The Religious and Historical Paintings of Jan Steen Baruch David Kirschenbaum, Jan Steen, 1977      Dutch Paintings in the Metropolitan Museum of Art Walter A. Liedtke, Metropolitan Museum of Art (New York, N.Y.), 2007 Presents a catalog that surveys the Dutch paintings found in the Metropolitan Museum of Art      **The Sides of the North** Tamar Choltman, Assaf Pinkus, 2015-09-18 The Sides of the North is dedicated to Yona Pinson's extensive scholarly work on Northern Renaissance art from Hieronymus Bosch's and Peter Breughel's oeuvre through lessons of morality the Fool's imagery gender problems in the representation of the femme fatale bourgeois seductress to emblem studies and up to her most recent project on Mirror Moralization and Irony in Bosch's painting In tribute to her research this volume offers new insights into her fields of interest from a number of leading scholars in these disciplines Larry Silver reconstructs a recently found Adoration of the Magi Triptych by Bosch while Mara R Wade Michael J Giordano and Kathryn M Rudy discuss aspects of self fashioning through portraiture emblem books and manuscripts and their spiritual and performative qualities Nurith Kenaan Kedar and Liad Rinot delve into problems of marginality in Gothic sculpture as well as in Robert Campain's and Jan van Eyck's paintings Ingrid Alexander Skipnes Ruth Strauss and Juliette Roding explore the topic of artistic identities and intentionalism and political ideologies in various media such as in small scale sculptures and paintings Just as Yona Pinson's research diversified from iconographical studies to post modern reflections on such issues as marginality and folly this anthology presents a broad spectrum not only of the diverse topics genres and media of Northern Renaissance art but also and particularly an overview of the methodological range of art scholarship of recent decades thus offering readers insights into the intricate sides of contemporary Netherlandish visual culture      Renaissance and Baroque Art Leo Steinberg, 2021-02 Leo Steinberg was one of the most original art historians of the twentieth century known for taking interpretive risks that challenged the profession by overturning reigning orthodoxies In essays and lectures ranging from old masters to contemporary art he combined scholarly erudition with an eloquent prose that illuminated his subject and a credo that privileged the visual evidence of the image over the literature written about it His writings sometimes provocative and controversial remain vital and influential reading Steinberg's perceptions evolved from long hard looking at his objects of study Almost everything he wrote included passages of formal analysis but always put into the service of interpretation This volume begins and ends with thematic essays on two fundamental precepts of Steinberg's art history how dependence on textual authority mutes the visual truths of images and why artists routinely copy or adapt earlier artworks In between are fourteen chapters on masterpieces of renaissance and baroque art with bold and enlightening interpretations of works by Mantegna Filippo Lippi Pontormo El Greco Caravaggio Steen and finally Velázquez Four chapters are devoted to some of Velázquez's best known paintings ending with the famously enigmatic Las Meninas Renaissance and Baroque Art is the third volume in a series that presents Steinberg's writings selected and edited by his longtime associate Sheila Schwartz

Calvinism and the Arts Christopher Richard Joby, 2007 It is often thought that the French Reformer John Calvin 1509-1564 had a negative attitude towards the arts particularly visual art However in Calvinism and the Arts A Re assessment Dr Joby argues that in Calvin's writings and in the development of the Reformed tradition more generally it is possible to discern a more positive attitude than has hitherto been recognized He makes a start by examining exactly what type of visual art Calvin rejected and what type he affirmed He goes on to consider how Calvin's epistemology and eschatology can be used to argue for the placing of certain types of art notably histories and landscape paintings within Reformed churches and then devotes separate chapters to reflecting on how music architecture and church decoration within the Reformed tradition provide further arguments for the use of these works of art In the final section he looks at specific histories and landscapes from the Dutch Golden Age and considers how the form and content of both of these types of art provide us with further ontological and epistemological arguments which inevitably lead to the conclusion that their continued exclusion from Reformed churches is no longer tenable

**Parody and Festivity in Early Modern Art** David R. Smith, 2017-07-05 Dwelling on the rich interconnections between parody and festivity in humanist thought and popular culture alike the essays in this volume delve into the nature and the meanings of festive laughter as it was conceived of in early modern art The concept of carnival supplies the main thread connecting these essays Bound as festivity often is to popular culture not all the topics fit the canons of high art and some of the art is distinctly low brow and occasionally ephemeral themes include grobianism and the grotesque scatology popular proverbs with ironic twists and a wide range of comic reversals some quite profound Many hinge on ideas of the world upside down Though the chapters most often deal with Northern Renaissance and Baroque art they spill over into other countries times and cultures while maintaining the carnivalesque air suggested by the book's title

**BOOK JACKET**

**Perilous Chastity** Laurinda S. Dixon, 2019-01-24 Bearing such titles as *The Doctor's Visit* or *The Lovesick Maiden* certain seventeenth century Dutch paintings are familiar to museum browsers an attractive young woman well dressed but pale and listless reclines in a chair languishes in bed or falls to the floor in a faint Weathered crones or impish boys leer suggestively in the background These paintings traditionally have been viewed as commentary on quack doctors or unmarried pregnant women The first book to examine images of women and illness in the light of medical history *Perilous Chastity* reveals a surprising new interpretation In an engaging analysis enhanced by abundant illustrations including eight pages of color plates Laurinda S Dixon shows how paintings reflect changing medical theories concerning women While she illuminates a tradition stretching from antiquity to the present she concentrates on art from the thirteenth through the eighteenth centuries and particularly on paintings from seventeenth century Leiden Dixon suggests how the assumptions of a predominantly male medical establishment have influenced prevailing notions of women's social place She traces the evolution of the belief that women's illnesses were caused by hysteria so named in ancient Greece after the notion that the uterus had a tendency to wander in the body All women were considered prone to hysteria strong emotions idleness intellectual activity or unladylike pursuits could cause it but it was most commonly diagnosed among celibates Analyzing paintings of women's sickrooms by Jan Steen Dirck Hals Gabriel Metsu Jacob Ochtervelt Godfried Schalcken Samuel van Hoogstraten and Franz van Mieris Dixon perceives metaphoric identifications of the womb as the source of illness She also documents changing fashions in cures for hysteria and discusses allusions to the debilitating effects of women's passions not only in paintings but also in madrigals by John Dowland and Henry Purcell In conclusion Dixon argues that her study has strong ramifications of attitudes towards women and illness today She takes up images in twentieth century culture as well and calls attention to a resurgence of female hysteria after World War II

Janson, 1986 **Refiguring the Real** Christopher Braider, 2015-03-08 In a major analysis of pictorial forms

from the late Middle Ages to the Enlightenment Christopher Braider argues that the painted image provides a metaphor and model for all other modes of expression in Western culture particularly literature philosophy religion and science Because critics have conventionally explained visual images in terms of verbal texts Scripture heroic poetry and myth they have undervalued the impact of the pictorial naturalism practiced by painters from the fifteenth century onward and the fundamentally new conception of reality it conveys By reinterpreting modern Western experience in light of northern descriptive art the author enriches our understanding of how both painted and written cultural texts shape our perceptions of the world at large Throughout Braider draws on works by such painters as van der Weyden Bruegel the Elder Steen Vermeer Rembrandt and Poussin and addresses such topics as the Incarnation of the Word in Christ the elegiac foundations of Enlightenment aesthetics and the rivalry between northern and southern art His goal is not only to reexamine important aesthetic issues but also to offer a new perspective on the general intellectual and cultural history of the modern West Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
