Remembering Independence Carola Lentz, David Lowe, 2018-04-19 Remembering Independence explores the commemoration and remembrance of independence following the great wave of decolonisation after the Second World War. Drawing on case studies from Africa, Asia and with reference to the Pacific, the authors find that remembering independence was and still is highly dynamic. From flag raising moments to the present day, the transfer of authority from colonial rule to independent nation states has served as a powerful mnemonic focal point. Remembering independence in state as well as non-state constructions connects to changing contemporary purposes and competing political visions. Independence is a flexible idea, both a moment in time and a project, a carrier of hopes and ideals of social justice and freedom but also of disappointments and frustrated futures. This richly illustrated volume draws attention to the broad range of media employed in remembering independence, ranging from museums and monuments to textual, oral and ritual formats of commemorative events such as national days. Combining insights from history and anthropology, this book will be essential reading for all students of the history of empire, decolonisation, nation building and post-colonial politics of memory. *Japanese Perceptions of Papua New Guinea* Ryota Nishino, 2022-09-08 Japanese Perceptions of Papua New Guinea exposes the interactions between two ostensibly opposing worlds: war and travel. While soldiers deployed to Eastern New Guinea during the Second World War recalled first-hand their experience of war, post-war tourists visited battle sites, met locals and drew their own conclusions about the Pacific island from the Japanese media. This book, by bringing travel and war closer together through a comparative analysis of veterans' memoirs and the records of postwar travelers, explores how individuals consume, create and recreate war histories. As a result, Ryota Nishino reveals the extent to which the memory of defeat for both soldiers and civilians alike influenced the Japanese perceptions of Papua New Guinea and shaped future relations between the countries. Translating a diverse range of Japanese primary and archival sources, this book provides the first English language analysis of the social and political impact of Japanese interpretations of the PNG campaign and its aftermath. As such, *Japanese Perceptions of Papua New Guinea: War, Travel and the Reimagining of History* is an important text for anyone seeking a sophisticated understanding of war, nationalism and memory culture in Japan and the Pacific Islands. *War at the Margins* Lin Poyer, 2022-09-30 War at the Margins offers a broad comparative view of the impact of World War II on Indigenous societies. Using historical and ethnographic sources, Lin Poyer examines how Indigenous communities emerged from the trauma of the wartime era with social forms and cultural ideas that laid the foundations for their twenty-first century emergence as players on the world's political stage. With a focus on Indigenous voices and agency, a global overview reveals the enormous range of wartime activities and impacts on these groups, connecting this work with comparative history, Indigenous studies and anthropology. The distinctiveness of Indigenous peoples offers a valuable perspective on World War II as those on the margins of Allied and Axis empires and nation states were drawn in as soldiers, scouts, guides, laborers and

victims Questions of loyalty and citizenship shaped Indigenous combat roles from integration in national armies to service in separate ethnic units to unofficial use of their special skills where local knowledge tilted the balance in military outcomes Front lines crossed Indigenous territory most consequentially in northern Europe Southeast Asia and the Pacific Islands but the impacts of war go well beyond combat Like others around the world Indigenous civilian men and women suffered bombing and invasion displacement forced labor military occupation and economic and social disruption Infrastructure construction and demand for key resources affected even areas far from front lines World War II dissolved empires and laid the foundation for the postcolonial world Indigenous people in newly independent nations struggled for autonomy while other veterans returned to home fronts still steeped in racism National governments saw military service as evidence that Indigenous peoples wished to assimilate but wartime experiences confirmed many communities commitment to their home cultures and opened new avenues for activism By century s end Indigenous Rights became an international political force offering alternative visions of how the global order might make room for greater local self determination and cultural diversity In examining this transformative era War at the Margins adds an important contribution to both World War II history and to the development of global Indigenous identity

Recalling Religions Peter Kerry Powers,2001 Peter Powers brings together critical sophistication in both theology and cultural history while also demonstrating superior skills at literary analysis There are few books that address the role of religion in American fiction let alone ethnic American fiction None do so in so profoundly revisionary a way as this Joseph T Skerrett Jr University of Massachusetts Amherst In Recalling Religions Peter Kerry Powers demonstrates the pervasive influence of religion in the literature produced by ethnic women writers in late twentieth century America Through close readings of works by Alice Walker Maxine Hong Kingston Leslie Marmon Silko and Cynthia Ozick the author shows how particular religious traditions have served as a resource for ethnic women enabling them to sustain their communities in the face of oppression Powers s analysis serves as an important corrective to earlier investigations of literature and religion Too often he argues such studies have functioned with an abstract or individualistic notion of religion thus downplaying the significance of ethnic traditions and practices Other studies have emphasized the religious traditions of discrete groups but have failed to see the points of contact and common purpose between different ethnic experiences By examining writers with disparate religious heritages Powers introduces important new insights He finds that even as traditions and cultural memories have nurtured ethnic women writers their works have frequently rewritten or recreated such traditions for the present day seeking for instance to overcome or transcend the sexism that may have characterized earlier periods In its explorations of Walker Kingston Silko and Ozick Recalling Religions identifies broader trends that further our understanding of both American literature and religious culture The Author Peter Kerry Powers is associate professor of English at Messiah College in Grantham Pennsylvania His articles and reviews have appeared in *South Atlantic Review* *African American Review* *American Literature* *MELUS* and other publications

**Guarding the Periphery** Tristan Moss,2017-07-05 In Guarding the Periphery The Australian Army in Papua New Guinea 1951-75 Tristan Moss explores the operational social and racial aspects of this unique force during the height of the colonial era in PNG and during the progression to independence

