The Future of Publicly Funded Faith Schools Richard Pring, 2018-03-21 The Future of Publicly Funded Faith Schools addresses and critically examines the arguments both for and against the continued maintenance of faith based schools within a publicly funded state system Addressing the issue systemically first grounding the discussion in the practical world of education before raising the central philosophical issues stemming from faith based education it provides a balanced synthesis of the different arguments surrounding faith schools The book expounds upon the different threats facing faith based schools including their perceived potential to undermine social cohesion within a multi cultural society and the questioning of their right to receive public funding and examines what these mean for their future Examining these threats it questions What it means for a school to be faith based The nature of religious education both within and without a faith based school environment The ethical epistemological and political issues arising from faith based education The concepts of the common good and social cohesion Whether there is possible reconciliation between opposing parties The Future of Publicly Funded Faith Schools makes a unique contribution to the literature in this area and is crucial reading for anyone interested in what the future holds for publicly funded faith schools including academics researchers and postgraduate students in the fields of education religious studies policy and politics of education sociology and philosophy Education and Service Conditions of Teachers in Scandinavia, the Netherlands and Finland Alina Marie Lindegren, 1941 **Dialogues**

and Natural History of Religion David Hume, 1998 David Hume is the greatest and also one of the most provocative philosophers to have written in the English language No philosopher is more important for his careful critical and deeply perceptive examination of the grounds for belief in divine powers and for his sceptical accounts of the causes and consequences of religious belief expressed most powerfully in the Dialogues Concerning Natural Religion and The Natural History of Religion The Dialogues ask if belief in God can be inferred from the nature of the universe or whether it is even consistent with what we know about the universe The Natural History of Religion investigates the origins of belief and follows its development from harmless polytheism to dogmatic monotheism Together they constitute the most formidable attack upon the rationality of religious belief ever mounted by a philosopher This edition also includes Section XI of The Enquiry Concerning Human Understanding and a letter concerning the Dialogues as well as particularly helpful critical
