## Religious Sense:

**Religious Sense** Luigi Giussani, John E. Zucchi, 1997-10-24 Giussani challenges us to penetrate the deepest levels of experience to discover our essential selves breaking through the layers of opinions and judgments that have obscured our true needs Asserting that all the tools necessary for self discovery are inherent within us he focuses primarily on reason not as narrowly defined by modern philosophers but as an openness to existence a capacity to comprehend and affirm reality in all of its dimensions Part of the so called new religious revival The Religious Sense avoids any sentimental or irrational reduction of the religious experience It is a forthright and refreshing call to reassess our lives *Making Faith-sense* Robert L. Kinast, 1999 Making faith sense is a new term for an ancient practice It is what the early Christians called mystical or wisdom theology understanding life in the light of God's participation recorded in the Gospels recognizing the signs of God's presence in everyday events and shaping one's life accordingly In Making Faith Sense Robert Kinast shows all who seek to unify their life experience around their belief in God how to follow that ancient practice Drawing upon the award winning process he has used with students for the ministry Father Kinast explains how to make sense of family work and cultural experience from the perspective of Christian faith Each chapter contains numerous real life examples and practical guidelines that can be used privately or with a group Making Faith Sense begins with a discussion of wisdom theology and its revival in modern times highlighting the turn to experience that characterizes feminist liberation and inculturated theologies The methods for making faith sense embrace three main components experience reflection and action The first section describes what is meant by experience the value of narrating it how to analyze it and what to pay attention to so that experience will reveal its theological meaning The second section explains the role of reflection its similarity to prayer techniques for connecting experience to theological tradition and the most useful theological resources for making faith sense The third section affirms the importance of putting reflection into practice of ensuring that action flows from reflection of planning and evaluating the effect of one's practice and of using practice as the starting point for continuing the process of making faith sense Examples from work family and cultural life are used throughout to provide illustrations of these general points A concluding chapter summarizes the reemergence of practical theology since the 1980s as an effort of church communities to make faith sense of their collective lives Chapters are What Is Faith Sense How to Make Faith Sense Getting Started How to Make Faith Sense The Heart of the Matter and Enacting Faith Sense The Culmination of the Process Robert L. Kinast PhD is a pastoral theologian specializing in the field of theological reflection Through the publications and services of the Center for Theological Reflection Indian Rocks Beach Florida he contributes to the ministry training programs of many denominations in the United States and Canada Father Kinast is the author of the Vatican II Act II series and Let Ministry Teach published by Liturgical Press Edward Said and the Religious Effects of Culture William D. Hart, William David Hart, 2000-04-13 This book provides a distinctive account of Edward Said's critique of modern culture by highlighting the

religion secularism distinction on which it is predicated It refers to religious and secular traditions and to tropes that extend the meaning and reference of religion and secularism in indeterminate ways It covers Said s heterogeneous corpus from Joseph Conrad and the Fiction of Autobiography his first book to Orientalism his most influential book to his recent writings on the Palestinian question The religion secularism distinction lies behind Said s cultural criticism and his notion of intellectual responsibility *On Divisions among Christians, viewed in connection with the mystery of lawlessness. *Person-Centered Politics* Eamonn O'Higgins,2024-04-09 What accounts for the widespread disillusionment with politics Person centered Politics suggests that politics today through its structures processes and institutions tends to presuppose and to impose a certain caricature of the human person that inhibits and frustrates a real sense of personal participation in an authentic common good of politics and society In 12 chapters that touch on fundamental themes of political philosophy Person centered Politics proposes the social and transcendent dimensions of personal existence and their application to the renewal of politics today The themes explore the commonly accepted assumptions of politics today and how a renewed understanding of the person can invigorate political discourse and action In Person centered Politics the author is in continuous dialogue with some of the major contemporary philosophers and thinkers such as Eric Voegelin David Walsh Robert Sokolowski Vaclav Havel Pierre Manent Peter Simpson and Joseph Ratzinger Benedict XVI Detailed footnotes in each chapter provide reference to further sources of enlightenment and research Person centered Politics proposes an outline for a renewed vision of politics that is centered on the truth of human existence and not a politics that distorts and suffocates the human spirit because in the words of E Voegelin the right order of the soul through philosophy furnishes the standard for the right order of society and not the other way round **Dictionary of Indo-European Concepts and Society** Émile Benveniste,2016-11-15 Since its publication in 1969 mile Benveniste s Vocabulaire here in a new translation as the Dictionary of Indo European Concepts and Society has been the classic reference for tracing the institutional and conceptual genealogy of the sociocultural worlds of gifts contracts sacrifice hospitality authority freedom ancient economy and kinship A comprehensive and comparative history of words with analyses of their underlying neglected genealogies and structures of signification and this via a masterful journey through Germanic Romance Indo Iranian Latin and Greek languages Benveniste s dictionary is a must read for anthropologists linguists literary theorists classicists and philosophers alike This book has famously inspired a wealth of thinkers including Roland Barthes Claude L vi Strauss Pierre Bourdieu Jacques Derrida Umberto Eco Giorgio Agamben Fran ois Jullien and many others In this new volume Benveniste s masterpiece on the study of language and society finds new life for a new generation of scholars As political fictions continue to separate and reify differences between European Middle Eastern and South Asian societies Benveniste reminds us just how historically deep

their interconnections are and that understanding the way our institutions are evoked through the words that describe them is more necessary than ever