*Remembrance of Pacific Pasts* Robert Borofsky,2020-02-29 How does one describe the Pacific s pasts The easy confidence historians once had in writing about the region has disappeared in the turmoil surrounding today s politics of representation Earlier narratives that focused on what happened when are now accused of encouraging myths of progress *Remembrance of Pacific Pasts* takes a different course It acknowledges history s multiplicity and selectivity its inability to represent the past in its entirety as it really was and instead offers points of reference for thinking with and about the region s pasts It encourages readers to participate in the historical process by constructing alternative histories that draw on the volume s chapters The book s thirty four contributions written by a range of authors spanning a variety of styles and disciplines are organized into four sections The first presents frames of reference for analyzing the problems poetics and

politics involved in addressing the region's pasts today. The second considers early Islander Western contact focusing on how each side sought to physically and symbolically control the other. The third deals with the colonial dynamics of the region, the tensions of empire that permeated imperial rule in the Pacific. The fourth explores the region's postcolonial politics through a discussion of the varied ways independence and dependence overlap today. *Remembrance of Pacific Pasts* includes many of the region's most distinguished authors such as Albert Wendt, Greg Denning, Epeli Hau'ofa, Marshall Sahlins, Patricia Grace, and Nicholas Thomas. In addition, it features chapters by well-known writers from outside Pacific Studies: Edward Said, James Clifford, Richard White, and Gyan Prakash, which help place the region's dynamics in comparative perspective. By moving Pacific history beyond traditional empirical narratives to new ways for conversing about history, by drawing on current debates surrounding the politics of representation to offer different ways for thinking about the region's pasts, this work has relevance for students and scholars of history, anthropology, and cultural studies both within and beyond the region.

**International Encyclopedia of Linguistics** William J. Frawley, 2003-05-01. The *International Encyclopedia of Linguistics*, 2nd Edition, encompasses the full range of the contemporary field of linguistics, including historical, comparative, formal, mathematical, functional, and philosophical linguistics, with special attention given to interrelations within branches of linguistics and to relations of linguistics with other disciplines. Areas of intersection with the social and behavioral sciences—ethnolinguistics, sociolinguistics, psycholinguistics, and behavioral linguistics—receive major coverage along with interdisciplinary work in language and literature, mathematical linguistics, computational linguistics, and applied linguistics. Longer entries in the *International Encyclopedia of Linguistics*, ranging up to four thousand words, survey the major fields of study; for example, anthropological linguistics, history of linguistics, semantics, and phonetics. Shorter entries treat specific topics within these fields, such as code switching, sound symbolism, and syntactic features. Other short entries define and discuss technical terms used within the various subfields or provide sketches of the careers of important scholars in the history of linguistics, such as Leonard Bloomfield, Roman Jakobson, and Edward Sapir. A major portion of the work is its extensive coverage of languages and language families. From those as familiar as English, Japanese, and the Romance languages to Hittite, Yoruba, and Nahuatl, all corners of the world receive treatment. Languages that are the subject of independent entries are analyzed in terms of their phonology, grammatical features, syntax, and writing systems. Lists attached to each article on a language group or family enumerate all languages extinct or still spoken within that group and provide detailed information on the number of known speakers, geographical range, and degree of intelligibility with other languages in the group. In this way, virtually every known language receives coverage. For ease of reference and to aid research, the articles are alphabetically arranged, each signed by the contributor, supported by up-to-date bibliographies, line drawings, maps, tables, and diagrams, and readily accessible via a system of cross-references and a detailed index and synoptic outline. Authoritative, comprehensive, and innovative, the 2nd edition of the *International Encyclopedia of Linguistics* will be an

indispensable addition to personal public academic and research libraries and will introduce a new generation of readers to the complexities and concerns of this field of study *Perilous Memories* Takashi Fujitani, Geoffrey M. White, Lisa Yoneyama, 2001-06-21 A rethinking of the differing national memories of the Second World War in the Pacific in light of recent theories of nationalism imperialism and colonialism [The Deadly Ethnic Riot](#) Donald L. Horowitz, 2023-11-15 Donald L. Horowitz's comprehensive consideration of the structure and dynamics of ethnic violence is the first full scale comparative study of what the author terms the deadly ethnic riot an intense sudden lethal attack by civilian members of one ethnic group on civilian members of another ethnic group Serious frequent and destabilizing these events result in large numbers of casualties Horowitz examines approximately 150 such riots in about fifty countries mainly in Asia Africa and the former Soviet Union as well as fifty control cases With its deep and thorough scholarship incisive analysis and profound insights *The Deadly Ethnic Riot* will become the definitive work on its subject Furious and sadistic the riot is nevertheless directed against a precisely specified class of targets and conducted with considerable circumspection Horowitz scrutinizes target choices participants and organization the timing and supporting conditions for the violence the nature of the events that precede the riot the prevalence of atrocities during the violence the location and diffusion of riots and the aims and effects of riot behavior He finds that the deadly ethnic riot is a highly patterned but emotional event that tends to occur during times of political uncertainty He also discusses the crucial role of rumor in triggering riots the surprisingly limited role of deliberate organization and the striking lack of remorse exhibited by participants Horowitz writes clearly and eloquently without compromising the complexity of his subject With impressive analytical skill he takes up the important challenge of explaining phenomena that are at once passionate and calculative Donald L. Horowitz's comprehensive consideration of the structure and dynamics of ethnic violence is the first full scale comparative study of what the author terms the deadly ethnic riot an intense sudden lethal attack by civilian members of one ethn
