**From Pews to Politics** Gwyneth H. McClendon, Rachel Beatty Riedl, 2019-11-14 Does religion influence political participation This book takes up this pressing debate using Christianity in sub Saharan Africa as its empirical base to demonstrate that religious teachings communicated in sermons can influence both the degree and the form of citizens political participation McClendon and Riedl document some of the current diversity of sermon content in contemporary Christian houses of worship and then use a combination of laboratory experiments observational survey data focus groups and case comparisons in Zambia Uganda and Kenya to interrogate the impact of sermon exposure on political participation and the longevity of that impact Pews to Politics in Africa leverages the pluralism of sermons in sub Saharan Africa to gain insight into the content of cultural influences and their consequences for how ordinary citizens participate in politics

**Enlightenment, Ecumenism, Evangel** Alan P.F. Sell, 2007-09-01 What is the Gospel and how is it to be commended This question encapsulates the running theme of this collection of papers In five essays Professor Sell discusses some Puritans Cambridge Platonists Quakers and critics of deism and pantheism who sought to articulate the Gospel in the intellectual environment in which they had been set Their underlying concerns are of continuing relevance in current ecumenical discussion as are questions of doctrinal change and development the subjects of two further papers A paper on spirituality echoes some of the concerns of the Separatists Platonists and Quakers but views them in relation to the widespread interest in the topic at the present time Two papers concern the ways in which the Gospel is shared in ecumenical circles with special reference to the Holy Spirit ecclesiology and the Reformed contribution to interconfessional discussion A bibliographical survey of Reformed theology in twentieth century Britain shows the range of interest within one

ecclesiastical tradition while such wider issues as contextual theology inclusivism and the peril of sectarianism are discussed in a further paper The book concludes with an attempt to answer the question what is involved in proclaiming the Gospel of reconciliation today      *Academic Identities—Academic Challenges? American and European Experience of the Transformation of Higher Education and Research* Tor Halvorsen, Atle Nyhagen, 2011-10-18 The university in Europe as a central institution of society is presently met with many new expectations challenging established practices and self understandings of academics across Europe In the European Union the higher education and research system has become a foremost tool of change Current reforms across national higher education systems are seen as a potential for creating a European Higher Education Area as well as an opportunity to introduce EU policies and ideas addressing how reforms can contribute to promote this as an EU dimension An argument that only reforms of the higher education institution in particular the research university as a European institution can make Europe regain its competitive force and economic growth potential has gained currency in the last decade with reference to the US The university system of the US particularly its highly regarded elite universities is also held forth as a model for the developments in the EU and thus for the reforms of the different countries of EU In this book however it is demonstrated that much of the political rhetoric about the construction of the future knowledge economy of Europe and the promotion of a European Higher Education Area may contradict basic values that give Europe its identity as a cultural region Promoting the US university as an ideal model does not do justice to the kind of problems the US is facing in their own reform efforts nor does it reflect properly the social costs of copying such an elite system The book raises a number of issues relating to elitism and democracy internationalisation and regionalisation and new forms of governance in higher education and research which current EU policies seem to neglect

**Organization Theory and the Public Sector** Tom Christensen, Per Lægreid, Kjell Arne Røvik, 2007-10-30 Public sector organizations are fundamentally different to their private sector counterparts They are multi functional follow a political leadership and the majority do not operate in an external market In an era of rapid reform reorganization and modernization of the public sector this book offers a timely and illuminating introduction to the public sector organization that recognizes its unique values interests knowledge and power base Drawing on both instrumental and institutional perspectives within organization theory as well as democratic theory and empirical studies of decision making this text addresses five central aspects of the public sector organization goals and values leadership and steering reform and change effects and implications understanding and design This volume challenges conventional economic analysis of the public sector arguing instead for a democratic political approach and a new prescriptive organization theory A rich resource of both theory and practice *Organization Theory for the Public Sector Instrument Culture and Myth* is essential reading for anybody studying the public sector      Rewards for High Public Office in Europe and North America Marleen Brans, B. Guy Peters, 2012-05-23 Anyone observing the recent scandals in the United Kingdom could not fail to understand the political importance of the rewards of

high public office The British experience has been extreme but by no means unique and many countries have experienced political over the pay and perquisites of public officials This book addresses an important element of public governance and does so in longitudinal and comparative manner The approach enables the contributors to make a number of key statements not only about the development of political systems but also about the differences among those systems It provides a unique and systematic investigation of both formal and informal rewards for working in high level positions in the public sector and seeks to determine the impacts of the choices of reward structures Covering 14 countries and drawing on a wide range of data sources this work will be of great interest to students and scholars of comparative public administration international politics and government

Calvin and the Early Reformation Brian C. Brewer, David M. Whitford, 2019-12-09 Those who have a passing knowledge of John Calvin's theology and reforms in Geneva in the sixteenth century may picture the confident and mature theologian and preacher without appreciating the various events, people and circumstances that shaped the man Before there was Protestantism's first and eminent systematic theologian there was the French youth, the law student and humanist, the Protestant convert and homeless exile, the reluctant reformer and anguished city leader Snapshots of the young Calvin create a collage that give a bigger picture to the grey bearded Protestant reformer Eleven scholars of early modern history have joined in this volume to depict the people, movements, politics, education, sympathizers, nemeses and controversies from which Calvin emerged in his young adulthood

