**Caecilius (Classic Reprint)** E. H. Warmington, 2017-10-20 Excerpt from *Remains of Old Latin* Vol 1 of 3 Ennius and Caecilius In a good many places the Greek model or source of an old Latin argument is known or deduced in such cases the Greek original has been quoted or referred to at the beginning of the relevant item on the Latin page but not translated Again in some cases the source which quotes a substantial fragment shows how the old Latin poet not only drew upon some older Greek source but also inspired some later Latin poet thus we have fragments of Ennius which imitated Homer and were imitated by Virgil In such cases the passages from the original Greek author from the old Latin poet and from the later Latin poet have been given in full both in text and in translation About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      *Remains of old Latin : in*

**Remains of Old Latin** , 1967      **The Latin Dialect of the Ager Faliscus** Gabriël C. L. M. Bakkum, 2009 Annotation

Although the Ager Faliscus lay between the areas where Etruscan Latin and Sabellic languages were spoken the inscriptions from the area from before c 150 bce show that it used a speech of its own known as Faliscan Most scholars agree that Faliscan is linguistically very close to Latin but the hypothesis that it is in fact a Latin dialect has not been the subject of a major publication until now In this work the linguistic data on Faliscan provided by the inscriptions are analyzed and compared to the languages of the surrounding areas Sociolinguistic aspects such as language contact and local identity are discussed as well The main conclusion is that Faliscan can indeed be regarded as a dialect of Latin The work includes a re edition of all inscriptions in many cases based on autopsy This title can be previewed in Google Books <http://books.google.com>
