Globalization and Politics Jan-Erik Lane, 2017-11-28 Globalization and Politics brings together vision and imaginative insight to the analysis of the evolution of inter-state politics to produce a clear, comprehensive, and coherent sense of how globalization works and how it might work better. The study looks upon globalization as a distinct set of phenomena: energy, economy, environment, and politics, all of which interact. Presenting opportunities for interdependency and governance, globalization offers both dangers and promises which explains why it is equally feared and praised. Globalization is an economic trend with strong spillovers and as such has become a political trend with cultural implications. This volume is an invaluable, highly readable new text for graduate and undergraduate courses. It sets out the key challenges for globalization in the 21st century and looks at the challenges, responses, and risks of globalization. It is required reading for analysts, students, and professionals who want to understand what's at stake in the globalization debate.

The Oxford Handbook of Religious Conversion Lewis R. Rambo, Charles E. Farhadian, 2014-03-06 The Oxford Handbook of Religious Conversion offers a comprehensive exploration of the dynamics of religious conversion which for centuries has profoundly shaped societies, cultures, and individuals throughout the world. Scholars from a wide array of religions and disciplines interpret both the varieties of conversion experiences and the processes that inform this personal and communal phenomenon. This volume examines the experiences of individuals and communities who change religions, those who experience an intensification of their religion of origin, and those who encounter new religions through colonial intrusion, missionary work, and charismatic and revitalization movements. The thirty-two innovative essays provide overviews of the history of particular religions including Hinduism, Buddhism, Confucianism, Taoism, Sikhism, Islam, Christianity, Judaism, indigenous religions, and new religious movements. The essays also offer a wide range of disciplinary perspectives: psychological, sociological, anthropological, legal, political, feminist, and geographical, on methods and theories deployed in understanding conversion and insight into various forms of deconversion.
