Remains Of Elmet A Pennine Sequence:

Remains of Elmet Ted Hughes, Fay Godwin, 1979 **Remains of Elmet** Ted Hughes, 1981 *Remains of Elmet* Ted Hughes, 2011-09-15 The Calder valley west of Halifax was the last ditch of Elmet the last British Celtic kingdom to fall to the Angles For centuries it was considered a more or less uninhabitable wilderness a notorious refuge for criminals a hide out for refugees Then in the early 1800s it became the cradle for the Industrial Revolution in textiles and the upper Calder became the hardest worked river in England Throughout my lifetime since 1930 I have watched the mills of the region and their attendant chapels die Within the last fifteen years the end has come They are now virtually dead and the population of the valley and the hillsides so rooted for so long is changing rapidly Ted Hughes Preface to *Remains of Elmet* 1979 Ted Hughes s remarkable pennine sequence celebrates the area where he spent his early childhood It mixes social political religious and historical matter a tapestry rich in the personal and poetic investment of a landscape that both creates and is inured to its people whose moors Are a stage for the performance of heaven Any audience is incidental *Remains of Elmet* is one of Hughes s most personal and enduring achievements British Literature in Transition, 1980-2000 Eileen Pollard, Berthold Schoene-Harwood, 2019 This volume shows how British literature recorded contemporaneous historical change It traces the emergence and evolution of literary trends from 1980 2000 Collected Poems Ted Hughes, 2005-07-13 All the poems of a great 20th century poet **Bronte's Wuthering Heights** Ian Brinton, 2011-03-17 A concise but comprehensive student guide to studying Emily Bronte s classic novel *Wuthering Heights* It covers adaptations such as film and TV versions of the novel and student friendly features include discussion points and a comprehensive guide to further reading *Shamanic Elements in the Poetry of Ted Hughes* Ewa Panecka, 2018-04-18 This study on religious experience in modern poetry features innovatory and accessible close readings of some of the most beloved authors of English verse In today s seemingly secular age religion still remains a highly contested subject The selection of texts analysed here is representative of a wide spectrum of attitudes including a sharply critical refusal to acknowledge Christianity as the basis of civilization Some poets see national religion as a framework for cultural identity while others worship nature as the omnipotent Force of Life trying to create their own gods Rather than reducing poetry to a background for philosophical analysis or theological deliberation this book presents diverse modes of the poetic endeavor to capture and convey the divine The chapters provide a range of perspectives on individual experience rendered into poetry as a subtle relationship between faith perception and language The text will be of interest to anyone looking for new ways of reading poetry as a spiritual quest Presenting and Representing Environments Graham Humphrys, Michael Williams, 2006-01-27 The presentation and representation of the environment occurs throughout academia and across all news media The strict protocols of science often clash with environmental information available from sources that dwell on subjective aesthetic emotional and personal sensitivities This book challenge the reader as student teacher researcher or policy maker to reflect critically on the ways that environments

are studied interpreted presented and represented in education and public policy *Moorlands of England and Wales* Ian G Simmons,2019-08-07 The huge expanse of the moor The millennia of the hunter gatherers The millennia of an agriculturalist economy Into an industrial economy Vegetation management and nature conservation More detailed histories

Representations from the imaginations Too far for you to see **No Dialect Please, You're a Poet** Claire H lie,Elise Brault-Dreux,Emilie Loriaux,2019-07-23 No Dialect Please You re a Poet is situated at the crossroads in research areas of literature and linguistics This collection of essays brings to the forefront the many ways in which dialect is present in poetry and how it is realized in both written texts and oral performances In examining works from a wide range of poets and poetries from acclaimed poets to emerging ones this book offers a comprehensive introduction to poetics of dialects from a variety of regions across two centuries of English poetry **Ted Hughes** Susan Bassnett,2009 This study explores Hughes lifelong concern for language and his use of mythology and history while examining his poetic achievements together with his writing for children and his experiments with forms of theatre **Ted Hughes, Class and Violence** Paul

Bentley,2014-04-24 Ted Hughes is widely regarded as a major figure in twentieth century poetry but the impact of Hughes s class background on his work has received little attention This is the first full length study to take the measure of the importance of class in Hughes It presents a radically new version of Hughes that challenges the image of Hughes as primarily a nature poet as well as the image of the Tory Laureate The controversy over natural violence in Hughes s early poems Hughes s relationship with Seamus Heaney the Laureateship and Hughes s revisiting of his relationship with Sylvia Plath in Birthday Letters 1998 are reconsidered in terms of Hughes s class background Drawing on the thinking of cultural theorists such as Slavoj i ek Terry Eagleton and Julia Kristeva the book presents new political readings of familiar Hughes poems alongside consideration of posthumously collected poems and letters to reveal a surprising picture of a profoundly class conscious poet **Poetic Compounds** Jean Boase-Beier,2010-10-06 Over the past few decades the book series

Linguistische Arbeiten Linguistic Studies comprising over 500 volumes has made a significant contribution to the development of linguistic theory both in Germany and internationally The series will continue to deliver new impulses for research and maintain the central insight of linguistics that progress can only be made in acquiring new knowledge about human languages both synchronically and diachronically by closely combining empirical and theoretical analyses To this end we invite submission of high quality linguistic studies from all the central areas of general linguistics and the linguistics of individual languages which address topical questions discuss new data and advance the development of linguistic theory

[The Great War in Post-Memory Literature and Film](#) Martin L schnigg,Marzena Sokolowska-Paryz,2014-10-14 The twenty seven original contributions to this volume investigate the ways in which the First World War has been commemorated and represented internationally in prose fiction drama film docudrama and comics from the 1960s until the present The volume thus provides a comprehensive survey of the cultural memory of the war as reflected in various media across national

cultures addressing the complex connections between the cultural post memory of the war and its mediation In four sections the essays investigate 1 the cultural legacy of the Great War including its mythology and iconography 2 the implications of different forms and media for representing the war 3 national memories foregrounding the differences in post memory representations and interpretations of the Great War and 4 representations of the Great War within larger temporal or spatial frameworks focusing specifically on the ideological dimensions of its remembrance in historical socio political gender oriented and post colonial contexts

Ted Hughes and Trauma Danny O'Connor, 2016-08-31 This book is a radical re appraisal of the poetry of Ted Hughes placing him in the context of continental theorists such as Jacques Lacan Jacques Derrida and Slavoj Žižek to address the traumas of his work As an undergraduate Hughes was visited in his sleep by a burnt fox man who left a bloody handprint on his essay warning him of the dangers of literary criticism Hereafter criticism became burning the foxes This book offers a defence of literary criticism drawing Hughes poetry and prose into the network of theoretical work he dismissed as the tyrant s whisper by demonstrating a shared concern with trauma Covering a wide range of Hughes work it explores the various traumas that define his writing Whether it is comparing his idea of man as split from nature with that of Jacques Lacan considering his challenging relationship with language in light of Roland Barthes and Jacques Derrida seeing him in the art gallery and at the movies with Gilles Deleuze or considering his troubled relationship with femininity in regard to Teresa Brennan and Slavoj Žižek *Burning the Foxes* offers a fresh look at a familiar poet
