Religion Modernity And Postmodernity:

Religion, Modernity, and Postmodernity Paul Heelas, David Martin, Paul M. Morris, 1998 The contributors to this study of religion theorise over modern culture consider whether postmodern forms of religion exist and whether theories of religion framed in terms of modernity can be recast to suit new or emerging circumstances Religion, Education and Post-Modernity Andrew Wright, 2003-12-16 This book the first to explore religious education and post modernity in depth sets out to provide a much needed examination of the problems and possibilities post modernity raises for religious education At once a general introduction to this topic and a distinctive contribution to the debate in its own right Religion Education and Post modernity explores and illuminates the problems and possibilities opened up for religious education by postmodern thought and culture The book describes the emergence of post modernity considers the impact of post modernity on religion addresses its impact on the philosophy of religion and considers the nature of religious education in the post modern world Andrew Wright argues that although post modernity has much to offer the religious educator there are also many pitfalls and dangers to be avoided Steering clear of the extreme of post modern hyper realism he constructs a religious pedagogy sensitive to post modern concerns for alterity difference and the voice of the Other whilst insisting on the importance of reasons in cultivating religious literacy *The SAGE Handbook of the Sociology of Religion* James A Beckford, Jay Demerath, 2007-10-29 In their introduction to this Handbook the editors affirm Many sociologists have come to realise that it makes no sense now to omit religion from the repertoire of social scientific explanations of social life I wholeheartedly agree I also suggest that this wide ranging set of essays should become a starting point for such enquiries Each chapter is clear comprehensive and well structured making the Handbook a real asset for all those engaged in the field Grace Davie University of Exeter Serious social scientists who care about making sense of the world can no longer ignore the fact that religious beliefs and practices are an important part of this world This Handbook is a valuable resource for specialists and amateurs alike The editors have done an exceptionally fine job of incorporating topics that illuminate the range and diversity of religion and its continuing significance throughout the world Robert Wuthnow Princeton University At a time when religions are increasingly affecting and affected by life beyond the narrowly sacred sphere religion everywhere seems to be caught up in change and conflict In the midst of this contention and confusion the sociology of religion provides a rich source of understanding and explanation This Handbook presents an unprecedentedly comprehensive assessment of the field both where it has been and where it is headed Like its many distinguished contributors its topics and their coverage are truly global in their reach The Handbook s 35 chapters are organized into eight sections basic theories and debates methods of studying religion social forms and experiences of religion issues of power and control in religious organizations religion and politics individual religious behaviour in social context religion self identity and the life course and case studies of China Eastern Europe Israel Japan and Mexico Each chapter establishes benchmarks for the state of sociological thinking about

religion in the 21st century and provides a rich bibliography for pursuing its subject further Overall the Handbook stretches the field conceptually methodologically comparatively and historically An indispensable source of guidance and insight for both students and scholars Choice Outstanding Academic Title 2009 Modernity and Postmodernity Gerard Delanty, 2000-04-19 This accessible and comprehensive overview of the main issues on the modernity postmodernity controversy is the first clear sighted book on the subject It surveys modern social theory from Kant to Weber with economy and masterly precision And evaluates the work of the Frankfurt School Arendt Strauss Luhmann Habermas Heller Castoriadis and Touraine before moving on to consider the approaches of the leading writers on postmodernity Lyotard Vattimo Derrida Foucault and Jameson The result is a new way of conceptualizing the modernity postmodernity debate and an exciting new approach to the roots of contemporary social theory Postmodernity, Sociology and Religion Kieran Flanagan, Peter C. Jupp, 2016-07-27 This topical collection of eleven commissioned essays by well established contributors from sociology religious studies and theology is one of the first treatments of the relationship between postmodernity and religion from a sociological perspective The essays cover a diversity of interests but treat postmodernity in terms of its implications for the self the New Age and theology particularly Catholicism and Judaism Two of the essays are original appraisals of two important French writers on religion Jean Luc Marion and Daniele Hervieu Leger **Religion, Education and Post-Modernity** Andrew Wright, 2003-12-16 This book the first to explore religious education and post modernity in depth sets out to provide a much needed examination of the problems and possibilities post modernity raises for religious education At once a general introduction to this topic and a distinctive contribution to the debate in its own right Religion Education and Post modernity explores and illuminates the problems and possibilities opened up for religious education by postmodern thought and culture The book describes the emergence of post modernity considers the impact of post modernity on religion addresses its impact on the philosophy of religion and considers the nature of religious education in the post modern world Andrew Wright argues that although post modernity has much to offer the religious educator there are also many pitfalls and dangers to be avoided Steering clear of the extreme of post modern hyper realism he constructs a religious pedagogy sensitive to post modern concerns for alterity difference and the voice of the Other whilst insisting on the importance of reasons in cultivating religious literacy **An Introduction to the Sociology of Religion** Inger Furseth, Pål Repstad, 2017-03-02 Is it true that religion is weakening in modern times or are we facing religious resurgence What is fundamentalism How does it emerge and grow What role does religion play in ethnic and national conflicts Is religion a fundamental driving force or do political leaders use religion for their own purposes Do all religions oppress women These are some of the questions addressed in this book An Introduction to the Sociology of Religion provides an overview of sociological theories of contemporary religious life Some chapters are organized according to topic Others offer brief presentations of classical and contemporary sociologists from Karl Marx to Zygmunt Bauman and their perspectives on social