**The American University in a Postsecular Age** Douglas Jacobsen, Rhonda Jacobsen, 2008-02-27 For much of the twentieth century it was assumed that higher education was and ought to be a secular enterprise but that approach no longer suffices The culture has shifted and contemporary college and university students are increasingly bringing religious and spiritual questions to campus In response college and university leaders are exploring anew the relationship between religion and higher education The American University in a Postsecular Age grapples with key questions How religious or irreligious are faculty and students today What level of religious literacy should be expected from students Can religion be allowed into the classroom without being disruptive Should colleges and universities help students reflect on their own faith Is religion antithetical to critical inquiry Can religion have a positive role to play in higher education This is a state of the art introduction to the national discussion about religion and higher education Leading scholars and top educators express a wide spectrum of opinions that reflect the best current thinking Introductory and concluding essays by the editors describe the postsecular character of our age and propose a comprehensive framework intended to facilitate ongoing conversation

**Tolkien's Mythic Meaning** Quinn A. J. Gervel, 2025-05-27 Perhaps you have read *The Lord of the Rings* multiple times because it is a captivating story Maybe you experienced an awakening through the narrative that drew you back to Middle earth again Some have chosen to relive the journey from The Shire and back again because the adventure continues to bring new unexpected clarity about life Whatever the reason the story was compelling enough for you to revisit those hundreds and hundreds of pages all over again Tolkien s *Mythic Meaning* explores how and why After J R R Tolkien s

The Hobbit debuted in 1937 readers were so enchanted by Bilbo's adventures they demanded more It took Tolkien over a decade to write The Lord of the Rings a monumental undertaking but one well worth the time invested to produce something he perceived readers were desperately hungry for Tolkien's Mythic Meaning demonstrates how Tolkien intentionally crafted The Lord of the Rings so that its narrative would mediate meaning to readers on a personal level deeper than words John Henry Newman and the Imagination Bernard Dive,2018-05-17 For John Henry Newman religion is animated by an imaginative master vision which supplies the mind with spiritual life and peace All his life Newman reflected on this master vision His reflections on the moral imagination developed out of his understanding of practical wisdom as characterized by Aristotle the wisdom that the good man has in living a good life For Newman the vision at the core of religion completes and perfects the intuitions of the conscience John Henry Newman and the Imagination looks at how Newman's understanding of the moral and visionary imagination developed over the course of his life and it relates his ideas about the imagination to his portrayals of religious experience and vision in his novels and poetry **The Critical Review of Theological & Philosophical Literature** Stewart Dingwall Fordyce Salmond,1894 **Faith Without Certainty** Paul B. **Phenomenology of the Truth Proper to Religion** Daniel Guerriere,1990-05-29 The question is what constitutes truth in religion Represented here is the whole spectrum of phenomenology transcendental existential hermeneutic ethical and deconstructive presented by some of the most respected names in the philosophy of religion today Louis Dupr Merold Westphal and Edward Farley Here is also engagement with a wide variety of twentieth century thinkers such as Husserl Scheler and Heidegger Ricoeur Gadamer and Derrida Freud van der Leeuw and Eliade and Rosenzweig Tillich and Schillebeeks This volume provides unique sources for anyone interested in the philosophical theological or scientific study of religion **The Burden of Black Religion** Curtis J. Evans,2008-04-17 Religion has always been a focal element in the long and tortured history of American ideas about race In The Burden of Black Religion Curtis Evans traces ideas about African American religion from the antebellum period to the middle of the twentieth century Central to the story he argues was the deep rooted notion that blacks were somehow naturally religious At first this assumed natural impulse toward religion served as a signal trait of black people's humanity potentially their unique contribution to American culture Abolitionists seized on this point linking black religion to the black capacity for freedom Soon however these first halting steps toward a multiracial democracy were reversed As Americans began to value reason rationality and science over religious piety the idea of an innate black religiosity was used to justify preserving the inequalities of the status quo Later social scientists both black and white sought to reverse the damage caused by these racist ideas and in the process proved that blacks were in fact fully capable of incorporation into white American culture This important work reveals how interpretations of black religion played a crucial role in shaping broader views of African Americans and had real consequences in their lives In the process Evans offers an intellectual and cultural history of race in a crucial period of American history *Mobile Lifeworlds*

Christopher A. Howard, 2016-07-15 *Mobile Lifeworlds* illustrates how the imaginaries and ideals of Western travellers especially those of untouched nature and spiritual enlightenment are consistent with media representations of the Himalayan region romanticism and modernity at large Blending tourism and pilgrimage travel across Nepal Tibet Bhutan and Northern India is often inspired and oriented by a search for authenticity adventure and Otherness Such valued ideals are shown however to be contested by the very forces and configurations that enable global mobility The role ubiquitous media and mobile technologies now play in framing travel experiences are explored revealing a situation in which actors are neither here nor there but increasingly are inter placed across planetary landscapes Beyond institutionalised religious contexts and the visiting of sacred sites the author shows how a secular religiosity manifests in practical bodily encounters with foreign environments This book is unique in that it draws on a dynamic and innovative set of disciplinary and theoretical perspectives especially phenomenology the mobilities paradigm and philosophical anthropology The volume breaks fresh ground in pilgrimage tourism and travel studies by unfolding the complex relationships between the virtual imaginary and corporeal dynamics of contemporary mobile lifeworlds *The New Schaff-Herzog Encyclopedia of Religious Knowledge* ,1908
