Remaking The Chinese State Strategies Society And Security:

Remaking the Chinese State Chao Chien-min, Bruce Dickson, 2003-09-02 After more than twenty years of economic and political reform China is a vastly different country to that left by Mao Almost all the characteristic policies and practices of the Maoist era have been abandoned with the goals of revolution in foreign and domestic policy being replaced by an emphasis on economic modernization accompanied by radical social transformation and an increasingly significant international role Yet despite these dramatic changes other fundamental features of China's policy remain unchanged This book explores the strategies of reform in China and their implications for its domestic and foreign policies It challenges the misconceptions that no political reforms are taking place and that China is eagerly embracing capitalism It also challenges the view that China does not abide by international norms and practices on military and security matters Its contributors all highly respected scholars avoid simple generalisations about the nature of China's politics or future path instead offering comparisons and contrasts between policy areas and regions to create a more complete picture of this complex country

book finds that the Chinese communist party is undergoing profound changes in a host of important areas By analyzing the impact of China's socioeconomic transformation on the CCP and the adaptations of the Party to the new environment the book takes stock of the nature and dynamics of political change underway in China The author concludes that the Chinese communist party we knew no longer exists it is evolving into something quite different which must have political implications for both China and the rest of the world Professor Lance L P Gore is a political scientist specializing in contemporary Chinese politics at The East Asian Institute National University of Singapore Korean Society Charles Armstrong, Charles K Armstrong, 2006-11-22 Conceptually innovative up to date and timely the new edition of this successful text examines Korea as one of the most dramatic cases in the world of ordinary citizens participating in the transformation of politics **Chinese Cyberspaces** Jens Damm, Simona Thomas, 2006-02-08 The internet is developing more extensively in China than any other country in the world Chinese Cyberspaces provides multidisciplinary perspectives on recent developments and the consequences of internet expansion in China Including first hand research and case studies the contributors examine the social political cultural and economic impact of the internet in China The book investigates the political implications of China's internet development as well as the effect on China's information policy and overall political stability The contributors show how although the digital divide has developed along typical lines of gender urban versus rural and income it has also been greatly influenced by the Communist Party's attempts to exert efficient control This topical and interesting text gives a compelling overview of the current situation regarding the Chinese internet development in China while clearly signalling potential future trends Chinese Women - Living and Working Anne McLaren, 2005-08-05 This book presents significant new findings on new domains of employment for women in China's burgeoning market economy of the 1990s and the twenty first century Experts in gender politics media studies and anthropology discuss the impact of economic reform and globalization on Chinese women in family businesses management the professions the prostitution industry and domestic service Significant themes include changing marriage and consumer aspirations and the reinvention of domestic space The volume offers fresh insights into changing definitions of women's work in contemporary China and questions women's perceived disadvantage in the market economy Re-writing Culture in Taiwan , Japanese Diasporas Nobuko Adachi, 2006-10-03 Japanese Diasporas examines the relationship of overseas Japanese and their descendents Nikkei with their home and host nations focusing on the political social and economic struggles of Nikkei Frequently abandoned by their homeland and experiencing alienation in their host nations the diaspora have attempted to carve out lives between two worlds Examining Nikkei communities and Japanese migration to Manchuria China Canada the Philippines Singapore and Latin America the book compares Nikkei experiences with those of Japanese transnational migrants living abroad The authors connect theoretical issues of ethnic identity with the Japanese and Nikkei cases analyzing the hidden dynamics of the social construction of race ethnicity and homeland and suggesting some of the ways in which diasporas are transforming
