

# *We Remember Him*

When we are weary and in need of strength,  
When we are lost and sick at heart,  
We remember him.  
When we have a joy we crave to share  
When we have decisions that are difficult to make  
When we have achievements that are based on his

We remember him.  
At the blowing of the wind and in the chill of winter  
At the opening of the buds and in the rebirth of spring,  
We remember him.  
At the blueness of the skies and in the warmth of summer  
At the rustling of the leaves and in the beauty of autumn,  
We remember him.  
At the rising of the sun and at its setting,  
We remember him.  
As long as we live, he too will live  
For he is now a part of us,  
As we remember him.

**12 Weeks of Winter and Beyond** Sandy McBay,2015-12-02 The death of a loved one is difficult for a myriad of reasons and coming to terms with our grief demands attention and energy Sudden unexpected death can be challenging to negotiate and requires some different coping strategies The simple word disbelief can be a significant hurdle for months Since each person's grief response is highly personal and individual to them this book is less prescriptive than it is one of honouring one person's response to the sudden death of her husband And while there are some common predictors in bereavement the telling of one's story is often the greatest healer An Account of the Life and Death of Mr. Philip Henry

of our lives In Sight Unseen Budd Hopkins and coauthor Carol Rainey show how fascinating discoveries in modern science support the plausibility of the UFO phenomenon Featuring sixteen never before published cases Sight Unseen probes two newly uncovered patterns in alien abduction cases of UFO invisibility and reports of genetically altered alien beings who interact with humans during their routine lives The invisibility accounts detailed by Hopkins include numerous daylight abductions in densely populated urban areas all apparently unseen and accomplished through a technology of invisibility Two air force non coms are snatched from the tarmac of a busy military airfield An Australian family is levitated up into a hovering craft while the father remains paralyzed on the ground with a camera to his eye The resulting evidence on film is discussed in terms of our own scientific advances In the second series of cases abductees report encounters with beings who appear human but apparently possess paranormal powers and stunted emotional ranges Three young women unknown to each other are mysteriously summoned to job interviews In ordinary office settings they encounter human looking beings who lead them into baffling UFO abduction experiences A Wisconsin farmer meets Damoe a man with odd behavior who closely resembles his son Damoe eventually reveals himself as an accomplice of UFO occupants in a startling abduction of the farmer and his wife Five year old Jen is abducted at night to a nearby playground There she must teach the techniques and skills of play to twelve seemingly identical quasi human children Along with these bizarre first person stories told by credible people Hopkins and Rainey explore cutting edge advances in our own technologies and scientific theories that show how these new UFO patterns could have a concrete basis in contemporary science Included are an examination of cloaking devices for aircraft mind control technologies and teleportation achieved in the lab Perhaps the most compelling argument to support these cases lies in the startling and controversial new science of transgenics that actually allows for the creation of alien human beings
