## **Religion Revolution And The Future:**

**Religion, revolution, and the future** Jürgen Moltmann, 1969      **Religion, Revolution, and the Future** Jürgen Moltmann, 1969 From September 1967 to April 1968 Jürgen Moltmann Professor of Theology at Tübingen University in Germany sojourned in the United States While he was pivotally located as Visiting Professor of Systematic Theology at Duke Divinity School he traveled widely to almost every major region of the nation and visited many of the large academic and urban centers This book is comprised of a portion of the lectures and essays with which Professor Moltmann introduced himself and his thought to the American continent Translator's preface      **Religion, Revolution, and the Future.** **Translated by Douglas Meeks** Jürgen Moltmann, 1969      *Revolution and the Christian Faith* Vernon C. Grounds, 2007-05-01 In this stirring book Grounds has ably sketched the background against which the theology of revolution has emerged Grounds puts it this way I have sought to let the critics of the Establishment Christian and secular alike present in their own words the case for revolutionary change I have also sought to let the revolutionary theologians set forth their interpretation of Christianity in detail Quite literally I have allowed them to speak for themselves I have sought further to let Christian scholars who dissent from this new theology engage its proponents in debate Very heavily I have drawn upon the work of Jacques Ellul the towering French sociologist who is rapidly gaining in the United States the attention and respect which his rare fusion of professional distinction intellectual power and biblical commitment deserves I shall feel amply regarded if through these pages he wins a wider readership among American evangelicals An additional purpose has been to confront my own ecclesiastical tradition that of Protestant orthodoxy with the inexpressibly pressing need of permitting the anguish of our world to drive theological conservatism back to a New Testament discipleship which is nothing less than revolutionary      **Pluralism: The Future of Religion** Kenneth Rose, 2013-03-28 Theology of religions has defaulted in the last two decades to an epicyclic inclusivism which seeks to undermine pluralism with claims that it is covertly triumphalistic and that it mirrors the logic of exclusivism With the exception of pioneers in the field such as John Hick and Paul Knitter most major figures in this theological field have retreated from pluralism and promote versions of particularism and inclusivism Pluralism The Future of Religion argues for an apophatic pluralism that is motivated by the insight that it is impossible to secure universal assent for changeable bodies of religious teachings This insight implies the non finality and consequent departicularization of all religious teachings and their inclusivistic defenses These conclusions point us inevitably toward pluralism and lead us out of the inclusivistic impasse of contemporary theology in religions      *Future(s) of the Revolution and the Reformation* Elena Namli, 2019-10-29 This volume brings together philosophers social theorists and theologians in order to investigate the relation between future s of the Revolution and future s of the Reformation It offers reflections on concepts and interpretations of revolution and reformation that are relevant for the analysis of future oriented political practices and political theologies of the present time      *The Non-religion of the Future* Jean-Marie Guyau, 1897      **The**

**Religion of the Future** Roberto Mangabeira Unger, 2014-04-08 How can we live in such a way that we die only once How can we organize a society that gives us a better chance to be fully alive How can we reinvent religion so that it liberates us instead of consoling us These questions stand at the center of *The Religion of the Future* a book about religion and a religious work in its own right

*Leaning into the Future* Poul F Gutesen, 2011-05-26 *Leaning into the Future* seeks to explore what it may mean to believe in the Kingship of God and wait for his Kingdom by considering the fundamental role the Kingdom of God plays in the theology of Jurgen Moltmann and in the book of Revelation Part one is devoted to how Moltmann understands The Kingdom of God as the fundamental symbol of hope for humanity and how he sees the presence of God s reign and kingdom in history as hidden and paradoxical Part two turns to the way the Book of Revelation uses royal and other political language in its portrait of the future and God s presence in history In this second part the book also seeks to explore how Moltmann and the Apocalypse may mutually inform each other how Moltmann may help us read this biblical book today and how it in turn may overcome some of the weaknesses in Moltmann s proposal

*Ecology in Jurgen Moltmann's Theology* Celia E. Deane-Drummond, 2016-09-01 This book offers a critical and constructive analysis of the contribution of Jurgen Moltmann to the field of ecotheology Moltmann is one of the foremost and influential contemporary theologians of our time but his specific contribution to ecotheology has received relatively scant attention in the secondary literature The author deals sensitively with the relevant scientific aspects necessary in order to develop an adequate theology of the natural world She also offers a careful and constructive analysis of the specific systematic theologies of creation humanity eschatology and Trinity that are woven into Moltmann s rich interpretation of the relationship between God and creation

*Transhumanism and Transcendence* Ronald Cole-Turner, 2011-09-29 The timeless human desire to be more beautiful intelligent healthy athletic or young has given rise in our time to technologies of human enhancement Athletes use drugs to increase their strength or stamina cosmetic surgery is widely used to improve physical appearance millions of men take drugs like Viagra to enhance sexual performance And today researchers are exploring technologies such as cell regeneration and implantable devices that interact directly with the brain Some condemn these developments as a new kind of cheating not just in sports but in life itself promising rewards without effort and depriving us most of all of what it means to be authentic human beings Transhumanists on the other hand reject what they see as a rationalizing of human limits as if being human means being content forever with underachieving bodies and brains To be human they insist is to be restless with possibilities always eager to transcend biological limits As the debate grows in urgency how should theology respond Christian theologians recognize truth on both sides of the argument pointing out how the yearnings of the transhumanists if not their technological methods find deep affinities in Christian belief In this volume Ronald Cole Turner has joined seasoned scholars and younger emerging voices together to bring fresh insight into the technologies that are already reshaping the future of Christian life and hope

**The Future of Religion** Michael R. Ott, 2007-06-30 In the midst of the increasing antagonism between religion

and secularity the sacred and the profane faith and reason currently described in terms of the clash of civilizations is religion any longer relevant or meaningful in the globalizing development of modern subjectivity inter subjectivity family society state and history If so how and to what end In the socio historical context of the highly secular neo liberal neo conservative globalization movement the question of the social meaning and relevancy of religion has entered directly into the contemporary discourse on the future of humanity This book gives expression to the research of international scholars as they wrestled with these issues during the Future of Religion courses held at the Inter university Center in Dubrovnik Croatia from 2001 2005 Contributors include Aleksandra Ba a Reimon Bachika Ale rni Anja Finger Helmut Fritzsche Denis Janz Hans Herbert K gler Werner Krieglstein Mislav Kuko Gottfried K enzlen Aurelia Margareti Michael R Ott Dunja Poto nik A James Reimer Kjartan Selnes Rudolf J Siebert Hans K Weitensteiner Brian Wilson Katarzyna Zielinska

**Eschatology and the Technological Future** Michael S. Burdett, 2014-12-05 The rapid advancement of technology has led to an explosion of speculative theories about what the future of humankind may look like These technological futurisms have arisen from significant advances in the fields of nanotechnology biotechnology and information technology and are drawing growing scrutiny from the philosophical and theological communities This text seeks to contextualize the growing literature on the cultural philosophical and religious implications of technological growth by considering technological futurisms such as transhumanism in the context of the long historical tradition of technological dreaming Michael Burdett traces the latent religious sources of our contemporary technological imagination by looking at visionary approaches to technology and the future in seminal technological utopias and science fiction and draws on past theological responses to the technological future with Pierre Teilhard de Chardin and Jacques Ellul Burdett s argument arrives at a contemporary Christian response to transhumanism based around the themes of possibility and promise by turning to the works of Richard Kearney Eberhard J ngel and J rgen Moltmann Throughout the author highlights points of correspondence and divergence between technological futurisms and the Judeo Christian understanding of the future
