

RELIGION:

THE MOST DANGEROUS MYTH

PETER TELEMANN

Religion The Most Dangerous Myth

Eric Carlton

Religion The Most Dangerous Myth:

Religion Peter Telemann, 1993-10 **Man's Most Dangerous Myth** Ashley Montagu, 2001-04-19

Man's Most Dangerous Myth was first published in 1942 when Nazism flourished when African Americans sat at the back of the bus and when race was considered the determinant of people's character and intelligence. It presented a revolutionary theory for its time breaking the link between genetics and culture; it argued that race is largely a social construction and not constitutive of significant biological differences between people. In the ensuing 55 years as Ashley Montagu's radical hypothesis became accepted knowledge, succeeding editions of his book traced the changes in our conceptions of race and race relations over the 20th century. Now over 50 years later, Man's Most Dangerous Myth is back in print, fully revised by the original author. Montagu is internationally renowned for his work on race as well as for such influential books as *The Natural Superiority of Women*, *Touching*, and *The Elephant Man*. This new edition contains Montagu's most complete explication of his theory and a thorough updating of previous editions. The Sixth Edition takes on the issues of the Bell Curve, IQ testing, ethnic cleansing, and other current race relations topics, as well as contemporary restatements of topics previously addressed. A bibliography of almost 3,000 published items on race, compiled over a lifetime of work, is of enormous research value. Also available is an abridged student edition containing the essence of Montagu's argument, its policy implications, and his thoughts on contemporary race issues for use in classrooms. Ahead of its time in 1942, Montagu's arguments still contribute essential and salient perspectives as we face the issue of race in the 1990s. Man's Most Dangerous Myth is the seminal work of one of the 20th century's leading intellectuals, essential reading for all scholars and students of race relations.

Man's Most Dangerous Myth: The Fallacy of Race Ashley Montagu, 2011-11-29

DR ASHLEY MONTAGU'S book possesses two great merits rarely found in current discussions of human problems. Where most writers oversimplify, he insists on the principle of multiple and interlocking causation. And where most assume that facts will speak for themselves, he makes it clear that facts are mere ventriloquists' dummies and can be made to justify any course of action that appeals to the socially conditioned passions of the individuals concerned. These two truths are sufficiently obvious but they are seldom recognized for the good reason that they are very depressing. To recognize the first truth is to recognize the fact that there are no panaceas and that therefore most of the golden promises made by political reformers and revolutionaries are illusory. And to recognize the truth that facts do not speak for themselves but only as man's socially conditioned passions dictate is to recognize that our current educational processes can do very little to ameliorate the state of the world. In the language of traditional theology, so much more realistic in many respects than the liberal philosophies which replaced it, most ignorance is voluntary and depends upon acts of the conscious or subconscious will. Thus the fallacies underlying the propaganda of racial hatred are not recognized because, as Dr. Montagu points out, most people have a desire to act aggressively and the members of other ethnic groups are convenient victims whom one may attack with a good conscience. This desire to act aggressively has its origins in the largely

unavoidable frustrations imposed upon the individual by the processes of early education and later adjustments to the social environment Dr Montagu might have added that aggressiveness pays a higher dividend in emotional satisfaction than does cooperation Cooperation may produce a mild emotional glow but the indulgence of aggressiveness can be the equivalent of a drinking bout or sexual orgy In our industrial societies the goodness of life is measured in terms of the number and intensity of the excitements experienced Popular philosophy is moulded by and finds expression in the advertising pages of popular magazines Significantly enough the word that occurs more frequently in those pages than any other is thrill Like sex and alcohol aggressiveness can give enormous thrills Under existing social conditions it is therefore easy to represent aggressiveness as good Concerning the remedies for the social diseases he has so penetratingly diagnosed Dr Montagu says very little except that they will have to consist in some process of education But what process It is to be hoped that he will answer this question at length in another work

ALDOUS HUXLEY *Dangerous Myths of the Western World* Richard Malmed, 2017-11-15 Much of what is thought of as traditional religious belief has in fact no factual or historical basis This collection of essays debunks some of these myths and demonstrates the harmful effect such beliefs have had on the development of western culture

