Bussey,2020-02-29 The Status of Religion and the Public Benefit in Charity Law is an apologetic for maintaining the presumption of public benefit for the charitable category advancement of religion in democratic countries within the English common law tradition In response to growing academic and political pressure to reform charity law including recurring calls to remove tax exemptions granted to religious charities the scholars in this volume analyse the implications of legislative and legal developments in Canada the UK Australia New Zealand and South Africa In the process they also confront more fundamental sociological or philosophical questions on the very nature and role of religion in a secular society that would deny any space for religious communities outside their houses of worship In other words this book is concerned with the place of religion and religious institutions in contemporary society It represents a series of concerns about the proper role of the state in relation to the differing beliefs of citizens some of which will quite rightly manifest in actions to benefit the wider society This debate then naturally engages with broader issues related to secularism civic engagement and liberal democratic freedoms **Technology and the Public Interest** Haochen Sun,2022-04-21 In this groundbreaking work Haochen Sun analyzes the ethical crisis unfolding at the intersection of technology and the public

Free Exercise of Religion in the Liberal Polity Emily R. Gill,2019-08-21 This book addresses the challenge of providing for the free exercise of religion without allowing religious exercise by some individuals and groups to impinge upon the conscientious convictions of others State neutrality toward religion is impossible because neutrality means inattention to religion for some but leveling the playing field through accommodations or exemptions for others Both formal and substantive neutrality have a place in addressing particular conflicts One such example is public funding for religiously affiliated social service programs for which neither type of neutrality is satisfactory and thus some restrictions are justifiable conversely private voluntary organizations that do not receive direct public funding should be allowed wide latitude regarding their practices This title also examines the expansive free exercise claims that are now made by those who argue that following the law impinges upon their beliefs as exemplified by the ministerial exception and the Hobby Lobby and
