## Religion Homosexuality And Literature:

Religion, Homosexuality and Literature Gary David Comstock, Jeffrey J. Kripal, 1992-12-01      *Homosexuality and Religion* Jeffrey S. Siker, 2006-11-30 Few issues today cause more public and private debate than the interaction of homosexuality and religion From the question of gay marriage to the place of gays and lesbians within faith communities religious leaders and lay members must deal with these issues for now and for years to come What is the historical position of the major denominations How are people of faith balancing their beliefs This encyclopedia provides an overview of the various attitudes and responses that religions have had to the presence of gay lesbian bisexual and transgendered persons within their communities This is the most comprehensive volume to date on the intersections between religion and homosexuality

*Religion, Homosexuality, and Literature* ,1992      **Male Homosexuality in Literature** ,      *Library of Congress Subject Headings* Library of Congress, Library of Congress. Subject Cataloging Division, Library of Congress. Office for Subject Cataloging Policy, 2013      **Library of Congress Subject Headings** Library of Congress. Cataloging Policy and Support Office, 2001      Religion in America Since 1945 Patrick Allitt, 2003 Discusses the Cold War communism Eisenhower the civil rights movement African Americans and religion Mormons Vietnam Catholics feminism cults creationism and evolution American Islam home schooling abortion homosexuality and religion and the Christian Right      *Secular Faith* Mark A. Smith, 2015-09-11 When Pope Francis recently answered Who am I to judge when asked about homosexuality he ushered in a new era for the Catholic church A decade ago it would have been unthinkable for a pope to express tolerance for homosexuality Yet shifts of this kind are actually common in the history of Christian groups Within the United States Christian leaders have regularly revised their teachings to match the beliefs and opinions gaining support among their members and larger society Mark A Smith provocatively argues that religion is not nearly the unchanging conservative influence in American politics that we have come to think it is In fact in the long run religion is best understood as responding to changing political and cultural values rather than shaping them Smith makes his case by charting five contentious issues in America s history slavery divorce homosexuality abortion and women s rights For each he shows how the political views of even the most conservative Christians evolved in the same direction as the rest of society perhaps not as swiftly but always on the same arc During periods of cultural transition Christian leaders do resist prevailing values and behaviors but those same leaders inevitably acquiesce often by reinterpreting the Bible if their positions become no longer tenable Secular ideas and influences thereby shape the ways Christians read and interpret their scriptures So powerful are the cultural and societal norms surrounding us that Christians in America today hold more in common morally and politically with their atheist neighbors than with the Christians of earlier centuries In fact the strongest predictors of people s moral beliefs are not their religious commitments or lack thereof but rather when and where they were born A thoroughly researched and ultimately hopeful book on the prospects for political harmony *Secular Faith* demonstrates how over the long

run boundaries of secular and religious cultures converge

**Religion and American Cultures** Gary Laderman, Luis León, 2014-12-17 This four volume work provides a detailed multicultural survey of established as well as new American religions and investigates the fascinating interactions between religion and ethnicity gender politics regionalism ethics and popular culture This revised and expanded edition of Religion and American Cultures Tradition Diversity and Popular Expression presents more than 140 essays that address contemporary spiritual practice and culture with a historical perspective The entries cover virtually every religion in modern day America as well as the role of religion in various aspects of U S culture Readers will discover that Americans aren't largely Protestant Catholic or Jewish anymore and that the number of popular religious identities is far greater than many would imagine And although most Americans believe in a higher power the fastest growing identity in the United States is the none those Americans who elect none when asked about their religious identity thereby demonstrating how many individuals see their spirituality as something not easily defined or categorized The first volume explores America's multicultural communities and their religious practices covering the range of different religions among Anglo Americans and Euro Americans as well as spirituality among Latino African American Native American and Asian American communities The second volume focuses on cultural aspects of religions addressing topics such as film Generation X public sacred spaces sexuality and new religious expressions The new third volume expands the range of topics covered with in depth essays on additional topics such as interfaith families religion in prisons belief in the paranormal and religion after September 11 2001 The fourth volume is devoted to complementary primary source documents

**Social Work with Lesbians and Gay Men** Helen Cosis-Brown, Christine Cocker, 2011-01-19 The book clearly links knowledge and practice and is structured in such a way so that theories relevant to social work practices with lesbians and gay men are covered before specific areas of practice are addressed

Reader's Guide to Lesbian and Gay Studies Timothy Murphy, 2013-10-18 The Reader's Guide to Lesbian and Gay Studies surveys the field in some 470 entries on individuals Adrienne Rich arts and cultural studies Dance ethics religion and philosophical issues Monastic Traditions historical figures periods and ideas Germany between the World Wars language literature and communication British Drama law and politics Child Custody medicine and biological sciences Health and Illness and psychology social sciences and education Kinsey Report