***Seven Myths of Military History* John D. Hosler, Alfred J. Andrea, Andrew Holt, 2022-03-01** This brief provocative and accessible book offers snapshots of seven pernicious myths in military history that have been perpetrated on unsuspecting students readers moviegoers game players and politicians It promotes awareness of how myths are created by the spurious misuse and ignorance of history and how misleading ideas about a military problem as in asymmetric warfare can lead to misguided solutions Both scholarly and engaging this book is an ideal addition to military history and historical methodology courses In fact it could be fruitfully used in any course that teaches critical thinking skills including courses outside the discipline of history Military history has a broad appeal to students and there is something here for everyone From the so called Western Way of War to its sister myth technological determinism to the academic party game of once faddish Military Revolutions the book shows that while myths about history may be fun myth busting is the most fun of all

Reina Pennington Norwich University *Ideology and Social Order* Eric Carlton, 2014-08-13 Truly interdisciplinary work between Sociology and History is rare because one discipline usually exploits the concerns or data of the other Eric Carlton however has succeeded in bringing together the distinctive orientations of sociology and ancient history into a clearly written discussion of concerns crucial to both disciplines Based on a comparative analysis of two pre industrial civilisations those of Ancient Egypt and Classical Athens the study is primarily concerned with three issues The first is the relationship between belief and action does belief intellectualised as ideology affect or determine social behaviour Second the author examines the ways in which belief contributes to stability and good order in society and asks to what extent such factors as social status and social change are related to institutionalised mechanisms of social control Finally he indicates possible sociological frameworks or models which are ideological rather than stratificatory whereby

complex pre industrial systems might be analysed By analysing the societies of Ancient Egypt and Classical Athens in institutional terms Eric Carlton examines the potency and pervasiveness of the ideological factor and shows that it is a persistent and determinative feature of this type of society

Understanding the Social World of the New Testament

Dietmar Neufeld, Richard DeMaris, 2009-10-29 The New Testament is a book of great significance in Western culture yet is often inaccessible to students because the modern world differs so significantly from the ancient Mediterranean one in which it was written It is imperative to develop a cross cultural understanding of the values of the ancient Mediterranean society from which the New Testament arose in order to fully appreciate the documents and the communities that they represent Dietmar Neufeld and Richard E DeMaris bring together biblical scholars with expertise in the social sciences to develop interpretative models for understanding such values as collectivism kinship memory ethnicity and honour and to demonstrate how to apply these models to the New Testament texts Kinship is illuminated by analysis of the Holy Family as well as to early Christian organisations gender through a study of Paul s view of women and landscape and spatiality through a discussion of Jesus of Nazareth This book is the ideal companion to study of the New Testament

Context, Plurality, and Truth

Mika Vahakangas, 2020-02-10 The world has shrunk in the processes of globalization and the old ways of actively ignoring plurality in theology are no longer viable Contextual differences between different Christian traditions and theologies are highly visible due to improved communications and migration These differences also witness that this plurality has existed since the very beginning of Christianity Religious studies demonstrate that no religion is pure and hermetically sealed from others but they all are syncretistic in the sense of giving and taking In the world of religions where boundaries are porous and the internal plurality of Christianity is vast there is a temptation either to reject the plurality in a fideistic manner or succumb to relativism The first solution is intellectually hard to defend and relativism is often seen as detrimental to Christian identity This book proposes a way of recognizing the contextual and syncretistic dimensions of pluralism while not surrendering to relativism Christian identity and tradition can be affirmed while staying open to the challenges of pluralism

In the Face of Difference

William L. Sachs, 2014-11-20 Encounters with difference are the measure of faith as how a person of one faith approaches persons of other faiths reveals the heart of religious conviction Christian congregations are often ill equipped to respond to differing religious perspectives Most are hesitant many are prejudiced In the Face of Difference offers a basis for constructive response demonstrating how one can honor people of another faith by living fully into one s own faith William Sachs examines how Christians can maximize their spiritual growth through a genuine exchange of ideas and inspiration with those of others faiths focusing on encounters between Christians and Muslims By providing a clear and concrete blueprint for congregational leadership in new social circumstances Sachs charts a course for overcoming major religious prejudice He demonstrates how bridges can be built by applying the ideals of love of God and love of neighbor and how faithful people can translate religious ideals into reconciling realities