life including religion Throughout the book illustrations and examples are taken from several religious traditions

Ecclesiology and Postmodernity Gerard Mannion, 2017-01-13 What in the world is postmodernity Is it the dominant reality today If it is what does it mean to be a church in a postmodern world It seems that the church had a difficult time coming to terms with a modern world an era ruled by the claims of scientific certainty Having done so more or less it is now confronted by the claims of postmodernity which seem to reverse the whole equation to say that certainty and objectivity are chimeras What is truth Pilate asked and postmodernity at least as caricatured by its opponents responds There s no such thing Gerard Mannion in *Ecclesiology and Postmodernity* addresses the situation of the church in a postmodern world The fundamental changes in human society and culture wrought by the twentieth century require the church to consider its response in the twenty first century What is the church s moral Vision how does its practice look what is the nature of its aspiration toward holiness in our times Mannion believes that since Vatican II the Catholic Church has been in a kind of limbo awaiting a Vision of its own life for the future Rather than focusing on specific controversies Mannion offers concrete suggestions about how the church can create a better harmony between its own self understanding its ecclesiological Vision and its day to day life its ecclesial practice Gerard Mannion PhD educated at King s College Cambridge University and New College Oxford University is Associate Professor of Ecclesiology and Ethics in the Department of Theology and Religious Studies at Liverpool Hope University UK He is also the director of Church In Our Times Centre for the Study of Contemporary Ecclesiology co director of the Applied Ethics Initiative at Liverpool Hope co chair of the AAR American Academy of Religion Ecclesiological Investigations Program Unit and co ordinator of the Ecclesiological Investigations International Research Network Mannion is the author of *Schopenhauer Religion and Morality* and co editor of *Readings in Church Authority Gifts and Challenges for Contemporary Catholicism* both published by Ashgate in 2003 and co editor of the forthcoming volumes *The Routledge Companion to the Christian Church* and *Catholic Social Justice Theological and Practical Explorations* Religion, modernity, and postmodernity Paul Heelas (ed), 1998 *Religion and Modern Thought* Victoria S. Charismatics and Postmodernity Jitesh K. Patel, 2025-09-05 Is charismatic renewal a bit too much like postmodernism With its multiple ways of knowing what is true touchy feely and pragmatic with an emphasis on personal story and community why does it look like something dreamt up by postmoderns longing for a church befitting their ideals This book explores these questions by investigating an example of charismatic renewal the Charismatic Movement in the Church of England leading to some surprising results Appearances can be deceiving and what seems postmodern about charismatic renewal is a complex mix of modernism reactions to modernism and a longing to go back to a time before modernism reared its head Jitesh Patel helps show how renewal s ongoing life has much still to contribute to the wider church s life once it

recognizes the strengths and weaknesses of how it has formed in the context of modernism and the chapters herein illuminate what its future could look like as a result

