*Theology and the Dialogue of Religions* Michael Barnes, 2002-03-14 Theology of religions is an area of theological reflection on inter religious relations which raises fundamental questions for all people of faith in a pluralist post modern world How to practise a religious faith with integrity while respecting other claims to ultimate truth Must the other always be regarded as a problematic complication on the fringes of a Christianity centred world Is there a third way between an all dominating exclusivism and a vapid relativism This book contributes to the debate about the place of inter religious relations in the life of the Church by developing a theology of dialogue In offering a critique of much current thinking in this area Michael Barnes SJ proposes instead a theology rooted in the themes of welcome and hospitality He argues for a vision of Christianity as a school of faith a community called not just to teach others but to learn from them as well

Blessed Rage for Order 1975 The Analogical Imagination 1981 and Plurality and Ambiguity 1987 Truth and Dialogue John Hick, 1974 American ed published under title Truth and dialogue in world religions **The Problem with Interreligious Dialogue** Muthuraj Swamy, 2016-03-24 Muthuraj Swamy provides a fresh perspective on the world religions paradigm and interreligious dialogue By challenging the assumption that world religions operate as essential entities separate from the lived experiences of practitioners he shows that interreligious dialogue is in turn problematic as it is built on this very paradigm and on the myth of religious conflict Offering a critique of the idea of dialogue as it has been advanced by its proponents such as religious leaders and theologians whose aims are to promote inter religious conversation and understanding the author argues that this approach is elitist and that in reality people do not make sharp distinctions between religions nor do they separate political economic social and cultural beliefs and practices from their religious traditions Case studies from villages in southern India explore how Hindu Muslim and Christian communities interact in numerous ways that break the neat categories often used to describe each religion Swamy argues that those who promote dialogue are ostensibly attempting to overcome the separate identities of religious practitioners through understanding but in fact they re enforce them by encouraging a false sense of separation The Problem with Interreligious Dialogue Plurality Conflict and Elitism in Hindu Christian Muslim Relations provides an innovative approach to a central issue confronting Religious Studies combining both theory and ethnography **Christianity and the Religions** Jacques Dupuis, 2002 In this incisive and important volume Jacques Dupuis offers new insights on the most important issue facing Christian theology today giving an account of Christian faith as Christians go more deeply along the road of dialogue and collaboration with the followers of other religious traditions His task is to square a dogmatic circle How does one do justice to the Gospel claim that Jesus the Christ is the final and universal savior of all humankind in every age while also doing justice to the experience that truth grace holiness and power are experienced in other religious traditions In the first six chapters Dupuis reviews the history of the Western Christian tradition s teaching on other religious Ways through the breakthrough at Vatican Council II In chapters 7 and 8 he reviews the critical issues of uniqueness of Christ and Christian proposals to account for the mediation of salvation in other religious Ways He discusses also the relationship between the Reign of God the Church and the Religions In chapter 9 he explores the nature and role of dialogue in a pluralistic society In chapter 10 offers sage reflections on interreligious prayer Christian Theology and Inter-religious Dialogue Maurice Wiles, 1992 That Professor Wiles has now turned from the field of Christian doctrine and its history for which he is so well known to that of inter faith dialogue is an indication of the importance which that subject is now assuming This is not a book he confesses which he had expected to write but in recent years he has increasingly felt that the close co existence of different faith communities in the modern world is as important a background to Christian theology as the rise of the scientific world view In his book which arises out of lectures at Manchester and Yale universities Professor Wiles begins by asking whether acceptance of the

possibility of open dialogue with other religions is not a desertion of the way in which church has understood its faith down the ages He then goes on to argue that pressure to acknowledge other religions is only one of several pressures arising out of changes in contemporary knowledge and experience of the world which Christians face today A third chapter examines how Karl Rahner tried to incorporate these changes into a coherent theological position and the last chapter builds on this approach and offers a personal account of a Christian theology for dialogue At a time of increasing conservatism and opposition to interfaith activity in the churches here is encouragement to those who believe that narrow christocentricity is not the way forward BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