Connected Steven

Cassedy,2014-01-01 Between the end of the nineteenth century and the beginning of the twentieth Americans underwent a dramatic transformation in self conception having formerly lived as individuals or members of small communities they now found themselves living in networks which arose out of scientific and technological innovations There were transportation and communication networks There was the network of the globalized marketplace which brought into the American home exotic goods previously affordable to only a few There was the network of standard time which bound together all but the most rural Americans There was the public health movement which joined individuals to their fellow citizens by making everyone responsible for the health of everyone else There were social networks that joined individuals to their fellows at the municipal state national and global levels Previous histories of this era focus on alienation and dislocation that new technologies caused This book shows that American individuals in this era were more connected to their fellow citizens than ever but by bonds that were distinctly modern

Big Brains and the Human Superorganism Niccolo Leo

Caldararo,2017-09-05 This book examines why humans have big brains what big brains enable us to do and how specialized brains are associated with eusociality in animals It explores why brains expanded so slowly and then why they stopped growing This book whittles down the theories on brain size evolution to a few that represent testable hypotheses to identify logical and practical explanations for the phenomenon At the core of this book is data derived from original previously unpublished research on brain size in a number of social mammals This data supports the idea that evolution of the brain in humans is the result of social interaction This book also traces the products of the social brain ideology religion urban life housing and learning and adapting to dense complex social interactions It uniquely compares brain evolution in social animals across the animal kingdom and examines the nature of the human brain and its evolution within the social and historical context of complex human social structures

Resources for the Teaching of Anthropology Ethel M.

Albert,David Goodman Mandelbaum,Gabriel Ward Lasker,1963

The Sociological Ambition Chris Shilling,Philip A Mellor,2001-09-05

The Sociological Ambition is a superb book It is beautifully written expertly edited and renders complex and original ideas entirely accessible This is a modern classic Journal of Contemporary Religion For all social scientists who are fed up with corporate style textbooks which appeal to the lowest common denominator The Sociological Ambition must come as a relief Shilling and Mellor have written an account of their discipline but they have done so with a multi purpose task in mind Irish Journal of Sociology In a comprehensive reassessment of the field Chris Shilling and Philip A Mellor examine the various attempts that have been made to reconstruct sociology over the last century arguing that classical and contemporary social theories must be studied in relation to the ambition that first shaped and established the discipline The authors begin by situating sociology in its historical philosophical and theological contexts examining how the founders of the discipline developed competing analyses of the processes elementary to social and moral life through their unique contributions The result is a landmark work in recent sociological study Accomplished and erudite this book will be required

reading for students of sociology social theory religious studies and cultural studies The Undivided Past David Cannadine, 2014-01-14 From one of our most acclaimed historians a wise and provocative call to re examine the way we look at the past not merely as the story of incessant conflict between groups but also of human solidarity throughout the ages Investigating the six most salient categories of human identity difference and confrontation religion nation class gender race and civilization David Cannadine questions just how determinative each of them has really been For while each has motivated people dramatically at particular moments they have rarely been as pervasive as divisive or as important as is suggested by such simplified polarities as us versus them black versus white or the clash of civilizations For most of recorded time these identities have been more fluid and these differences less unbridgeable than political leaders media commentators and some historians would have us believe Throughout history in fact fruitful conversations have continually taken place across these allegedly impermeable boundaries of identity the world as Cannadine shows has never been simply and starkly divided between any two adversarial solidarities but always an interplay of overlapping constituencies Yet our public discourse is polarized more than ever around the same simplistic divisions and Manichean narrative has become the default mode to explain everything that is happening in the world today With wide ranging erudition David Cannadine compellingly argues against the pervasive and pernicious idea that conflict is the inevitable state of human affairs The Undivided Past is an urgently needed work of history one that is also about the present and the future Jewish Identities Klara Moricz, 2008-02-05 Jewish Identities mounts a formidable challenge to prevailing essentialist assumptions about Jewish music which maintain that ethnic groups nations or religious communities possess an essence that must manifest itself in art created by members of that group Klara Moricz scrutinizes concepts of Jewish identity and reorders ideas about twentieth century Jewish music in three case studies first Russian Jewish composers of the first two decades of the twentieth century second the Swiss American Ernest Bloch and third Arnold Schoenberg Examining these composers in the context of emerging Jewish nationalism widespread racial theories and utopian tendencies in modernist art and twentieth century politics Moricz describes a trajectory from paradigmatic nationalist techniques through assumptions about the unintended presence of racial essences to an abstract notion of Judaism **Jewish Identities** Klara-Moricz, 2008-02-05 This book makes a decisive and controversial contribution to the history of musical modernism Moricz radically but thoroughly scrutinizes concepts of Jewish identity and in doing so re orders our understanding of Jewish music as an outgrowth of nationalist racist and utopian ideologies The scholarship is superior in every respect Jewish Identities is destined to become a seminal work in the reception history of European musical modernism An absolutely outstanding and intellectually brilliant work Harry White author of The Keeper's Recital Music and Cultural History in Ireland 1770-1970 **Clash or Complement of Cultures?** Hector E. Garcia, 2016-12-07 This book recommends balance between cooperation and competition in intercultural international relations with more emphasis on the former To make this possible it describes a paradigm shift and