Premodern Faith in a Postmodern Culture Peter Drilling, 2006-07-26 Since the European Enlightenment of the 18th century traditional religious faith has been challenged from many sides Both the modern and postmodern worldviews have confronted religious belief The Christian doctrine of God is no exception Premodern Faith in a Postmodern Culture A Contemporary Theology of the Trinity acknowledges these challenges to the Christian doctrine of God and explains their sources in philosophical terms Through careful thoughtful analysis Peter Drilling offers a way to meet these challenges so that Christian Faith in the triune God survives and thrives By using the theological method articulated by the philosopher theologian Bernard Lonergan this book demonstrates a reasonable and authentic process of coming to faith This method includes various directions believers can take both theoretical and practical to apply faith in the Trinity Drilling's multi faceted approach looks at this faith through the diverse perspectives of analogous understanding spirituality ecclesiology philosophy and interreligious dialogue This work is unique in its view of the entire historical development of the Trinity from historical sources to the new postmodern conceptions of God

International Perspectives on Citizenship, Education and Religious Diversity Robert Jackson, 2003-09-02 Citizenship is high on the agenda of education systems in many of the world's democracies As yet however discussions of citizenship education have neglected issues of religious diversity and how the study of religions can contribute to our understanding of citizenship International Perspectives on Citizenship Education and Religious Diversity brings together an international range of contributions from religious studies scholars and educators specialising in the study of religions Together these illustrate and explore the key questions for educational theory and pedagogy raised by drawing issues of religious diversity into citizenship education The chapters address and extend debates over the nature of citizenship in late modernity highlighting local and global dimensions of citizenship in relation to issues of national religious ethnic and cultural identity As well as emphasising the role religious education has to play in citizenship education this book also covers wider issues such as state supported faith schools and cultural diversity in relation to common citizenship The authors argue that critical yet reflective approaches to religious education have a distinctive and valuable contribution to make to

citizenship education Issues addressed within the study of religions are related to new forms of global and cultural citizenship as well as citizenship within the nation state Ultimately this stimulating and original collection highlights the challenges and possibilities for teaching and learning about religion religions and religious diversity within an inclusive educational practice **Karl Barth and the Study of the Religious Enlightenment** Michael Jimenez,2018-03-01

Encountering the Task of History analyzes the intellectual history of the eighteenth century provided by Karl Barth most notably in his Protestant Theology in the Nineteenth Century Barth anticipates the recent scholarship on the religious roots impact and significance of the Enlightenment foreshadowing the later and now current challenges to the secularization paradigm This volume seeks to establish a new vantage point through which to understand not only the wider shape of Barth's work itself but also his standing and contribution to public intellectual scholarship *Religion, Reform and Modernity in the Eighteenth Century* Robert G. Ingram,2007 A new interpretation of English history and religion in the eighteenth century The eighteenth century has long divided critical opinion Some contend that it witnessed the birth of the modern world while others counter that England remained an ancien regime confessional state This book takes issue with both positions arguing that the former overstate the newness of the age and largely misdiagnose the causes of change while the latter rightly point to the persistence of more traditional modes of thought and behaviour but downplay the era's fundamental uncertainty and misplace the reasons for and the timeline of its passage The overwhelming catalyst for change is here seen to be war rather than long term social and economic changes Archbishop Thomas Secker 1693 1768 the Cranmer or Laud of his age and the hitherto neglected church reforms he spearheaded form the particular focus of the book this is the first full archivally based study of a crucial but frequently ignored figure ROBERT G INGRAM is Assistant Professor at the Department of History Ohio University *Religions of Modernity* Stef Aupers,Dick Houtman,2010 Religions of Modernity challenges the social scientific orthodoxy that once unleashed the modern forces of individualism science and technology inevitably erode the sacred and evoke the profane The book's chapters some by established scholars others by junior researchers document instead in rich empirical detail how modernity relocates the sacred to the deeper layers of the self and the domain of digital technology Rather than destroying the sacred tout court then the cultural logic of modernization spawns its own religious meanings unacknowledged spiritualities and magical enchantments The editors argue in the introductory chapter that the classical theoretical accounts of modernity by Max Weber Emile Durkheim and others already hinted at the future emergence of these religions of modernity **Faith and Modernity** Philip Sampson,Vinay Samuel,Chris Sugden,1994 The context for Christian mission is the world of modern technology and modern thought Yet how well do we really understand modernity This book sets out the ideas discussed at a conference of the Lausanne Committee on World Evangelisation held in Uppsala Sweden in 1993
