late antiquity, Schroeder compares his views on bodily discipline, monastic punishments, the resurrection of the body, the incarnation of Christ and monastic authority with those of figures such as Cyril of Alexandria, Paulinus of Nola and Pachomius. *The Oxford History of Ancient Egypt* Ian Shaw, 2003-10-23. The Oxford History of Ancient Egypt is the only book available providing detailed historical coverage of Egypt from the early Stone Age to its incorporation into the Roman Empire. The lively essays and beautiful illustrations portray the emergence and development of the distinctive civilization of the ancient Egyptians covering the period from 700,000 BC to AD 311. The authors, each working at the cutting edge of their particular fields, outline the principal sequence of political events, including detailed examinations of the three so-called Intermediate Periods previously regarded as dark ages. Against the backdrop of the rise and fall of ruling dynasties, this Oxford History also examines cultural and social patterns, including stylistic developments in art and literature. The pace of change in such aspects of Egyptian culture as monumental architecture, funerary beliefs and ethnicity was not necessarily tied to the rate of political change. Each of the authors has therefore set out to elucidate in both words and pictures the underlying patterns of social and political change and to describe the changing face of ancient Egypt from the biographical details of individuals to the social and economic factors that shaped the lives of the population as a whole. Ancient African Religions Robert M. Baum, 2024. This book examines the history of religions in Africa from the burial practices of the earliest humans to the rise of centralized theocratic kingdoms like ancient Egypt up to the rise of Islam in the Seventh Century. *The Encroaching Desert: Egyptian Hagiography and the Medieval West* Jitse Dijkstra, Han van Dijk, 2006-11-30. This volume presents a series of case studies concerning the use and reuse of Egyptian hagiography in Late Antiquity and the Middle Ages. The first three contributions analyze the use of Egyptian hagiography in the context of late antique Egypt and in particular examine to what extent these texts can be used as historical sources for the reconstruction of traditional pagan religion. The other contributions illustrate the different contexts in which Egyptian hagiography was reused in the medieval West. The book is an important contribution to the current debate about the usefulness of Egyptian hagiography as a historical source for late antique Egypt and to the study of the reception of the desert fathers in the medieval West. Contributors include Lynda L. Coon, Mathilde van Dijk, Jitse H. F. Dijkstra, David Frankfurter, Conrad Leyser, Peter van Minnen, Claudia Rapp, Bert Roest, Eric L. Saak, Gabriela Signori and Jacques van der Vliet. **The God of This House** Caroline Johnson Hodge, 2025-06-24. Christianity is often thought of as a tradition of belief

interpretation teachings and texts However a scholarly focus on ideas overlooks how early Christian doctrine interacted with social exchanges in lay spaces Author Caroline Johnson Hodge fills this gap shifting our attention from liturgical settings to religion as it was lived outside the prescriptions of congregations Through a careful reading of the material record alongside print sources Johnson Hodge shows that in the first through the early fourth centuries Christians developed household rituals akin to traditional domestic cult practices around the Roman Empire and this continuity contributed to the success of the new cult in the Roman world Rather than a well organized universal domestic cult Johnson Hodge finds that practices were flexible and varied ranging widely from established household observances to unauthorized rituals gravesite venerations and the unpatrolled movements of women and slaves Just as important as the official representations were the small gestures at hearths and doorways the myriad ways in which followers of Christ incorporated their divine beings into the rituals of their households shops and tombs In bringing the lived religion approach to bear on this formative period Johnson Hodge s study offers a fascinating portrait of a very pagan world within ancient Christianity This book will be especially valuable to religious studies scholars and others interested in the origins of Christianity

Medicine, Healing and Performance Effie

Gemi-Iordanou, Stephen Gordon, Robert Matthew, Ellen McInnes, Rhiannon Pettitt, 2014-02-13 Whether it is the binding of shattered bones or the creation of herbal remedies human agency is a central feature of the healing process Both archaeological and anthropological research has contributed much to our understanding of the performative aspects of medicine The papers contained in this volume based on a session conducted at the 2010 Theoretical Archaeology Conference take a multi disciplinary approach to the topic addressing such issues as the cultural conception of disease the impact of gender roles on healing strategies the possibilities afforded by syncretism the relationship between material culture and the body and the role played by the active agency of the sick

*Magical Hymns from Roman Egypt* Ljuba Merlina

Bortolani, 2016-10-10 This interdisciplinary study investigates the divine personas in the so called magical hymns of the Greek magical papyri which in a corpus usually seen as a significant expression of religious syncretism with strong Egyptian influence were long considered to be the most authentically Greek contribution Fifteen hymns receive a line by line commentary focusing on religious concepts ritual practice language and style The overarching aim is to categorise the nature of divinity according to its Greek or Egyptian elements examining earlier Greek and Egyptian sources and religious magical traditions in order to find textual or conceptual parallels Are the gods of the magical hymns Greek or Egyptian in nature Did the magical hymns originate in a Greek or Egyptian cultural background The book tries to answer these questions and to shed light on the religious plurality and or fusion of the two cultures in the treatment of divinity in the Greek magical papyri

Old Kingdom to Coptic times      **City of Demons** Dayna S. Kalleres, 2015-10-13 Although it would appear in studies of late antique ecclesiastical authority and power that scholars have covered everything an important aspect of the urban bishop has long been neglected his role as demonologist and exorcist When the emperor Constantine made Christianity the official religion of the realm bishops and priests everywhere struggled to Christianize the urban spaces still dominated by Greco Roman monuments and festivals During this period of upheaval when congregants seemingly attended everything but their own orthodox church many ecclesiastical leaders began simultaneously to promote aggressive and insidious depictions of the demonic In *City of Demons* Dayna S Kalleres investigates this developing discourse and the church sponsored rituals that went along with it showing how shifting ecclesiastical demonologies and evolving practices of exorcism profoundly shaped Christian life in the fourth century