*Norway in Transition* Oyvind Osterud, 2013-10-18 The transformation of Norway is a magnifying glass to processes of political change in European countries generally In this book a group of Norway's most prominent political scientists closely analyzes the forces of change ranging from the political apparatus, the mode of partisan mobilization and the development of political trust to the new gender relations and the strains on the established elite consensus This volume shows how Norway is an embodiment of the Nordic Model Norwegian society and politics have attracted wide spread interest for three interrelated reasons a strikingly egalitarian and cooperative model for public private relations a stable and rich country on the outside of the European Union and a notable engagement in moral policy areas globally Now the model is in flux for domestic as well as external reasons Rule by popular consent is in question with a more fragile chain of governance and a slow erosion of mass parties The model is transformed from below through the changing democratic infrastructure as well as from above with privatization and market reform in the public sector The focus is Norway but the book is a comparative analysis of a paradigm case with relevance far beyond its own borders This book was previously published as a special issue of the leading journal *West European Politics*

**Pay for Play** Ronald A. Smith, 2011 In an era when college football coaches frequently command higher salaries than university presidents many call for reform to restore the balance between amateur athletics and the educational mission of schools This book traces attempts at college athletics reform from 1855 through the early twenty first century while analyzing the different roles played by students, faculty, conferences, university presidents, the NCAA legislatures and the Supreme Court Pay for Play

A History of Big Time College Athletic Reform also tackles critically important questions about eligibility compensation recruiting sponsorship and rules enforcement Discussing reasons for reform to combat corruption to level the playing field and to make sports more accessible to minorities and women Ronald A Smith candidly explains why attempts at change have often failed Of interest to historians athletic reformers college administrators NCAA officials and sports journalists this thoughtful book considers the difficulty in balancing the principles of amateurism with the need to draw income from sporting events **The National Review** ,1883 **How We Changed Toronto** John Sewell,2015-09-21 By the mid 1960s Toronto was well on its way to becoming Canada s largest and most powerful city One real estate firm aptly labelled it Boomtown Expressways subways shopping centres high rise apartments and skyscraping downtown office towers were transforming the city City officials were cheerleaders for unrestricted growth All this progress had a price Heritage buildings were disappearing Whole neighbourhoods were being destroyed by city hall itself in the name of urban renewal and high rise developers Many idealistic young Torontonians didn t like what they saw At a time when political activism was in the air they engaged in local politics Recently graduated lawyer John Sewell was one of many He joined his friends working for local residents in areas targeted for demolition by city hall Others were fighting the Spadina expressway planned to push its way through the city to the lakeshore Still others were saving Toronto s Old City Hall from demolition This was the modest start of a twelve year transformation of Toronto chronicled in John Sewell s new book Bringing together a fascinating cast of characters from cigar chomping developers to Jane Jacobs and David Crombie from a host of ordinary citizens to some of the world s most innovative architects and planners Sewell describes the conflict filled period when Toronto developed a whole new approach to city government civic engagement and planning policies Sewell went from activist organizer to high profile opposition politician to leading light of a bare reform majority at city hall to become Toronto s mayor Along the way he sparked the rethinking of an amazing array of old ideas not just about how cities should grow but about race relations attitudes toward the LGBT community and the role of police His defeat in the city s 1980 election marked the end of a decade of dramatic transformation but the changes this reform era produced are now entrenched in Toronto but in other Canadian cities too How We Changed Toronto is the inside story of activist idealists who set out to change the world and did right in their own backyard *National and English Review* ,1883 *Controversy and Conciliation* Derk Visser,1986-01-01 Pittsburgh Theological Monograph New Series General Editor Dikran Y Hadidian [The Reformation as Renewal](#) Matthew Barrett,2023-06-06 A holistic eye opening history of one of the most significant turning points in Christianity The Reformation as Renewal demonstrates that the Reformation was at its core a renewal of evangelical catholicity In the sixteenth century Rome charged the Reformers with novelty as if they were heretics departing from the catholic universal church But the Reformers believed they were more catholic than Rome Distinguishing themselves from Radicals the Reformers were convinced they were retrieving the faith of the church fathers and the best of the medieval Scholastics The

Reformers saw themselves as faithful stewards of the one holy catholic and apostolic church preserved across history and they insisted on a restoration of true worship in their own day By listening to the Reformers own voices The Reformation as Renewal helps readers explore The Reformation s roots in patristic and medieval thought and its response to late medieval innovations Key philosophical and theological differences between Scholasticism in the High Middle Ages and deviations in the Late Middle Ages The many ways sixteenth and seventeenth century Protestant Scholastics critically appropriated Thomas Aquinas The Reformation s response to the charge of novelty by an appeal to the Augustinian tradition Common caricatures that charge the Reformation with schism or assume the Reformation was the gateway to secularism The spread of Reformation catholicity across Europe as seen in first and second generation leaders from Luther and Melanchthon in Wittenberg to Zwingli and Bullinger in Zurich to Bucer and Calvin in Strasbourg and Geneva to Tyndale Cranmer and Jewel in England and many others The theology of the Reformers with special attention on their writings defending the catholicity of the Reformation This balanced insightful and accessible treatment of the Reformation will help readers see this watershed moment in the history of Christianity with fresh eyes and appreciate the unity they have with the church across time Readers will discover that the Reformation was not a new invention but the renewal of something very old
