Obedience, Suspicion and the Gospel of Mark Lydia Neufeld Harder, 2006-01-01 How do our social political and religious commitments influence our interpretation of biblical texts Are obedience and suspicion necessarily opposite ways to respond to the authority of the Bible Can one criticize and be transformed at the same time Lydia Neufeld Harder explores these questions from the vantage point of a scholar a feminist and a member of a faith community A hermeneutics of obedience rising out of the Mennonite theological tradition and a hermeneutics of suspicion advocated by many feminist theologians seem to represent opposite approaches to the Bible's authority The resulting polarization could easily have led to static definitions of authority and the subtle domination of those who differ from the majority However by focusing on the common theological concept of discipleship Harder has constructed a critical dialogue beginning a process of creative change in her own view of authority This new view opens the way for an interpretation of the Gospel of Mark A new appreciation of both the power and the vulnerability of the biblical text leads to a view of authority that embraces both suspicion and obedience in a dynamic interpretative process

Judaism, Education and Social Justice Matt Plen, 2022-10-20 This book sets out new theoretical foundations for Jewish social justice education by surveying and discussing Freirean critical pedagogy Catholic models of social justice education Jewish social justice literature and interviews with educators and activists Jewish social justice education is an active and growing field encompassing a diverse range of issues including the treatment of refugees environmental justice human rights peace and justice in Israel Palestine gender equality and LGBT inclusion Yet Jewish social justice education remains an under researched and under theorized

phenomenon This lacuna has practical implications for the thousands of educators and activists across the world who are attempting to achieve social justice ends through the medium of Jewish education In discussing the key philosophical political and educational issues that emerge when discussing these topics the author draws on thinkers including Hannah Arendt Martin Buber Alasdair MacIntyre and Jonathan Sacks Matt Plen proposes three possible directions for a normative theory of Jewish social justice education Jewish politics in a renewed public sphere Jewish education for relational community building and Jewish critical pedagogy for cultural emancipation

Questioning Our Faith in Practice Katherine Turpin, 2024-10-07 Practical theology emerged as a discipline steeped in white supremacy traces of which can be found in some of its most central practices and habits of mind Identifying the remnants of this legacy allows practical theologians to begin to imagine how to proceed without reinscribing narratives of white saviors unlimited progress dominating control of bodies and individual heroic leadership You are invited to question this worldview while learning from scholars imagining a decolonized future

Reaping the Whirlwind John R. Pottenger, 2007-07-05 As early as the sixteenth century the liberal democratic state has been forced to confront the question of religion in politics The result has been a tense and uncomfortable balancing act Today in the public

square of liberal democracy a number of religious confessions and beliefs compete for attention In the American experience some sense of religious pluralism and relative social harmony has been maintained However for this relationship to prevail a tension must continue to exist one that balances the political and social pursuits of self interest with meeting the objectives of the common good In *Reaping the Whirlwind* John R Pottenger shows how this process began in the modern world and how societies attempt to manage this ongoing conflict The first part of the book lays the groundwork of his analysis by using examples from history to demonstrate the genesis of political and religious whirlwinds It goes on to explore contemporary case studies such as conflicts between Mormons and Evangelicals in the United States liberation theology in Latin America Islam and the state in Uzbekistan and radical Christian reconstructionism Pottenger believes that the formal institutions of liberal democracy should maintain this turbulence even as religious activism threatens to upset the balance He concludes by advocating religious liberty and recognizing the individual and social need for expression At the same time he maintains that the survival of liberal democracy requires that these religious traditions not dominate the public sphere
