

# Greek Philosophy as a Religious Quest for the Divine<sup>1</sup>

*James Bernard Murphy*

**ABSTRACT** Philosophy has always been parasitic on other bodies of knowledge, especially religious thought. Greek philosophy in Italy emerged as a purification of Orphic religious traditions. Orphic votaries adopted various disciplines in the attempt to become divine, which led Pythagoras and Empedocles to define philosophy as a path to divinity. According to Plato and Aristotle, the goal of philosophy is to become “as much like a god as is humanly possible.” Classical Greek philosophy is not the study of the divine but the project of becoming divine, a project which it shares with Christianity. Greek philosophy and Christianity have different paths to the divine, but they share a common aspiration.

**KEYWORDS** deification; origins of Greek philosophy; philosophy as theology; metaphilosophy

# Religious Quest

**Randee Ijatuyi-Morphé**

## Religious Quest:

Africa's Social and Religious Quest Randee Ijatuyi-Morphé, 2014-01-30 This well crafted book probes the key dimensions of Africa's existential predicament. It constitutes an intellectual response to a gnawing African situation, the starting point for grasping Africa's social and religious quest. Beyond split explanations of external versus internal factors (e.g. colonization, slavery vs. leadership, cultural values), this study accounts more comprehensively for emergent issues shaping this situation. The situation reflects a gamut of problems in traditional African religion and material culture which hitherto defines African communality, politics and destinies vis-à-vis the cosmos and nature. Thus African religion and communities, each with its own attendant values, do not operate by critical engagement with larger issues of society and civilization, especially those shaped by the advent of post-modernity. Rather, they operate via adaptation. The communal drive for natural and social harmony inevitably produces a preservationist view of culture, leaving things as they are. This study takes an integrative approach to religion, society and civilization, eschewing dichotomies and broadly defines and re-signifies life and wholeness as a true end of Africans' quest today.

*The Religious Quest* Whitfield Foy, 1988      **John Wesley's Religious Quest** Thomas Reed Jeffery, 1960      **Is the Quest for Meaning the Quest for God?** Wessel Stoker, 1993      **Man's Religious Quest** Whitfield Foy, 1977      **The Sacred Quest**, 1991      *The Religious Quests of the Graeco-Roman World* Samuel Angus, 1929      *Is the Quest for Meaning the Quest for God?* W. Stoker, 1996

Traditionally, religion was the supplier of meaning. It is often said that the quest for meaning is at bottom a quest for God, a quest that can only find an adequate answer in religion. But then what is the alternative for those who reject religion? Emptiness and meaninglessness, as Nietzsche succinctly formulated it. We have killed God. Are we not straying as through an infinite nothing? In the meantime, non-believers have found a solution for the crisis in meaning. People are not usually nihilists; but live their lives and consider them to be meaningful without religion. This study is concerned with determining once again the place of the ascription of meaning from the perspective of the Christian faith in its relation to the non-religious ascription of meaning. For this purpose, an analysis is given of contemporary theological and philosophical views of the problem of meaning. The crisis of meaning as it has arisen in Nietzsche and the theatre of the absurd is examined. Stoker also discusses contemporary forms of the ascription of meaning without religion, such as self-actualization and functional rationality as sources of meaning. Stoker rejects an apologetics of need. He posits that the Christian faith does not have an exclusive right to the ascription of meaning, but this obtains also for secular forms of the ascription of meaning, such as humanism. Is God then the ultimate concern of each person? From the perspective of the Christian faith, yes; but this does not mean that the non-religious ascription of meaning as such must be viewed negatively. Stoker illustrates how the religious and the non-religious ascriptions of meaning are similar and how they differ. Both are intended to be the source of meaning for human questions of life and death. With respect to their differences, the author demonstrates that the ascription of meaning from the perspective of the Christian faith does not entail a disqualification of a

non religious worldview but is intended to make people more human      *The Gospel of John and the Religious Quest*  
 Johannes Nissen,2013-09-24 The Gospel of John and the Religious Quest argues that at its origin the Fourth Gospel was part of a dialogue with various religious traditions and that to this day it is being used in active dialogue with those who live in traditions other than the Christian In the first part of the book Johannes Nissen analyzes a number of texts selected both for their central importance to John s theology and for their special relevance in today s religious quests and encounters These texts focus on John s images of Life water bread light way and tree but also treat concepts that are crucial to the Fourth Gospel Word Truth and Love In the second part Nissen focuses on significant issues for current readers of the Gospel the relation between incarnation and inculturation models for dialogue with other religions images of Christ truth and love as criteria for dialogue and the experience of faith in the light of the Fourth Gospel      **Handbook of Religion and Health**

**Routledge Revivals: Paul Tillich (1973)** Alistair M. Macleod, 2017-09-29 First published in 1973 this is the first book on Paul Tillich in which a sustained attempt is made to sort out and evaluate the questions to which Tillich addresses himself in the crucial philosophical parts of his theological system It is argued that despite the apparent simplicity in his interest in the question of being Tillich in fact

conceives of the ontological enterprise in a number of radically different ways in different contexts Much of Professor Macleod s work is devoted to the careful separation of these strands in his philosophical thought and to an exploration and assessment of the assumptions associated with them This book will be of interest to readers of Tillich and philosophers who specialise in ontology and linguistics      The God/Man/World Triangle R.
