

Essay on Religious Freedom: Embracing Diversity & Respect for All. Essay

Religious freedom entails respect for the religious beliefs of an individual or a group. It is the recognition that people are allowed to act and live according to what they believed. While the freedom of religion might seem necessary, it is often violated due to factors such as prejudice. While one may not agree with the beliefs of another individual, he/she is obliged to embrace other religions. The government, too, has the role of cultivating religious diversity following the principles of democracy. This paper discusses the importance of religious freedom to the wellbeing of democracy in the United States.

One of the fundamental tenets of democracy is adherence to the Constitution as a document that fosters equality for all and respect for human dignity. The United States Constitution, in particular, grants religious freedom to all people within the United States. The First Amendment of the U.S outlines several freedoms that United States citizens and any other individual living in U.S territory shall enjoy, such as freedom of speech and religion, among others. According to The American Civil Liberties Union (n.d), religious freedom as per the United States Constitution grants two separate protections. The first one is an individual right to exercise their belief without any barriers. The second is the assurance that the government will not favor one religion over the other. Therefore, failure to grant religious freedom amounts to failing to honor the Constitution, which is a crucial marker of democracy. The events following the 9/11 attack demonstrate how religion can lead to suppression of democracy. To curb the threat of terrorism, the U.S government put on strict measures in dealing with individuals from specific countries that were considered possible sources of threat. Unfortunately, these efforts escalated to abuse of human rights as Islam and individual from Arab descent were wrongfully targeted by law enforcement.

Religious freedom is a core component of democracy. According to Philpott (2016), there cannot be a democracy without religious freedom. He supports his arguments by demonstrating how democracy was compromised in Indonesia during the Suharto regime that suppressed religious freedom. Philpot (2016) also shows how repressions lead to greater evils that further lead to violation of human rights and, consequently, democracy. When people are denied their religious freedom, they are bound to rebel to secure their rights. However, the ruling regime is most likely going to respond aggressively to contain them. As a result, basic human rights that are enshrined in a country's Constitution are violated. Therefore, failure to grant religious freedom in the United States will compromise the principles of democracy that the U.S has worked tirelessly to establish and achieve. Additionally, such a denial of freedom will spur resistance, which will, in turn, lead to the compromise of other freedom and rights within the Constitution.

Conclusion

In conclusion, religious freedom and democracy are inseparable. One cannot exist without the other. Religious freedom is a fundamental human right. Once it is denied, it spurs negative emotions that lead to rebellion, which is countered through mechanisms that further violate human rights. Therefore, The United States has to ensure that the religious freedom of all people is respected. It is only in an environment that fosters religious diversity that democracy will thrive. Failure to cultivate religious diversity, on the other hand, will threaten the wellbeing of democracy.

Religious Diversity Wilfred Cantwell Smith, 1976 Religious Diversity brings together outstanding essays in world religions by an authority in the field Carefully chosen both for accessibility and as an outline of Wilfred Cantwell Smith's thinking these nine selections move gracefully through a wide range of concerns Publisher *Religious Diversity—What's the Problem?* Rita M. Gross, 2014-04-24 Once upon a time on grounds of both religion and common sense people assumed that the earth was flat and that the sun literally rose and set each day When newly developing knowledge made those beliefs untenable giving them up was difficult Today the belief that only one of the world's various religions is true for all people on earth is equivalent to the belief in a flat earth Both notions have become untenable given contemporary knowledge about religion Even though many people are still troubled by the existence of religious diversity today that diversity is a fact of life Religious diversity should be no more troubling to religious people than the fact that the earth is round and circles the sun This provocative book based on the author's longtime practice of Buddhism and comparative study of religion provides tools with which one can truly appreciate religious diversity as a gift and resource rather than as a deficiency or a problem to be overcome After we accept diversity as inevitable and become comfortable with it diversity always enriches life both nature and culture

Meijer, Siebren Miedema, Alma Lanser-van der Velde, 2009 This volume brings together a selection of papers presented at the Fifteenth Session of the International Seminar on Religious Education and Values ISREV which took place in 2006 in Driebergen the Netherlands addressing the theme Religious Education in a World of Religious Diversity The authors were invited to combine the concept of diversity with the dimensions of temporality of time and history in reworking their contributions for this book This temporal aspect is in a sense inherent in educational thinking On the one hand education as intergenerational transmission has a conservative aspect tradition being what is actually and presently transmitted from the past and or what is considered worthwhile to be passed on On the other hand acknowledging the activity of students themselves as a prerequisite for any education to happen brings the open endedness and therefore the future into the pedagogical arena in terms of development learning reflection edification et cetera So the question answered in this volume is what does this inherent historicity mean for religious education as well as for the concept religion and religious diversity In answering this question the contributions represent the global character of the concern with religious diversity in relation to religious education and originate respectively from the following countries Canada Bhikkhu English United States Moran Latvia Ilshko Russia Kozyrev Germany Pirner South Africa Roux du Preez Ferguson Japan Omori
