Religion In The Liberal Polity Paperback:

Religion in the Liberal Polity Terence Cuneo, 2005 A collection of essays on the subject of religion public discourse and modern liberal democracy The essays are divided into two sections including a number of well known contributors 1 Foundations Rights and Authorities 2 Religious Reasons and Virtuous Conduct Roots of Theological Anti-Semitism (paperback) Anders Gerdmar, 2008-12-31 As Adolf Hitler strategised his way to power he knew that it was necessary to gain the support of theology and the Church This study begins two hundred years earlier however looking at roots of theological anti-Semitism and how Jews and Judaism were constructed positively and negatively in the biblical interpretation of German Protestant theology Following the two main streams of German theology the salvation historical and the Enlightenment oriented traditions it examines leading exegetes from the 1750s to the 1950s and explores how theology legitimises or delegitimises oppression of Jews in part through still prevailing paradigms This is the first comprehensive analysis of its kind and the result of the analysis of the interplay between biblical exegesis and attitudes to Jews and Judaism is a fascinating and often frightening portrait of theology as a servant of power *Contemporary Political Philosophy and Religion* Camil Ungureanu, Paolo Monti, 2017-12-12 What is the place of religion in a pluralist democracy The continuous presence of religion in the public sphere has raised anew normative and practical issues related to the role of religion in a democratic polity generating spirited political debates in Western and non Western contexts *Contemporary Political Philosophy and Religion* provides an advanced introduction to and a critical appraisal of the major schools of political thought with a focus on the relationship between democracy and religion Key features of this book include Analyses of different political traditions liberalism republicanism deliberative democracy feminism postmodernism multiculturalism and interculturalism Critical discussions of key contemporary philosophers such as John Rawls Jürgen Habermas Richard Rorty Charles Taylor Susan Moller Okin Martha Nussbaum Will Kymlicka Chandran Kukathas and Bhiku Parekh A pluralist approach that questions the strict divide between analytical and continental political philosophy Discussion on the place of religion in politics from multiple perspectives by drawing on a plurality of political contexts both Western and non Western Analyses of legal and political cases related to different religious traditions for example Islam Confucianism Buddhism Christianity and Hinduism This comprehensive text will be of great use to students of religion and politics in the fields of political and legal theory and religious and theological studies while also offering critical insights and arguments that will be of interest to the experts in the field **Religious Conviction in Liberal Politics** Christopher J. Eberle, 2002-05-02 What role should a citizen's religious convictions play in her political activities Is she for example permitted to decide on the basis of her religious convictions to support laws that criminalize abortion or discourage homosexual relations Christopher Eberle is deeply at odds with the dominant orthodoxy among political theorists about the relation of religion and politics His argument is that a citizen may responsibly ground her political commitments on religious beliefs even if her only reasons for her political

commitments are religious in nature His ideal of citizenship allows citizens to engage in politics without privatizing their religious commitments and yet does not license mindless and intransigent sectarianism An inherently controversial book that offers a substantial challenge to political liberalism it will be read by students and professionals in philosophy political science law and religious studies and general readers seeking insight into the relationship between religious commitments and liberal politics

Free Exercise of Religion in the Liberal Polity Emily R. Gill, 2019-08-21 This book addresses the challenge of providing for the free exercise of religion without allowing religious exercise by some individuals and groups to impinge upon the conscientious convictions of others State neutrality toward religion is impossible because neutrality means inattention to religion for some but leveling the playing field through accommodations or exemptions for others Both formal and substantive neutrality have a place in addressing particular conflicts One such example is public funding for religiously affiliated social service programs for which neither type of neutrality is satisfactory and thus some restrictions are justifiable conversely private voluntary organizations that do not receive direct public funding should be allowed wide latitude regarding their practices This title also examines the expansive free exercise claims that are now made by those who argue that following the law impinges upon their beliefs as exemplified by the ministerial exception and the Hobby Lobby and Masterpiece Cakeshop Supreme Court cases It concludes by analyzing the relationship between neutrality and marriage as a civil status which impacts a variety of commitment types and plural marriage

Inspiring Faith in Schools Marius Felderhof, 2016-05-23 Inspiring Faith in Schools addresses the

privileging of secularism that appears to affect RE in countries influenced by modern western thought The authors argue that a more engaging form of RE would emerge if religious life were to inhabit centre stage Currently religious faith is made to hover in the wings awaiting the call to face the inquisitorial challenge of the modern day enquirer The consequent relationship between pupil and the Divine as the purpose of study is then already intrinsically irreligious as indicated in the Book of Job by putting God in the dock whereas it is the pupil who should be cross examining his or her life What are the ways of exciting and engaging the young so that they begin to entertain the possibility of religious life as a genuine option for themselves Leading scholars in philosophy and theology from the UK Australia Canada and the USA come together to address these questions together with RE experts Marius Felderhof writes an Afterword summing up the challenges faced by such a re visioning of RE

Chinese politics should be addressed by paying attention to characteristics of religious diversity and its political context in China This leads to a position of liberal constrained public religion in China which encourages religious contribution to the public sphere as a substantial component of religious liberty in China on the one hand and proposes some constraints both upon government and religions for regulating religious political discourse on the other The Cambridge Companion to Liberalism Steven Wall,2015-02-19 An expert survey of liberal approaches and liberal responses to diverse topics and controversies in contemporary political thought and practice **Democracy and Tradition** Jeffrey Stout,2004 Asking how the citizens of modern democracy can reason with one another this book carves out a controversial position between those who view religious voices as an anathema to democracy and those who believe democratic society is a moral wasteland because such voices are not heard **Religious Routes to Gladstonian Liberalism** J. P. Ellens,2010-11 This book covering the period 1832 to 1868 describes how the so called church rates controversy contributed to the rise of a secular liberal state in England and Wales The church rate was an ancient tax required of all ratepayers regardless of denomination for the upkeep of parish churches of the Church of England This meant that Dissenters and other non Anglicans paid for the support of the established Church In the 1830s however the Dissenters determined to tolerate the situation no longer The resulting thirty six year struggle became the central church state issue of the Victorian period Ellens further argues that church rates played a pivotal role in the shaping of Victorian liberalism Dissenters desired a society in which church and state would be separate and religious affairs voluntary When Gladstone decided to champion the Dissenters voluntarist cause in the 1860s he established the relationship that would give him the solid basis of electoral strength he needed to carry out the great liberal reforms of his governments after 1868 Elegantly written and argued this book carefully details the process of disestablishment in England and Wales and uncovers an important and little recognized dimension to the formation of the Liberal party
