Monsoon Rainbow Jayashree Thatte Bhat,2014-08-11 Immigrants to Canada bring with them their own culture and traditions which instill infinite patience and devotion However their artificial demands produce responses of unimaginable magnitude in various situations From an award winning writer these stories depict a stunning portrait of real people represented by various characters take place in Canada and shed light on real life experiences We share in the pain of an arranged marriage we feel the agony of the exploitation and degradation of an outwardly assertive woman at the hands of her sadistic husband we are humbled by the steadfast care of a highly educated woman who faithfully and lovingly tends to her mentally unstable and insecure husband Although about immigrants from India and the characters displaying an impact of only Indian traditions these stories can be projected to represent experiences of most Canadian immigrants for this commonality has no boundaries of any place time religion color creed or race It inevitably draws upon shared human experiences of love hate work worries and dreams and thus to the predicaments of entire mankind **Rainbow Valley** L. Neo-sectarianism and Rainbow Coalitions Abby Peterson,2018-12-20 First published in 1997 this book examines the issue of racist and antiracist movements which are increasingly taking the stage in contemporary European societies in the face of a rapidly changing cultural landscape The drama of immigration has been enacted by these movements with heightened intensity since the 1908s and in particular the struggle is engaging the youth of Europe In this book the author discusses the two sides of the antiracist movement in Sweden on the one hand the explosive sociality of the confrontation a phenomenon she designates as neo sectarianism and on the other hand the ephemeral sociality of rainbow coalitions of non confrontation In focus is the participation of young people in the antiracist movement It is an attempt by young people to not merely respond to perceived social changes and problems within society but to actively participate in and shape society

The Invisible Rainbow Arthur Firstenberg, 2020-03-09 5g is being rolled out across the country despite growing evidence that it is disruptive to our health our safety and the environment The Invisible Rainbow is the groundbreaking story of electricity as it s never been told before exposing its very real impact on the biosphere and human health 100 000 copies sold Over the last 220 years society has evolved a universal belief that electricity is safe for humanity and the planet Scientist and journalist Arthur Firstenberg disrupts this conviction by telling the story of electricity in a way it has never been told before from an environmental point of view by detailing the effects that this fundamental societal building block has had on our health and our planet In The Invisible Rainbow Firstenberg traces the history of electricity from the early eighteenth century to the present making a compelling case that many environmental problems as well as the major diseases of industrialized civilization heart disease diabetes and cancer are related to electrical pollution Few individuals today are able to grasp the entirety of a scientific subject and present it in a highly engaging manner Firstenberg has done just that with one of the most pressing but neglected problems of our technological age BRADLEY JOHNSON MD Amen Clinic San Francisco A masterpiece Celia Farber investigative journalist This seminal book will transform your understanding of the environmental and health effects of electricity and radio frequencies Paradigm Explorer *The End of the Rainbow* Elle Fran Williams, 2024-06-21 Joe a disciplined and compassionate paramedic with a military background had always followed orders He witnessed the trials and horrors of civilian life daily sometimes watching people die before his eyes or experiencing the miracle of bringing someone back from the brink of death However nothing could have prepared him for the carnage that would ensue when he was forced to turn his attention to the deadly world of 21st century politics Joe had survived life on the front lines as a soldier and understood that people were rarely entirely good or bad He realized that personal biases and prejudices often colored one s perspective Content to go with the flow and live a quiet life everything changed when he met the love of his life Emma Lomax Her vibrant spirit and sense of purpose compelled him to become more involved and question the decisions made by those in power that so adversely affected the lives of ordinary people In turbulent times with London on the brink of a dictatorship Joe found himself caught in the middle of a political upheaval As people died he took on the roles of victim chronicler and detective trying to unravel whether the violence was orchestrated by someone in a position of power who saw him as a threat or the work of a madman on a vendetta mission Thrust into the heart of a deadly political game Joe must navigate a treacherous landscape where the line between sanity and lunacy is increasingly blurred Flight of The Rainbow Flame Stephen Komlosy, 2023-03-31 Septuagenarian Sebastian Manheim finds a spaceship in his garden which has been buried where it crashed for 3000 years The aliens are dead but the computers are not Seb develops a close relationship with one of them the wisecracking Sobek who is a pillar of light about four feet high Seb agrees to be enhanced physically back to 25yrs and mentally to the highest human and some alien IQ by Sobek s technology Seb agrees to physically repair the spaceship but until this is done Sobek afraid of human discovery wants to keep his presence on Earth a secret Sobek s life

force is running out and they need to get back to their planet for supplies In exchange for Sobek allowing the commercial exploitation of his technology Seb agrees to get Sobek back into space Sobek gives Seb technology which Seb makes into innovative products and weapons This is so successful that they bring new billionaire Seb to the attention of the MI5 and the Prime Minister who wants all this new technology for the Nation s Economy Seb builds a mini spaceship to test the repairs but the RAF think they have seen a UFO which they try to shoot down Seb gets wounded and there are many attempts on Seb s life the kidnap of Seb s beautiful wife Marie and the assassination of one of Seb s sons all of which is avenged It is a race against time to get the spaceship away into space before the source of the technology is exposed **The Dragon and the Rainbow** Robert Blust,2023-08-21 Modernization and conversion to world religions are threatening the survival of traditional belief systems leaving behind only mysterious traces of their existence This book based upon extensive research conducted over a period of nearly four decades brings scientific rigor to one of the questions that have always attracted human curiosity that of the origin of the dragon The author demonstrates that both dragons and rainbows are cultural universals that many of the traits that are attributed to dragons in widely separated parts of the planet are also attributed to rainbows and that the number and antiquity of such shared traits cannot be attributed to chance or common inheritance but rather to common cognitive pathways by which human psychology has responded to the natural environment in a wide array of cultures around the world *The Kingdom of the Rainbow* Robert Luck,2002 Traveling the Rainbow Derrel B.