demonstrates why it is logical and how it can be attained thus going beyond traditional legal and moral compliance Compliance has been insufficient because morality has been significantly dismissed as a soft value and civil rights laws have been circumvented and frequently ineffective Book proposes that revolutionary changes caused by globalization require an equivalent paradigm Interdependence inherent to globalization will not function if winning is the only thing mindset continues to prevail in U S and the West Cultural Complementarity is validated through respected principles and practices in quantum physics education business and economics End chapters focus on national and international applications of paradigm Appendices have data and suggested programs to test and implement the theory

Tolkien, Race, and Racism in Middle-earth Robert Stuart, 2022-04-15 Tolkien Race and Racism in Middle earth is the first systematic examination of how Tolkien understood racial issues how race manifests in his oeuvre and how race in Middle earth his imaginary realm has been understood criticized and appropriated by others This book presents an analysis of Tolkien s works for conceptions of race both racist and anti racist It begins by demonstrating that Tolkien was a racialist in that his mythology is established on the basis of different races with different characteristics and then poses the key question Was Tolkien racist Robert Stuart engages the discourse and research associated with the ways in which racism and anti racism relate Tolkien to his fascist and imperialist contemporaries and to twenty first century neo Nazis and White Supremacists including White Supremacy genocide blood and soil philology anti Semitism and aristocratic racism Addressing a major gap in the field of Tolkien studies Stuart focuses on race racisms and the Tolkien legendarium

No Partiality Douglas R. Sharp, 2002-01-01 Douglas Sharp explores the theoretical constructions of race including its psychological sociopolitical and socioeconomic dimensions Finally Sharp carefully weaves a theological model of racial reconciliation for a new humanity

The Conformist Rebellion Elena Louisa Lange, Joshua Pickett-Depaolis, 2022-03-28 With the rise of myriad forms of identity politics which corresponds to a new Trinity Formula of leftist analysis of capitalism class race and gender major currents in the contemporary radical left in the past decades have shifted their aim This book addresses the ideological theoretical and practical dilemmas of the contemporary academic and activist left from a Marxist standpoint Covering contemporary developments in Left thought and ideology and putting them into social and historical context the chapters provide a theoretical confrontation with the myriad ways it has tended to accommodate itself to neoliberal ideology rather than fundamentally opposing it The contrast between the Marxian emancipatory project and what the progressive left has made of it has never been more glaring than now a time in which capital no longer seems to confront a political barrier It is this predicament that The Conformist Rebellion evaluates for a renewed approach to emancipation from capital

Right here, we have countless book **Religion The Most Dangerous Myth** and collections to check out. We additionally come up with the money for variant types and next type of the books to browse. Religion The Most Dangerous Myth Introduction

In the digital age, access to information has become easier than ever before. The ability to download Religion The Most Dangerous Myth has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Religion The Most Dangerous Myth has opened up a world of possibilities. Downloading Religion The Most Dangerous Myth provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Religion The Most Dangerous Myth has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Religion The Most Dangerous Myth. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Religion The Most Dangerous Myth. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Religion The Most Dangerous Myth, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Religion The Most Dangerous Myth has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for

students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Religion The Most Dangerous Myth Books

1. Where can I buy Religion The Most Dangerous Myth books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Religion The Most Dangerous Myth book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Religion The Most Dangerous Myth books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Religion The Most Dangerous Myth audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.

9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Religion The Most Dangerous Myth books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