*Public Religion and the Politics of Homosexuality in Africa* Adriaan van Klinken, Ezra Chitando, 2016-04-14 Issues of same sex relationships and gay and lesbian rights are the subject of public and political controversy in many African societies today Frequently these controversies receive widespread attention both locally and globally such as with the Anti Homosexuality Bill in Uganda In the international media these cases tend to be presented as revealing a deeply rooted homophobia in Africa fuelled by religious and cultural traditions But so far little energy is expended in understanding these controversies in all their complexity and the critical role religion plays in them This is the first book with multidisciplinary perspectives on religion and homosexuality in Africa It presents case studies from

across the continent from Egypt to Zimbabwe and from Senegal to Kenya and covers religious traditions such as Islam Christianity and Rastafarianism The contributors explore the role of religion in the politicisation of homosexuality investigate local and global mobilisations of power critically examine dominant religious discourses and highlight the emergence of counter discourses Hence they reveal the crucial yet ambivalent public role of religion in matters of sexuality social justice and human rights in contemporary Africa *Library of Congress Subject Headings* Library of Congress. Office for Subject Cataloging Policy,1992 *Library of Congress Subject Headings* Library of Congress. Subject Cataloging Division,1980

Religion and LGBTQ Sexualities Stephen Hunt,2016-12-05 This compiled and edited collection engages with a theme which is increasingly attracting scholarly attention namely religion and LGBTQ sexuality Each section of the volume provides perspectives to understanding academic discourse and wide ranging debates around LGBTQ sexualities and religion and spirituality The collection also draws attention to aspects of religiosity that shape the lived experiences of LGBTQ people and shows how sexual orientation forges dimensions of faith and spirituality Taken together the essays represent an exploration of contestations around sexual diversity in the major religions the search of sexual minorities for spiritual safe spaces in both established and new forms of religiosity and spiritual paths formed in reconciling and expressing faith and sexual orientation This collection which features contributions from a number of disciplines including sociology anthropology psychology history religious studies and theology provides an indispensable teaching resource for educators and students in an era when LGBTQ topics are increasingly finding their way onto numerous undergraduate post graduate and profession orientated programmes

**Religions as Brands** Jean-Claude Usunier,Jörg Stolz,2016-04-01 During the twentieth century religion has gone on the market place Churches and religious groups are forced to sell god in order to be attractive to religious consumers More and more religions are seen as brands that have to be recognizable to their members and the general public What does this do to religion How do religious groups and believers react What is the consequence for society as a whole This book brings together some of the best international specialists from marketing sociology and economics in order to answer these and similar questions The interdisciplinary book treats new developments in three fields that have hitherto evolved rather independently the commoditization of religion the link between religion and consumer behavior and the economics of religion By combining and cross fertilizing these three fields the book shows just what happens when religions become brands

*Women in Yoruba Religions* Oyèrónké Oládém?,2022-07-19 Uncovers the influence of Yoruba culture on women s religious lives and leadership in religions practiced by Yoruba people Women in Yoruba Religions examines the profound influence of Yoruba culture in Yoruba religion Christianity Islam and Afro Diasporic religions such as Santeria and Candombl placing gender relations in historical and social contexts While the coming of Christianity and Islam to Yorubaland has posed significant challenges to Yoruba gender relations by propagating patriarchal gender roles the resources within Yoruba culture have enabled women to contest the full acceptance of those new norms Oyeronke Olademo asserts that

Yoruba women attain and wield agency in family and society through their economic and religious roles and Yoruba operate within a system of gender balance so that neither of the sexes can be subsumed in the other Olademo utilizes historical and phenomenological methods incorporating impressive data from interviews and participant observation showing how religion is at the core of Yoruba lived experiences and is intricately bound up in all sectors of daily life in Yorubaland and abroad in the diaspora [A Subject Index to Current Literature](#) Australian Public Affairs Information Service, [Religion Index Two](#), 1999 [LGBT Studies and Queer Theory](#) Karen Lovaas, 2013-05-13 Find out how the tension between LGBT studies and queer theory exists in the classroom politics communities and relationships LGBT Studies and Queer Theory New Conflicts Collaborations and Contested Terrain examines the similarities and differences between LGBT studies and queer theory and the uneasy relationship between the two in the academic world This unique book meets the challenge that queer theory presents to the study and politics of gay and lesbian studies with a collection of essays from leading academics who represent a variety of disciplines These original pieces place queer theory in social and historical contexts exploring the implications for social psychology religious studies communications sociology philosophy film studies and women s studies The book s contributors address queer theory s connections to a wide range of issues including the development of capitalism the evolution of the gay and lesbian movement and the study of bisexuality and gender Many scholars working in gay and lesbian studies still question the intellectual and political value of queer theory As a result queer theory has often been concentrated in the humanities while gay and lesbian studies are concentrated in the social sciences and history But this has begun to change in the past 10 15 years as documented by the 12 essays presented in LGBT Studies and Queer Theory New Conflicts Collaborations and Contested Terrain LGBT Studies and Queer Theory New Conflicts Collaborations and Contested Terrain includes historical notes on LGBT studies and queer theory some continuing tensions between LGBT studies and queer theory doubts about whether queer theory can lead to social change an analysis of the current state of proto fields of LGBT studies and queer studies in religion concerns that queer theory s erasure of identity feeds into late capitalism an analysis of variability in social psychologists studies of anti homosexual prejudice an exploration of the commodification of queer identities in independent cinema how and why the category of bisexuality has been marginalized a historical review and assessment of recent bisexual theory a case study of Provincetown Massachusetts an investigation of the interarticulation of race ethnicity and gender a case study of the struggle to introduce LGBT studies in the curriculum at West Chester University and much more LGBT Studies and Queer Theory New Conflicts Collaborations and Contested Terrain is an essential read for researchers academics and practitioners involved in exploring multifaceted aspects of LGBT Studies and Queer Theory and their points of convergence and divergence
