How Comfortable Are Those Shoes? Jack Connor, 2019-01-09 People at certain points of life all over ask questions of wonder who how when why or what There have been thousands of questions from billions of people on or of life from individual questions to the world to the universe Some have been solved while others continually seek out answers We as a whole intuitively ask more all the time We all enter the same way just in different places and times It proves we re all connected in some sort of way whether we meet or not Our existence shows we are here to experience the different highs and lows in between How that s executed or accomplished is different for everyone One needs others to assist us in achieving it or them We do the

same for others in return We may or may not enjoy the lesson that comes from it We may not even understand any of it We may not see value in it but later we do Experiences may prove different what we may have learned or believed on the paths we chose We can be humbled and we can also do great things The definition of success is different for each The definition of right and wrong is the same We re all energy We absorb the energy around us if we allow it to with the influences that create it These can be fantastic and paralyzing at the same time depending on the many factors that allow it manifest They are created by beliefs emotions and experiences Whatever allows us to exist is seen as different for anyone It allows us to make and learn from mistakes if we choose to It allows us to create our own fate destiny and lives with the limited and unlimited resources we are given The definition of life and success in it is different for anyone you ask The reality in how one sees and values it is different too Jack Connor is no different than anyone else At least he did Through his experiences he s had finding the difficult lessons in it has blessed him with a new outlook toward it Many things happened that he had no control over Some experiences could ve been avoided all together but Jack chose not to let that happen He made mistakes and then more He lived in denial based on fear Things had to happen for the possibility of change Some made sense while others didn t His actions effected far more than he knew The lessons learned and the highs and lows of it still continue because of it the decisions he chooses to see life in Finding hope when there was none being humbled and rising back Miracles happening Finding a new way to live allowed him being placed where he was needed at the right time It s something he never expected There was no guarantee either But neither was he What happened to him has happened to others before and will happen to others again If you allow it to For whatever reason one change lead to another which allowed for him to see the perception of how his life was and the place he was placed in for a moment of time The results of this may never be known fully or until time allows it to It may take a lifetime or more And like everything else the only question he has is what s next And why how who and when

**Social-Cultural Anthropology** George Allan Phiri, 2009-09-01 Effective communication with the African society in the field of missions church planting and social development work has been and continues to be a great challenge particularly to people from western cultural and language orientation Africans are a we rather than I and are dependent on rather than independent of society The worldview of a traditional African in terms of society relationships and communication is communal Certainly the African perception of communalism affects how they communicate with the people of different cultural orientation Africa has several cultures and people differ in their communication depending on their cultural orientation However there are universal African cultures that act as a framework for understanding key aspects of communication with Africans for successful missions church planting and social development work This book therefore provides a strategy of understanding communication with the African society The discussions in this book provide readers with different cultural orientations unique perception of the African society as s he may be planning to communicate with the African society for missions church planting and social development work even doing humanitarian ministry in African society Although literacy levels have improved tremendously in most African countries most of Africa is not a reading society It is imperative to understand that most Africans still communicate orally and are not time conscious Hence effective communication in African societies ought to be based on storytelling rather than literature distribution although this is in transition In fact Africans are oratory and good listeners Thus this book provides an understanding to people of different cultural orientations when they plan to communicate with the people in Africa
