The Evangelical Age of Ingenuity in

Official Gazette of the United States Patent and Trademark Office, 2007

Democracy, Religion, and Commerce Kathleen Flake, Nathan B. Oman, 2023-03-13 This collection considers the relationship between religion state and market In so doing it also illustrates that the market is a powerful site for the cultural work of secularizing religious conflict Though expressed as a simile with religious freedom functioning like market freedom free market religion has achieved the status of general knowledge about the nature of religion as either good or bad It legislates good religion as that which operates according to free market principles it is private with no formal relationship to government and personal a matter of belief and conscience As naturalized elements of historically contingent and discursively maintained beliefs about religion these criteria have ethical and regulatory force Thus in culture and law the effect of the metaphor has become instrumental not merely descriptive This volume seeks to productively complicate and invite further analysis of this easy conflation of democracy religion and the

market It invites scholars from a variety of disciplines to consider more intentionally the extent to which markets are implicated and illuminate the place of religion in public life The book will be a valuable resource for researchers and academics working in the areas of law and religion ethics and economics *Religion, Race, and COVID-19* Stacey M. Floyd-Thomas, 2022-02-15 Examines how the dynamics emerging from the pandemic affect our most vulnerable populations and shape a new religious landscape The COVID 19 pandemic upset virtually every facet of society and in many cases exposed gross inequality and dysfunction The particular dynamics emerging from the coronavirus pandemic have been felt most intensely by America s most vulnerable populations who are disproportionately people of color and the working poor the people whom the Bible refers to as the least of these This book makes the case that the pandemic was not just a medical phenomenon or an economic or social one but also a religious one Religious practice has been altered in profound ways Controversies around religious freedom have been re ignited over debates concerning whether government can restrict church services Christian white supremacists not only defied shelter in place orders but found new ways to propagate racist attacks with their White Christian identity fueling their reactions to the pandemic Some religious leaders including those in communities of color saw the virus as an indicator of God s wrath or as a divine test and viewed altering their traditional practices to mitigate the virus s spread as a weakening of faith Religion Race and COVID 19 argues that there is a religious hierarchy in US society that puts the least of these last while prioritizing those who benefit most from white privilege Yet these vulnerable populations draw on theological and religious resources to contend with these existential threats The volume shows how social transformation occurs when faith is both formed and informed during crises offering compelling insight into the saliency and lasting impact of religiosity within human culture Sacred Mission, Worldly Ambition Adele Oltman, 2008 Using Savannah Georgia as a case study Sacred Mission Worldly Ambition tells the story of the rise and decline of Black Christian Nationalism This nationalism emerged from the experiences of segregation as an intersection between the sacred world of religion and church and the secular world of business The premise of Black Christian Nationalism was a belief in a dual understanding of redemption at the same time earthly and otherworldly and the conviction that black Christians once delivered from psychic spiritual and material want would release all of America from the suffering that prevented it from achieving its noble ideals The study s use of local sources in Savannah especially behind the scenes church records provides a rare glimpse into church life and ritual depicting scenes never before described Blending history ethnography and Geertzian dramaturgy it traces the evolution of black southern society from a communitarian nationalist system of hierarchy patriarchy and interclass fellowship to an individualistic one that accompanied the appearance of a new black civil society Although not a study of the civil rights movement Sacred Mission Worldly Ambition advances a bold revisionist interpretation of black religion at the eve of the movement It shows that the institutional primacy of the churches had to give way to a more diversified secular sphere before an overtly politicized struggle for freedom could take place The

unambiguously political movement of the 1950s and 1960s that drew on black Christianity and radiated from many black churches was possible only when the churches came to exert less control over members' quotidian lives. A Sarah Mills Hodge Fund Publication 1977 Census of Service Industries: Subject statistics ,1981 **Women, a Documentary of Progress During the Administration of Jimmy Carter, 1977 to 1981** ,1981 Theosophical Quarterly ,1914 **Religious Change and Indigenous Peoples** Helena Onnudottir,Adam Possamai,2016-04-08 Exploring religious and spiritual changes which have been taking place among Indigenous populations in Australia and New Zealand this book focuses on important changes in religious affiliation in census data over the last 15 years. Drawing on both local social and political debates while contextualising the discussion in wider global debates about changing religious identities especially the growth of Islam the authors present a critical analysis of the persistent images and discourses on Aboriginal religions and spirituality. This book takes a comparative approach to other Indigenous and minority groups to explore contemporary changes in religious affiliation which have raised questions about resistance to modernity challenges to the nation state and or rejection of Christianity or Islam. Helena Onnudottir Adam Possamai and Bryan Turner offer a critical analysis to on going public political and sociological debates about religious conversion especially to Islam and changing religious affiliations including an increase in the number of people who claim no religion among Indigenous populations. This book also offers a major contribution to the growing debate about conversion to Islam among Australian Aborigines Maoris and Pacific peoples.
